

801—10.4(35D) Application processing.

10.4(1) Applications received by the admissions office shall be reviewed for completeness. The county commission of veterans affairs shall be required to submit additional information if needed.

10.4(2) The admissions committee shall assign the level and category of care required by the applicant. If a special care unit or treatment is required, this shall be designated.

10.4(3) Regardless of whether or not the applicant can be immediately admitted, the applicant shall be notified by the director of admissions or designee of the applicant's designated level and category of care. An applicant who does not wish to be admitted to the designated level and category of care may submit evidence to show that another level or category of care may be more appropriate. However, once the admissions committee makes a final determination, the applicant who does not wish to be admitted under the designated level or category of care may withdraw the application in writing or have the application denied.

10.4(4) When space is not immediately available in the level and category of care assigned or on the appropriate special care unit, the applicant's name shall be placed on the appropriate waiting list for that level and category of care or special care unit in the order of the date the application was received.

10.4(5) When space is available at time of application, or when space becomes available in accordance with the designated waiting list, the applicant shall be scheduled for admittance to IVH as follows:

a. An applicant whose physical examination or personal functional assessment, or both if applicable, was completed more than three months prior to the scheduled date of admittance may be required to obtain another physical examination by a medical provider or complete a current personal functional assessment, or both if applicable. This information shall be reviewed to determine that the applicant is capable of functioning at the previously determined level of care and category.

b. An applicant who requires a different level and category of care than previously determined shall be admitted to the level of care required if a bed is available or shall have the applicant's name placed on the waiting list for the appropriate level and category of care in accordance with the date the original application was received.

c. If there is a question regarding the level and category of care for which the applicant qualifies, the applicant shall be scheduled for a preadmission examination with appropriate staff in order to make a determination of appropriate level and category of care. If there is a question of whether or not the applicant can be appropriately treated within the scope of existing programs or facility license or both, the applicant shall be scheduled for a preadmission screening by appropriate staff.

d. If planned admission is to a Title XIX certified area, the PASARR must be completed and approval obtained prior to admission.
