

701—219.2(423) Contractors—consumers of building materials, supplies, and equipment by statute. 2005 Iowa Code subsection 423.2(1)“b” provides that sales of building materials, supplies and equipment to owners, contractors, subcontractors or builders for the erection of buildings or the alteration, repair or improvement of real property are retail sales in whatever quantity sold. This means that a contractor, subcontractor, or builder cannot claim an exemption for resale when purchasing building materials or supplies even if the contractor, subcontractor, or builder later separately itemizes material and labor charges for construction contracts. Building materials and supplies would generally consist of items which are incorporated into real property, lose their identity as tangible personal property and cannot be removed without altering the realty, or which are consumed by the contractor during the performance of the construction contract. See subrules 219.3(1), 219.3(2) and 219.3(3). Building equipment would ordinarily consist of machinery and tools. See subrule 219.3(4). The fact that a contractor, subcontractor or builder holds an Iowa retail sales tax permit and has a tax number does not entitle that person to purchase building materials, supplies and equipment without paying sales tax to the vendor. See rules 219.3(423) and 219.4(423).

When bidding on a contract, a contractor (general, special or subcontractor) should anticipate that sales or use taxes will increase the cost of materials by the tax unless the sponsor is a designated exempt entity; reference 701—subrule 19.12(5). The necessary allowance should be made in figuring the bid inasmuch as the contractor will be held responsible for paying the tax on building supplies, materials and equipment. The tax should not be identified as a separate item in the formal bid since the contractor cannot charge sales tax.
