83.61(2) Need for services.

a. Applicants currently receiving Medicaid case management shall have the applicable staff coordinate with the department to arrange completion of the interRAI assessment tool.

b. Applicants not receiving services as set forth in paragraph 83.61(2)“a” shall have a department service worker or case manager:

(1) Arrange for completion of the interRAI assessment tool for the initial level of care determination;

(2) Establish an initial interdisciplinary team for HCBS intellectual disability waiver services; and

(3) With the initial interdisciplinary team, identify the applicant’s needs and desires as well as the availability and appropriateness of services.

c. Applicants meeting other eligibility criteria who do not have a Medicaid case manager will be referred to a Medicaid case manager.

d. Services will not exceed the number of maximum units established for each service.

e. The cost of services shall not exceed unit expense maximums. Requests will only be reviewed for funding needs exceeding the supported community living service unit cost maximum. Requests require special review by the department and may be denied as not cost-effective.

f. The case manager shall coordinate with the department for completion of an interRAI assessment tool for the initial level of care determination within 30 days from the date of the HCBS application unless the case manager can document difficulty in locating information necessary to arrange the assessment or other circumstances beyond the case manager’s control.

g. At initial enrollment, the case manager will establish an interdisciplinary team for each applicant and, with the team, identify the applicant’s need for service based on the applicant’s needs and desires as well as the availability and appropriateness of services. The Medicaid case manager will complete an annual review thereafter. The following criteria will be used for the initial and ongoing identification of need for services:

(1) The assessment will be based on the results of the most recent interRAI assessment or the off-year assessment tool.

(2) Service plans must be developed or reviewed to reflect use of all appropriate nonwaiver Medicaid services so as not to replace or duplicate those services.

(3) Service plans for applicants aged 16 or under which include supported community living services beyond intermittent will be approved (signed and dated) by the department. The service worker, department QIDP, or Medicaid case manager will attach a written request for a variance from the maximum for intermittent supported community living with a summary of services and service costs. The written request for the variance will provide a rationale for requesting supported community living beyond intermittent. The rationale will contain sufficient information for the designee to make a decision regarding the need for supported community living beyond intermittent.

h. Interim medical monitoring and treatment services must be needed because all usual caregivers are unavailable to provide care due to one of the following circumstances:

(1) Employment. Interim medical monitoring and treatment services are to be received only during hours of employment.

(2) Academic or vocational training. Interim medical monitoring and treatment services provided while a usual caregiver participates in postsecondary education or vocational training shall be limited to 24 periods of no more than 30 days each per caregiver as documented by the service worker. Time spent

in high school completion, adult basic education, GED, or English as a second language does not count toward the limit.

(3) Absence from the home due to hospitalization, treatment for physical or mental illness, or death of the usual caregiver. Interim medical monitoring and treatment services under this subparagraph are limited to a maximum of 30 days.

(4) Search for employment.

1. Care during job search shall be limited to only those hours the usual caregiver is actually looking for employment, including travel time.

2. Interim medical monitoring and treatment services may be provided under this paragraph only during the execution of one job search plan of up to 30 working days in a 12-month period, approved by the department service worker or targeted case manager pursuant to 441—subparagraph 170.2(2)“b”(5).

3. Documentation of job search contacts shall be furnished to the department service worker or targeted case manager.

83.61(3) *HCBS intellectual disability waiver program limit.* The number of persons receiving HCBS intellectual disability waiver services in the state will be limited to the number of payment slots provided in the HCBS intellectual disability waiver approved by the Centers for Medicare and Medicaid Services (CMS). The department will make a request to CMS to adjust the program limit as deemed necessary.

a. The payment slots are available on a statewide basis. These slots will be available based on the prioritized need of an applicant pursuant to subrule 83.61(4).

b. When services are denied because the limit is reached, a notice of decision denying service based on the limit and stating that the person’s name will be put on a waiting list will be sent to the person by the department.

83.61(4) *Securing a payment slot.* The department will determine whether a payment slot is available for each applicant for the HCBS intellectual disability waiver.

a. A payment slot will be assigned to the applicant upon confirmation of an available slot.

(1) Once a payment slot is assigned, the department will give written notice to the applicant.

(2) The department will hold the payment slot for the applicant as long as reasonable efforts are being made to arrange services and the applicant has not been determined to be ineligible for the program. If services have not been initiated and reasonable efforts are no longer being made to arrange services, the slot will revert for use by the next person on the waiting list, if applicable. The applicant originally assigned the slot must reapply for a new slot.

b. If no payment slot is available, the applicant will be placed on a statewide priority waiting list. The department will assess each applicant to determine the applicant’s priority need. The assessment shall be made for all applicants who are on a waiting list maintained by the state or a county.

(1) Emergency need criteria are as follows:

1. The usual caregiver has died or is incapable of providing care, and no other caregivers are available to provide needed supports.

2. The applicant has lost primary residence or will be losing housing within 30 days and has no other housing options available.

3. The applicant is living in a homeless shelter and no alternative housing options are available.

4. There is founded abuse or neglect by a caregiver or others living within the home of the applicant, and the applicant must move from the home.

5. The applicant cannot meet basic health and safety needs without immediate supports.

(2) Urgent need criteria are as follows:

1. The caregiver will need support within 60 days in order for the applicant to remain living in the current situation.

2. The caregiver will be unable to continue to provide care within the next 60 days.

3. The caregiver is 55 years of age or older and has a chronic or long-term physical or psychological condition that limits the ability to provide care.

4. The applicant is living in temporary housing and plans to move within 31 to 120 days.

5. The applicant is losing permanent housing and plans to move within 31 to 120 days.

6. The caregiver will be unable to be employed if services are not available.

7. There is a potential risk of abuse or neglect by a caregiver or others within the home of the applicant.

8. The applicant has behaviors that put the applicant at risk.

9. The applicant has behaviors that put others at risk.

10. The applicant is at risk of facility placement when needs could be met through community-based services.

(3) Applicants who meet an emergency need criterion will be placed on the priority waiting list based on the total number of criteria in subparagraph 83.61(4)“b”(1) that are met. If applicants meet an equal number of criteria, the position on the waiting list will be based on the date of application and the age of the applicant. The applicant who has been on the waiting list longer will be placed higher on the waiting list. If the application date is the same, the older applicant will be placed higher on the waiting list.

(4) Applicants who meet an urgent need criterion will be placed on the priority waiting list after applicants who meet emergency need criteria. The position on the waiting list will be based on the total number of criteria in subparagraph 83.61(4)“b”(2) that are met. If applicants meet an equal number of criteria, the position on the waiting list will be based on the date of application and the age of the applicant. The applicant who has been on the waiting list longer will be placed higher on the waiting list. If the application date is the same, the older applicant will be placed higher on the waiting list.

(5) Applicants who do not meet emergency or urgent need criteria will be placed lower on the waiting list than the applicants meeting urgent need criteria, based on the date of application. If the application date is the same, the older applicant will be placed higher on the waiting list.

(6) Applicants will remain on the waiting list until a payment slot has been assigned to them for use, they withdraw from the list, or they become ineligible for the waiver. If there is a change in an applicant’s need, the applicant may contact the local department office and request that a new assessment be completed. The outcome of the assessment will determine placement on the waiting list as directed in this subrule.

c. To maintain the approved number of members in the program, persons will be selected from the waiting list as payment slots become available, based on their priority order on the waiting list.

(1) Once a payment slot is assigned, the department will give written notice to the person within five working days.

(2) The department will hold the payment slot for 30 days for the person to file a new application. If an application has not been filed within 30 days, the slot will revert for use by the next person on the waiting list, if applicable. The person originally assigned the slot must reapply for a new slot.

d. The state reserves payment slots each waiver year (July 1 to June 30) for use by children who must reside outside the family home in a residential-based supported community living licensed residential care facility. The state also reserves payment slots each waiver year (July 1 to June 30) for use by members living in an ICF/ID, nursing facility, or out-of-state placement, or transitioning from the Money Follows the Person Grant, who choose to access services in the intellectual disability waiver program and leave the ICF/ID, nursing facility, or out-of-state placement to live in the community.

(1) Applicants who currently reside in an ICF/ID or nursing facility and have resided in that setting for four or more months may request a reserved capacity slot through the intellectual disability waiver.

(2) Applicants will be allocated a reserved capacity slot on the basis of the date the request is received by the income maintenance worker or the waiver slot manager.

(3) In the event that more than one request for a reserved capacity slot is received at one time, applicants will be allocated the next available reserved capacity slot on the basis of the month of birth, January being month one and the lowest number.

(4) Persons who do not fall within the available reserved capacity slots will have the person’s name maintained on the reserved capacity slot waiting list. As reserved capacity slots become available at the beginning of the next waiver year, persons will be selected from the reserved capacity slot waiting list to utilize the number of approved reserved capacity slots based on the person’s order on the waiting list.
