

657—23.14(124,155A) Provision of drugs to a facility for immunization or screening programs. A pharmacy may provide drugs to be used in the care facility for a health immunization or ongoing screening program, such as influenza vaccine, tuberculin skin test, or hepatitis-B.

23.14(1) Labeling. The pharmacy label shall be affixed so as not to obscure the manufacturer's label and shall include the following information.

- a. Identification of pharmacy;
- b. Name of facility;
- c. Name of biological or drug;
- d. Route of administration when necessary for clarification;
- e. Strength of biological or drug;
- f. Auxiliary labels as needed;
- g. Date dispensed.

23.14(2) Influenza and pneumococcal vaccines. A patient-specific medication order shall not be required prior to administration to an adult patient of influenza or pneumococcal vaccines pursuant to physician-approved facility policy and after the patient has been assessed for contraindications.

23.14(3) Notification. The facility shall submit to the provider pharmacy a listing of those residents or staff members who have been immunized utilizing vaccine from each vial supplied by the provider pharmacy.
