

653—14.6(272C) Type of program. The IPHP is an individualized recovery, rehabilitation, or maintenance program designed to meet the specific needs of the impaired licensee. The committee, in consultation with an IPHC-approved evaluator, shall determine the type of recovery, rehabilitation, or maintenance program required to treat the applicant's or licensee's impairment. The committee shall prepare a health contract, to be signed by the applicant or licensee, that shall provide a detailed description of the goals of the program, the requirements for successful participation, and the applicant's or licensee's obligations therein.
