

**261—174.10 (15,15G,83GA,SF344) Capital investment, qualifying investment for tax credit programs, and investment qualifying for tax credits.**

**174.10(1) Capital investment.** The department reports on the amount of capital investment involved with funded projects. This rule lists the categories of expenditures that are included when the department determines the amount of capital investment associated with a project.

**174.10(2) Qualifying investment for tax credit programs.** For the tax credit programs (EZ and HQJP), there are statutorily required minimum investment thresholds that must be met for the project to be considered to receive an award. Not all expenditures count toward meeting the investment threshold. This rule identifies the categories of expenditures that can be included when the amount of investment is calculated for purposes of meeting program eligibility threshold requirements.

**174.10(3) Investment qualifying for tax credits.** Not all of the expenditures categories used to calculate the investment amount needed to meet program threshold requirements qualify for purposes of claiming the tax credits. The following table identifies the expenditures that do not qualify for tax credits.
