

**441—106.9 (237B) Emergencies.**

**106.9(1)** A children's center shall have written emergency plans for responding to evacuations, fires, tornadoes, floods, blizzards, other weather incidents, power failures, bomb threats, chemical spills, earthquakes, or other natural or man-made disasters that could create structural damage to the children's center or pose health or safety hazards.

*a.* The emergency plans shall include guidelines for responding to situations involving intruders within the children's center and grounds, intoxicated persons, lost or abducted children, and evacuations.

*b.* Evacuations shall be practiced periodically.

**106.9(2)** The emergency plans shall include procedures for annual training regarding the contents and implementation of the plans for staff, volunteers, or others who perform duties under a subcontract with the children's center.

**106.9(3)** A children's center shall have:

*a.* Written policies and procedures for medical and dental emergencies; and

*b.* Sufficient information and authorization to meet the medical and dental emergencies of children.

**106.9(4)** Emergency telephone numbers shall be readily available, including emergency telephone numbers for parents or guardians.
