b. Loss of consciousness or voluntary control.

(1) If a person is licensed pursuant to subrule 605.4(4), the department shall issue the first driver's license with a restriction stating: "Medical report to be furnished at the end of six months."

(2) If this medical report shows that the person has been free of an episode of loss of consciousness or voluntary control since the previous medical report and the report recommends licensing, the department shall issue a duplicate driver's license with a restriction stating: "Medical report required at renewal." At each renewal accompanied by a favorable medical report, the department shall issue a two-year driver's license with the same restriction.

(3) If the latest medical report indicates the person experienced only a single nonrecurring episode, the cause has been identified, and the qualified medical professional is not treating or has not treated the person for the episode and believes it is unlikely to recur, the department may waive the medical report requirement upon receipt of a favorable recommendation from a qualified medical professional.

(4) The department may remove the medical report requirement and issue a full-term driver's license if recommended by a qualified medical professional and if the latest medical information on file with the department indicates the person has not had an episode of loss of consciousness or voluntary control and has not been prescribed medications to control such episodes during the 24-month period immediately preceding application for a license.

(5) The department may remove the medical report requirement and issue a full-term driver's license if recommended by a qualified medical professional and if the latest medical information on file with the department indicates the person has not had an episode of loss of consciousness or voluntary control during the 10-year period immediately preceding application for a license.
