

199—36.5(476) Energy efficiency report and plan update requirements. Each utility not required to be rate-regulated shall file a biennial report containing the results of its energy efficiency programs on or before December 31 of each odd-numbered year. The utility may submit any forms or reports required by and prepared for a federal agency in lieu of this report.

36.5(1) The report on the results of the utility's energy efficiency programs in place during each of the two previous completed calendar years shall include:

- a.* Total incremental annual energy and peak demand savings for all energy efficiency programs by customer class for each year;
- b.* Total peak demand savings for any demand response programs by customer class for each year;
- c.* Total reporting year incremental costs for all energy efficiency programs by customer class for each year;
- d.* Total reporting year incremental costs for any demand response programs by customer for each year; and
- e.* Other relevant information.

36.5(2) Each utility shall document and maintain any updates or amendments to the utility's initial energy efficiency plan including the goals and the projected results of all energy efficiency programs the utility plans to implement.
