

821—8.1(48A) Cataloging registration data. Every agency which registers voters in a paperless manner shall daily catalog a file of registration records to the computer system used by the registrar. The file shall contain all voter registration records collected by the agency during the previous working day, except that the file containing registration records collected on the last day of registration for a regularly scheduled election shall be cataloged not later than 8 p.m. of that day.
