

567—100.9(455B,455D) General operating requirements for sanitary disposal projects and solid waste management activities. Every application for a permit issued by the department shall detail the means of compliance with the following operating requirements. All projects shall be operated in conformance with these requirements and any specific requirements imposed by applicable rules or permit conditions.

100.9(1) Open burning shall be prohibited, except when permitted by 567—Chapter 23. Any burning to be conducted at the site shall be at a location separate and distinct from the operating area.

100.9(2) Unless the project is regulated by 567—101.5(455B), litter shall be confined to the property on which the project is located. At the conclusion of each day of operation, any litter strewn beyond the confines of the operating area shall be collected and stored in covered leakproof containers or properly disposed.

100.9(3) Scavenging shall be prohibited. Any salvaging to be conducted must be described in the application, and all salvaged materials must be stored and removed from the project site in conformance with the permit conditions. Each area where salvaged materials are stored shall be segregated and clearly marked.

100.9(4) Effective means shall be taken to prevent the attraction or harborage of vectors and to prevent a nuisance or public health hazard.

100.9(5) Equipment designated in the plans and specifications or equivalent equipment shall be used to operate the site at all times.

100.9(6) The major internal roads shall be of all-weather construction and maintained in good condition. Dust shall be controlled on internal roads.

100.9(7) Sites open to the public or otherwise required by a permit issued by the department for that site shall have a permanent sign posted at the site entrance specifying:

- a.* Name of the operation.
- b.* Site permit number.
- c.* Hours and days the site is open.
- d.* Telephone number.
