

567—101.408(455B) Temporary solid waste storage requirements. Unless otherwise specified within a permit, a solid waste transfer station shall comply with the following storage requirements.

101.408(1) *Areas permitted for storage.* Solid waste shall be stored in the following manner.

- a. Inside a solid waste transfer station building in a clearly marked designated area;
- b. Inside a solid waste transfer station building in a surge pit;
- c. Inside a secure solid waste transport vehicle, including intermodal container systems, protected from precipitation and vectors; or
- d. Inside dumpsters, compactors, roll-off boxes, and other solid waste receptacles adequate to prevent the accidental discharge of its contents and the attraction or harborage of vectors.

101.408(2) *Storage time requirements.* Solid waste shall be stored no longer than the following periods of time unless shorter storage times are required by the local government authority to prevent a nuisance or public health hazard.

- a. Inside a solid waste transfer station building without a surge pit or similar operational structure for not more than four days, excluding Sundays and national holidays.
- b. Inside a solid waste transfer station building in a surge pit for not more than seven days, including Sundays and national holidays.
- c. Inside a solid waste transport vehicle designated to travel only via roadway for not more than four days, excluding Sundays and national holidays.
- d. Inside a solid waste transport vehicle designated to travel via rail or navigable waterway, including intermodal container systems, for not more than seven days, including Sundays and national holidays.
- e. Inside dumpsters, roll-off boxes, and other solid waste receptacles at registered solid waste transfer stations for not more than four days, excluding Sundays and national holidays.
