

567—101.709(455B) Closure and post-closure care account(s). Except as provided in 101.709(10), the holder of a permit for a sanitary landfill shall maintain the closure and post-closure care account(s) as part of financial assurance pursuant to Iowa Code section 455B.306(9) “b.” The accounts shall be specific to a particular facility.

101.709(1) Money in the accounts shall not be assigned for the benefit of creditors, except the state of Iowa.

101.709(2) Money in the accounts shall not be used to pay any final judgment against a permit holder arising out of the ownership or operation of the site during its active life or after closure.

101.709(3) Withdrawal of funds. Except as provided in 101.709(4), money in the accounts may be withdrawn without departmental approval only for the purpose of funding closure, including partial closure, or post-closure care activities that are in conformance with the sanitary landfill’s approved closure and post-closure plans. Withdrawals for activities not in conformance with the approved closure and post-closure plans must receive prior written approval from the department. Permit holders using a trust fund established pursuant to 101.707(1) to satisfy the requirements of this rule must comply with the requirements of 101.707(1) “g” prior to withdrawal.

101.709(4) Excess funds. If the balance of the closure and post-closure care account(s) exceeds the current cost estimate for closure or post-closure care at any time, the permit holder may withdraw the excess funds so long as the withdrawal does not cause the balance to be reduced below the amount of the current cost estimate.

101.709(5) Proof of establishment of account. A permit holder shall, on a form prescribed by the department, at the time of permit application and renewal, submit a statement of account signed by the permit holder, which indicates that accounts have been established pursuant to 567—101.709(455B).

101.709(6) An account established pursuant to 101.707(1) for a trust fund or 101.707(9) for a local government dedicated fund satisfies the requirements of 567—101.709(455B), and the account must comply with Iowa Code section 455B.306(9) “b.”

101.709(7) Yearly deposits. Unless otherwise authorized by the department or provided for within this division (i.e., trust fund or local government dedicated fund deposit calculation), deposits into the closure and post-closure care account(s) shall be made yearly in the amount specified in this subrule by the close of the permitted facility’s fiscal year. The closure and post-closure care account(s) shall be fully funded at the time of site closure. For active sanitary landfills not using a trust fund or local government dedicated fund as the sole financial assurance instrument, the minimum yearly deposit to the closure and post-closure care account(s) shall be determined using the following formula:

$$\frac{CE - AB}{RPC} \times TR = \text{Yearly Deposit}$$

Where:

“CE” is the current cost estimate of closure and post-closure care costs.

“AB” is the balance of the closure and post-closure care account(s) at the close of the previous fiscal year.

“RPC” is the remaining permitted capacity, in tons, of the sanitary landfill as of the start of the permit holder’s fiscal year. RPC may include those areas that have yet to be constructed but have received written design approval from the department. Justification for RPC calculations shall be submitted annually pursuant to 567—101.704(455B) and 567—101.705(455B).

“TR” is the number of tons of solid waste disposed of at the site in the permit holder’s prior fiscal year. For closed landfills, the closure and post-closure care account(s) shall remain fully funded throughout the post-closure period. Any account balance deficiency shall be rectified by the end of the permitted facility’s fiscal year in which the account balance deficiency was identified.

101.709(8) The closure and post-closure care account(s) may be commingled with other accounts so long as the amounts credited to each account balance are reported separately, pursuant to 101.704(1) and 101.705(1).

101.709(9) The department shall have full rights of access to all funds existing in a permitted facility's closure and post-closure care account(s), at the sole discretion of the department, if the permit holder fails to undertake closure and post-closure care activities after being directed to do so by a final agency action of the department. These funds shall be used only for the purposes of funding closure and post-closure care activities at the site.

101.709(10) Pursuant to Iowa Code section 455B.306(12), a sanitary landfill owned by an electric generating facility and used exclusively for the disposal of coal combustion residual shall not be required to maintain a closure and post-closure care account(s) but may demonstrate financial assurance in accordance with this division by any of the instruments described in 567—101.707(455B) or by an alternative method acceptable to the department.

101.709(11) Pursuant to Iowa Code section 455B.306(9) “b,” industrial sanitary landfills permitted pursuant to Division III of this chapter and non-utility coal combustion residual sanitary landfills permitted pursuant to Division IV of this chapter prior to September 23, 2026, and for which closure and post-closure accounts have not been established pursuant to 101.709(5), shall submit proof of establishment within six months of September 23, 2026.
