

567—102.603(455D) Appliance demanufacturing permits.

102.603(1) *Permit required.* A person must obtain a Solid Waste Management permit pursuant to 567—subrule 100.4(2) for appliance demanufacturing from the department before conducting any demanufacturing activities.

102.603(2) *Types of permits.*

a. A person may request a permit that excludes appliances that contain a particular type of material (e.g., refrigerants, sodium chromate, PCBs, or mercury switches). Persons may not demanufacture or place their unique mark on an appliance that once contained a material that is excluded from their permit. An appliance demanufacturing facility must clearly post the types of appliances the facility does not accept.

b. Permits may be issued for both fixed facilities and mobile operations.

102.603(3) *Factors in permit issuance decisions.* The department may request that additional information be submitted for review to make a permit issuance decision. The department may review and inspect the facility, its agents and operators, and compliance history. The department may review whether a good-faith effort to maintain compliance and protect human health and the environment is being made and whether a compliance schedule is being followed. The department may issue a permit on a trial basis. After review of the permit application or a trial period, the department may require financial assurance as a condition of a permit. Any such condition will be consistent with those types detailed in Iowa Code section 455B.301(9).
