

567—103.2(455B,455D,455F) Definitions. For the purposes of this chapter, the following definitions; definitions found in 567—Chapter 100; and definitions found in Iowa Code chapters 455B, 455D and 455F shall apply:

“Applicant for regional collection center or satellite facility financial assistance” means a regional collection center or satellite facility operated by a private agency, a local government or a public agency representing local governments pursuant to Iowa Code chapter 28E.

“Eligible pounds” means household hazardous waste or hazardous waste from very small quantity generators that is disposed of or recycled by a licensed hazardous waste contractor. Very small quantity generator hazardous waste for which a regional collection center is required to charge a fee under Iowa Code section 455F.8A is considered eligible pounds if there is a corresponding disposal charge from a hazardous waste contractor. “Eligible pounds” means net weight as shown on final disposition documents. A manifest shows an estimated weight and cannot be used to determine eligible pounds. Very small quantity generator hazardous waste or household hazardous waste that has no disposal cost, or for which regional collection centers receive compensation or charge a fee, is not eligible pounds. Materials such as cathode ray tubes, electronics, and used oil that are not destined for final disposal, but are instead recycled for reuse of components, are not eligible pounds.

“Financial assistance” means monetary assistance including grants, cash payments, or support by other financial means.

“Hazardous waste contractor” means a private company that provides proper management (e.g., disposal, recycling) of hazardous waste. “Hazardous waste contractor” does not include regional collection centers.

“Regional collection center mobile unit” or *“mobile unit”* means a truck or trailer owned and operated under the direction of a regional collection center that can be moved to different sites within a region. A mobile unit is used to perform collection events and to transport collected materials to a regional collection center for sorting and consolidation.

“Very small quantity generator” means a generator that generates less than or equal to the following amounts in a calendar month:

1. 100 kilograms (220 pounds) of non-acute hazardous waste;
2. 1 kilogram (2.2 pounds) of acute hazardous waste listed in 40 CFR 261.31 or 40 CFR 261.33(e);
3. 100 kilograms (220 pounds) of any residue or contaminated soil, water or other debris resulting from the cleanup of a spill, into or on any land or water, of any acute hazardous waste listed in 40 CFR 261.31 or 40 CFR 261.33(e).
