

567—134.9(455B) Groundwater professional certification requirements. In order to be certified as a groundwater professional, a person must meet one or more of the criteria described in Iowa Code section 455B.474(9). For a person to qualify under Iowa Code section 455B.474(9) “b”(4), at least two years of related formal education is required. Pursuant to Iowa Code section 455B.474(9) “c,” for persons qualified to be certified under this rule, the failure to obtain a certificate prior to conducting applicable work will result in a \$50 civil penalty.
