

481—555.2(124) Registration required. Pursuant to Iowa Code section 124.302, an EMS program that intends to administer controlled substances in or into Iowa will obtain a controlled substances Act registration in accordance with rule 481—551.11(124). The registration will secondarily identify the medical director or pharmacy that owns the controlled substances used at the EMS program, if applicable.
