

265—24.1(16) Purpose. This chapter defines and structures the rent subsidy program for persons who participate in a home- and community-based services (HCBS) waiver program and who meet the nursing facility level of care for HCBS waiver services as established on or after July 1, 2005. This program is designed to provide rent assistance to these persons to help them live successfully in their own home and community until they become eligible for any other local, state or federal rent assistance.
