

871—22.13(96) Procedure to be followed by an employer wishing to have an active reporting unit coded for notice of claim for unemployment benefit mailing.

22.13(1) Any employing unit reporting under an assigned account and having one or more reporting units in the state of Iowa may request in writing or electronically the assignment of a reporting unit number which will be assigned for the specific purpose of mailing Form 65-5317, Notice of Claim Filing, to the reporting unit so that responsible personnel at that location can make a timely protest on Form 65-5317 if the employment separation was for a disqualifiable reason. Those accounts so wishing may request in writing that all unemployment insurance material other than Form 65-5317, Notice of Claim Filing, be sent to the home office or regional accounting office. All such requests must be from a responsible financial or operating officer of the firm and shall indicate:

- a.* Full trade name and address of each location to be coded.
- b.* The full employer name and address of the home office or financial office where all unemployment insurance material other than Form 65-5317 is to be sent.

22.13(2) It will be permissible to accept this information over the telephone by qualified personnel of the tax bureau provided that the employer makes known all of the above requested information and the person receiving this information notes the date it was received, the time it was received, who telephoned the information to the department, and the name and telephone number of a responsible party that can be contacted if further verification is needed with respect to the location coding procedure. Tax bureau personnel receiving this classified information by telephone will accordingly note this and make it a matter of permanent record.

This rule is intended to implement Iowa Code section 96.6(2).
