

657—19.8(124,155A) Storage and shipment of drugs and devices. The pharmacist in charge shall be responsible for developing, implementing, and enforcing policies and procedures to ensure compliance with rules 657—8.7(155A) and 657—8.15(155A) and USP standards for the storage and shipment of drugs and devices. Policies and procedures shall provide for the shipment of controlled substances via a secure and traceable method, and all records of such shipment and delivery to Iowa patients shall be maintained for a minimum of two years from date of delivery.
