

441—75.57 (249A) Income. When determining initial and ongoing eligibility for the family medical assistance program (FMAP) and FMAP-related Medicaid coverage groups, all unearned and earned income, unless specifically exempted, disregarded, deducted for work expenses, or diverted as defined in these rules, shall be considered. Unless otherwise specified at rule 441—75.1(249A), the determination of initial eligibility is a three-step process. Initial eligibility shall be granted only when (1) the countable gross nonexempt unearned and earned income received by the eligible group and available to meet the current month's needs is no more than 185 percent of living costs as identified in the schedule of needs at subrule 75.58(2) for the eligible group (Test 1); (2) the countable net earned and unearned income is less than the schedule of living costs as identified in the schedule of needs at subrule 75.58(2) for the eligible group (Test 2); and (3) the countable net unearned and earned income, after applying allowable disregards, is less than the schedule of basic needs as identified at subrule 75.58(2) for the eligible group (Test 3). The determination of continuing eligibility is a two-step process. Continuing eligibility shall be granted only when (1) countable gross nonexempt income, as described for initial eligibility, does not exceed 185 percent of the living costs as identified in the schedule of needs at subrule 75.58(2) for the eligible group (Test 1); and (2) countable net unearned and earned income is less than the schedule of basic needs as identified in the schedule of needs at subrule 75.58(2) for the eligible group (Test 3). Child support assigned to the department in accordance with 441—subrule 41.22(7) shall be considered unearned income for the purpose of determining continuing eligibility, except as specified at paragraphs 75.57(1) “e,” 75.57(6) “u,” and 75.57(7) “o.” Expenses for care of children or disabled adults, deductions, and diversions shall be allowed when verification is provided. The department shall return all verification to the applicant or member.

75.57(1) Unearned income. Unearned income is any income in cash that is not gained by labor or service. When taxes are withheld from unearned income, the amount considered will be the net income after the withholding of taxes (Federal Insurance Contribution Act, state and federal income taxes). Net unearned income, from investment and nonrecurring lump sum payments, shall be determined by deducting reasonable income-producing costs from the gross unearned income. Money left after this deduction shall be considered gross income available to meet the needs of the eligible group.

a. Social security income is the amount of the entitlement before withholding of a Medicare premium.

b. Financial assistance received for education or training. Rescinded IAB 2/11/98, effective 2/1/98.

c. Rescinded IAB 2/11/98, effective 2/1/98.

d. When the client sells property on contract, proceeds from the sale shall be considered exempt as income. The portion of any payment that represents principal is considered a resource upon receipt as defined in subrule 75.56(4). The interest portion of the payment is considered a resource the month following the month of receipt.

e. Support payments in cash shall be considered as unearned income in determining initial and continuing eligibility.

(1) Any nonexempt cash support payment, for a member of the eligible group, made while the application is pending shall be treated as unearned income.

(2) Support payments shall be considered as unearned income in the month in which the IV-A agency (income maintenance) is notified of the payment by the IV-D agency (child support recovery unit).

The amount of income to consider shall be the actual amount paid or the monthly entitlement, whichever is less.

(3) Support payments reported by child support recovery during a past month for which eligibility is being determined shall be used to determine eligibility for the month. Support payments anticipated to be received in future months shall be used to determine eligibility for future months. When support payments terminate in the month of decision of an FMAP-related Medicaid application, both support

payments already received and support payments anticipated to be received in the month of decision shall be used to determine eligibility for that month.

(4) When the reported support payment, combined with other income, creates ineligibility under the current coverage group, an automatic redetermination of eligibility shall be conducted in accordance with the provisions of rule 441—76.11(249A). Persons receiving Medicaid under the family medical assistance program in accordance with subrule 75.1(14) may be entitled to continued coverage under the provisions of subrule 75.1(21). Eligibility may be reestablished for any month in which the countable support payment combined with other income meets the eligibility test.

f. The client shall cooperate in supplying verification of all unearned income and of any change in income, as defined at rule 441—75.50(249A).

(1) When the information is available, the department shall verify job insurance benefits by using information supplied to the department by Iowa workforce development. When the department uses this information as verification, job insurance benefits shall be considered received the second day after the date that the check was mailed by Iowa workforce development. When the second day falls on a Sunday or federal legal holiday, the time shall be extended to the next mail delivery day.

(2) When the client notifies the department that the amount of job insurance benefits used is incorrect, the client shall be allowed to verify the discrepancy. The client must report the discrepancy before the eligibility month or within ten days of the date on the Notice of Decision, Form 470-0485, 470-0486, or 470-0486(S), applicable to the eligibility month, whichever is later.

75.57(2) Earned income. Earned income is defined as income in the form of a salary, wages, tips, bonuses, commission earned as an employee, income from Job Corps, or profit from self-employment. Earned income from commissions, wages, tips, bonuses, Job Corps, or salary means the total gross amount irrespective of the expenses of employment. With respect to self-employment, earned income means the net profit from self-employment, defined as gross income less the allowable costs of producing the income. Income shall be considered earned income when it is produced as a result of the performance of services by an individual.

a. Each person in the assistance unit whose gross nonexempt earned income, earned as an employee or net profit from self-employment, considered in determining eligibility is entitled to one 20 percent earned income deduction of nonexempt monthly gross earnings. The deduction is intended to include work-related expenses other than child care. These expenses shall include, but are not limited to, all of the following: taxes, transportation, meals, uniforms, and other work-related expenses.

b. Each person in the assistance unit is entitled to a deduction for care expenses subject to the following limitations.

(1) Persons in the eligible group and excluded parents shall be allowed care expenses for a child or incapacitated adult in the eligible group.

(2) Stepparents as described at paragraph 75.57(8)“*b*” and self-supporting parents on underage parent cases as described at paragraph 75.57(8)“*c*” shall be allowed incapacitated adult care or child care expenses for the ineligible dependents of the stepparent or self-supporting parent.

(3) Unless both parents are in the home and one parent is physically and mentally able to provide the care, child care or care for an incapacitated adult shall be considered a work expense in the amount paid for care of each child or incapacitated adult, not to exceed \$175 per month, or \$200 per month for a child under the age of two, or the going rate in the community, whichever is less.

(4) If both parents are in the home, adult or child care expenses shall not be allowed when one parent is unemployed and is physically and mentally able to provide the care.

(5) The deduction is allowable only when the care covers the actual hours of the individual’s employment plus a reasonable period of time for commuting; or the period of time when the individual who would normally care for the child or incapacitated adult is employed at such hours that the individual is required to sleep during the waking hours of the child or incapacitated adult, excluding any hours a child is in school.

(6) Any special needs of a physically or mentally handicapped child or adult shall be taken into consideration in determining the deduction allowed.

(7) The expense shall be verified by a receipt or a statement from the provider of care and shall be allowed when paid to any person except a parent or legal guardian of the child or another member of the eligible group, or to any person whose needs are met by diversion of income from any person in the eligible group.

c. Work incentive disregard. After deducting the allowable work-related expenses as defined at paragraphs 75.57(2) “a” and “b” and income diversions as defined at subrule 75.57(4), 58 percent of the total of the remaining monthly nonexempt earned income, earned as an employee or the net profit from self-employment, of each person whose income must be considered is disregarded in determining eligibility for the family medical assistance program (FMAP) and those FMAP-related coverage groups subject to the three-step process for determining initial eligibility as described at rule 441—75.57(249A).

(1) The work incentive disregard is not time-limited.

(2) Initial eligibility under the first two steps of the three-step process is determined without the application of the work incentive disregard as described at subparagraphs 75.57(9) “a”(2) and (3).

(3) A person who is not eligible for Medicaid because the person has refused to cooperate in applying for or accepting benefits from other sources, in accordance with the provisions of rule 441—75.2(249A), 441—75.3(249A), or 441—75.21(249A), is eligible for the work incentive disregard.

These needs shall be determined in accordance with the schedule of needs for a family group of the same composition in accordance with subrule 75.58(2).

(7) The deductions described in subparagraphs (1) through (6) shall first be subtracted from earned income in the same order as they appear above.

When the stepparent has both nonexempt earned and unearned income and earnings are less than the allowable deductions, then any remaining portion of the deductions in subparagraphs (3) through (5) shall be subtracted from unearned income. Any remaining income shall be applied as unearned income to the needs of the eligible group.

If the stepparent has earned income remaining after allowable deductions, then any nonexempt unearned income shall be added to the earnings and the resulting total counted as unearned income to the needs of the eligible group.

(8) A nonexempt, nonrecurring lump sum received by a stepparent shall be considered as income and counted in computing eligibility in the same manner as it would be treated for a parent. Any portion of the nonrecurring lump sum retained by the stepparent in the month following the month of receipt shall be considered a resource to the stepparent if that portion is not exempted according to paragraph 75.56(1) “f.”

(9) When the income of the stepparent, not in the eligible group, is insufficient to meet the needs of the stepparent and the stepparent’s dependents living in the home who are not eligible for FMAP-related Medicaid, the income of the parent may be diverted to meet the unmet needs of the children of the current marriage except as described at subrule 75.57(10).

(10) When the needs of the stepparent, living in the home, are not included in the eligible group, the eligible group and any children of the parent living in the home who are not eligible for FMAP-related Medicaid shall be considered as one unit, and the stepparent and the stepparent’s dependents, other than the spouse, shall be considered a separate unit.

(11) Rescinded IAB 6/30/99, effective 9/1/99.

c. Treatment of income in underage parent cases. In the case of a dependent child whose unmarried parent is under the age of 18 and living in the same home as the unmarried, underage parent’s own self-supporting parents, the income of each self-supporting parent shall be considered available to the eligible group after appropriate deductions unless the provisions of rule 441—75.59(249A) apply. The deductions to be applied are the same as are applied to the income of a stepparent pursuant to subparagraphs 75.57(8) “b” (1) through (7). Child care expenses at subparagraph 75.57(8) “b” (2) shall be allowed for the self-supporting parent’s ineligible children. Nonrecurring lump sum income received by the self-supporting parent(s) shall be treated in accordance with subparagraph 75.57(8) “b” (8).

When the self-supporting spouse of a self-supporting parent is also living in the home, the income of that spouse shall be attributable to the self-supporting parent in the same manner as the income of a stepparent is determined pursuant to subparagraphs 75.57(8) “b” (1) through (7) unless the provisions of rule 441—75.59(249A) apply. Child care expenses at subparagraph 75.57(8) “b” (2) shall be allowed for the ineligible dependents of the self-supporting spouse who is a stepparent of the minor parent. Nonrecurring lump sum income received by the spouse of the self-supporting parent shall be treated in accordance with subparagraph 75.57(8) “b” (8). The self-supporting parent and any ineligible dependents of that person shall be considered as one unit. The self-supporting spouse and the spouse’s ineligible dependents, other than the self-supporting parent, shall be considered a separate unit.

75.57(9) Budgeting process.

a. Initial and ongoing eligibility. Both initial and ongoing eligibility shall be based on a projection of income based on the best estimate of future income.

(1) Upon application, the department shall use all earned and unearned income received by the eligible group during the 30 days before the application date to project future income. EXCEPTION: If the applicant provides verification that the 30-day period specified above is not indicative of future income, income from a longer period or verification of anticipated income from the income source may be used to project future income. Allowable work expenses shall be deducted from earned income, except in determining eligibility under the 185 percent test defined at rule 441—75.57(249A). The determination of initial eligibility is a three-step process as described at rule 441—75.57(249A).

(2) Test 1. When countable gross nonexempt earned and unearned income exceeds 185 percent of the schedule of living costs (Test 1), as identified at subrule 75.58(2) for the eligible group, eligibility does not exist under any coverage group for which these income tests apply. Countable gross income means nonexempt gross income, as defined at rule 441—75.57(249A), without application of any disregards, deductions, or diversions.

(3) Test 2. When the countable gross nonexempt earned and unearned income equals or is less than 185 percent of the schedule of living costs for the eligible group, initial eligibility under the schedule of living costs (Test 2) shall then be determined. Initial eligibility under the schedule of living costs is determined without application of the 58 percent work incentive disregard as specified at paragraph 75.57(2)“c.” All other appropriate exemptions, deductions and diversions are applied. Countable income is then compared to the schedule of living costs (Test 2) for the eligible group. When countable net earned and unearned income equals or exceeds the schedule of living costs for the eligible group, eligibility does not exist under any coverage group for which these income tests apply.

(4) Test 3. After application of Tests 1 and 2 for initial eligibility or of Test 1 for ongoing eligibility, the 58 percent work incentive disregard at paragraph 75.57(2)“c” shall be applied when there is eligibility for this disregard. When countable net earned and unearned income, after application of the work incentive disregard and all other appropriate exemptions, deductions, and diversions, equals or exceeds the schedule of basic needs (Test 3) for the eligible group, eligibility does not exist under any coverage group for which these tests apply. When the countable net income is less than the schedule of basic needs for the eligible group, the eligible group meets FMAP or CMAP income requirements.

(5) Rescinded IAB 10/4/00, effective 10/1/00.

(6) When income received weekly or biweekly (once every two weeks) is projected for future months, it shall be projected by adding all income received in the time period being used and dividing the result by the number of instances of income received in that time period. The result shall be multiplied by four if the income is received weekly, or by two if the income is received biweekly, regardless of the number of weekly or biweekly payments to be made in future months.

(7) Rescinded IAB 7/4/07, effective 8/1/07.

(8) When a change in circumstances that is required to be timely reported by the client pursuant to paragraphs 75.52(4)“d” and “e” is not reported as required, eligibility shall be redetermined beginning with the month following the month in which the change occurred. When a change in circumstances that is required to be reported by the client at annual review or upon the addition of an individual to the eligible group pursuant to paragraph 75.52(4)“c” is not reported as required, eligibility shall be redetermined beginning with the month following the month in which the change was required to be reported. All other changes shall be acted upon when they are reported or otherwise become known to the department, allowing for a ten-day notice of adverse action, if required.

b. Recurring lump-sum income. Recurring lump-sum earned and unearned income, except for the income of the self-employed, shall be prorated over the number of months for which the income was received and applied to the eligibility determination for the same number of months.

(1) Income received by an individual employed under a contract shall be prorated over the period of the contract.

(2) Income received at periodic intervals or intermittently shall be prorated over the period covered by the income and applied to the eligibility determination for the same number of months. EXCEPTION: Periodic or intermittent income from self-employment shall be treated as described at paragraph 75.57(9)“i.”

(3) When the lump-sum income is earned income, appropriate disregards, deductions and diversions shall be applied to the monthly prorated income. Income is prorated when a recurring lump sum is received at any time.

c. Nonrecurring lump-sum income. Moneys received as a nonrecurring lump sum, except as specified in subrules 75.56(4) and 75.56(7) and at paragraphs 75.57(8)“b” and “c,” shall be treated in accordance with this rule. Nonrecurring lump-sum income includes an inheritance, an insurance settlement or tort recovery, an insurance death benefit, a gift, lottery winnings, or a retroactive payment of benefits, such as social security, job insurance, or workers’ compensation.

(1) Nonrecurring lump-sum income shall be considered as income in the month of receipt and counted in computing eligibility, unless the income is exempt.

(2) When countable income exclusive of any family investment program grant but including countable lump-sum income exceeds the needs of the eligible group under their current coverage group, the countable lump-sum income shall be prorated. The number of full months for which a monthly amount of the lump sum shall be counted as income in the eligibility determination is derived by dividing the total of the lump-sum income and any other countable income received in or projected to be received in the month the lump sum was received by the schedule of living costs, as identified at subrule 75.58(2), for the eligible group. This period is referred to as the period of proration. Any income remaining after this calculation shall be applied as income to the first month following the period of proration and disregarded as income thereafter.

(3) The period of proration shall begin with the month when the nonrecurring lump sum was received, whether or not the receipt of the lump sum was timely reported. If receipt of the lump sum was reported timely and the calculation was completed timely, no recoupment shall be made. If receipt of the lump sum was not reported timely or the calculation was not completed timely, recoupment shall begin with the month of receipt of the nonrecurring lump sum.

(4) The period of proration shall be shortened when:

1. The schedule of living costs as defined at subrule 75.58(2) increases; or
2. A portion of the lump sum is no longer available to the eligible group due to loss or theft or because the person controlling the lump sum no longer resides with the eligible group and the lump sum is no longer available to the eligible group; or

3. There is an expenditure of the lump sum made for the following circumstances unless there was insurance available to meet the expense: Payments made on medical services for the former eligible group or their dependents for services listed in 441—Chapters 78, 81, 82, and 85 at the time the expense is reported to the department; the cost of necessary repairs to maintain habitability of the homestead requiring the spending of over \$25 per incident; cost of replacement of exempt resources as defined in subrule 75.56(1) due to fire, tornado, or other natural disaster; or funeral and burial expenses. The expenditure of these funds shall be verified.

(5) When countable income, including the lump-sum income, is less than the needs of the eligible group in accordance with the provisions of their current coverage group, the lump sum shall be counted as income for the month of receipt.

(6) For purposes of applying the lump-sum provision, the eligible group is defined as all eligible persons and any other individual whose lump-sum income is counted in determining the period of proration.

(7) During the period of proration, individuals not in the eligible group when the lump-sum income was received may be eligible as a separate eligible group. Income of this eligible group plus income of the parent or other legally responsible person in the home, excluding the lump-sum income already considered, shall be considered as available in determining eligibility.

d. The third digit to the right of the decimal point in any calculation of income, hours of employment and work expenses for care, as defined at paragraph 75.57(2) “b,” shall be dropped.

e. In any month for which an individual is determined eligible to be added to a currently active family medical assistance (FMAP) or FMAP-related Medicaid case, the individual’s needs, income, and resources shall be included. An individual who is a member of the eligible group and who is determined to be ineligible for Medicaid shall be canceled prospectively effective the first of the following month if the timely notice of adverse action requirements as provided at 441—subrule 76.4(1) can be met.

f. Rescinded IAB 10/4/00, effective 10/1/00.

g. Rescinded IAB 2/11/98, effective 2/1/98.

h. Income from self-employment received on a regular weekly, biweekly, semimonthly or monthly basis shall be budgeted in the same manner as the earnings of an employee. The countable income shall be the net income.

i. Income from self-employment not received on a regular weekly, biweekly, semimonthly or monthly basis that represents an individual’s annual income shall be averaged over a 12-month period

of time, even if the income is received within a short period of time during that 12-month period. Any change in self-employment shall be handled in accordance with subparagraphs (3) through (5) below.

(1) When a self-employment enterprise which does not produce a regular weekly, biweekly, semimonthly or monthly income has been in existence for less than a year, income shall be averaged over the period of time the enterprise has been in existence and the monthly amount projected for the same period of time. If the enterprise has been in existence for such a short time that there is very little income information, the worker shall establish, with the cooperation of the client, a reasonable estimate which shall be considered accurate and projected for three months, after which the income shall be averaged and projected for the same period of time. Any changes in self-employment shall be considered in accordance with subparagraphs (3) through (5) below.

(2) These policies apply when the self-employment income is received before the month of decision and the income is expected to continue, in the month of decision, after assistance is approved.

(3) A change in the cost of producing self-employment income is defined as an established permanent ongoing change in the operating expenses of a self-employment enterprise. Change in self-employment income is defined as a change in the nature of business.

(4) When a change in operating expenses occurs, the department shall recalculate the expenses on the basis of the change.

(5) When a change occurs in the nature of the business, the income and expenses shall be computed on the basis of the change.

75.57(10) *Restriction on diversion of income.* Rescinded IAB 7/11/01, effective 9/1/01.

75.57(11) *Divesting of income.* Assistance shall not be approved when an investigation proves that income was divested and the action was deliberate and for the primary purpose of qualifying for assistance or increasing the amount of assistance paid.
