(3) In aggregate, costs for individual budget services shall not exceed the current costs of waiver program services. In order to maintain cost neutrality, the department shall apply a utilization adjustment factor to the amount of service authorized in the consumer's service plan when calculating the value of that service to be included in the individual budget.

(4) The department shall compute the utilization adjustment factor for each service by dividing the net costs of all claims paid for the service by the total of the authorized costs for that service, using at least 12 consecutive months of aggregate service data. The utilization adjustment factor shall be no lower than 60 percent. The department shall analyze and adjust the utilization adjustment factor at least annually in order to maintain cost neutrality.

(5) Anticipated costs for home and vehicle modification are not subject to the average cost in subparagraph (2) or the utilization adjustment factor in subparagraph (3). Costs for home and vehicle modification may be released in a one-time payment.

(6) The individual budget amount may be changed only at the first of the month and shall remain fixed for the entire month.

(1) The costs of the financial management service.
