

191—81.3(514C) Postdelivery benefits. Every person issuing contracts under the scope of this chapter providing maternity benefits, which are not limited to complications of pregnancy, or newborn care benefits, shall not terminate inpatient benefits or require discharge of a mother or the newborn from a hospital following delivery earlier than determined to be medically appropriate by the attending physician after consultation with the mother and in accordance with the Guidelines for Perinatal Care, Third Edition, 1992, by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists, which provide that when complications are not present, the postpartum hospital stay ranges from a minimum of 48 hours for a vaginal delivery to a minimum of 96 hours for a Cesarean birth, excluding the day of delivery. In accordance with those guidelines, in the event of a discharge from the hospital prior to the minimum stay established in the guidelines, a postdischarge follow-up visit shall be provided to the mother and newborn by providers competent in postpartum care and newborn assessment if determined medically appropriate as directed by the attending physician.
