

650—23.1(153) Definitions. As used in this chapter:

“*Accredited school*” means a dental, dental hygiene, or dental assisting education program accredited by the Commission on Dental Accreditation (CODA).

“*Clinical training*” means training which includes patient experiences.

“*Didactic training*” means educational instruction.

“*Direct supervision*” means that the dentist is present in the treatment facility, but it is not required that the dentist be physically present in the treatment room.

“*Fabrication*” means the construction or creation of an impression, occlusal registration, provisional restoration or denture, as defined in this chapter.

“*General supervision of a dental assistant*” means that a dentist has examined the patient and has delegated the services to be provided by a registered dental assistant, which are limited to all extraoral duties, dental radiography, intraoral suctioning, use of a curing light, intraoral camera, and recementation of a provisional restoration. The dentist need not be present in the facility while these services are being provided.

“*General supervision of a dental hygienist*” means that a dentist has examined the patient and has prescribed authorized services to be provided by a dental hygienist. The dentist need not be present in the facility while these services are being provided. If a dentist will not be present, the following requirements shall be met:

1. Patients or their legal guardians must be informed prior to the appointment that no dentist will be present and therefore no examination will be conducted at that appointment.
2. The hygienist must consent to the arrangement.
3. Basic emergency procedures must be established and in place, and the hygienist must be capable of implementing these procedures.
4. The treatment to be provided must be prior prescribed by a licensed dentist and must be entered in writing in the patient record.

“*Laboratory training*” means training that is hands-on, that may include simulation, and that prepares a dental hygienist or dental assistant for patient experiences. Laboratory training can be done as part of an approved course, or obtained through a supervising dentist.

“*Observational supervision,*” for expanded functions, is for training purposes only and means the dentist is physically present in the treatment room to oversee and direct all services being provided as part of clinical training.

“*Patient experiences*” are procedures that are performed on a patient, during the course of clinical training, under the observational supervision of a dentist.

“*Prosthetic*” means any provisional or permanent restoration intended to replace a tooth or teeth.

“*Provisional restoration*” means a crown or bridge placed with the intention of being replaced with a permanent crown or bridge at a later date, or a permanent crown provisionally recemented to be replaced or recemented at a later date.
