

**261—187.3(15) Project completion date and maintenance date.**

**187.3(1)** Projects shall be completed by the project completion date and maintained through the end of the maintenance date. The contract will establish the duration of the project period and maintenance period.

**187.3(2)** Projects receiving funding from programs or funding sources that have statutory project completion and maintenance periods shall comply with the requirements for that program or funding source.

**187.3(3)** Projects receiving assistance from programs without statutory project completion and maintenance periods shall conform to the time periods established by this rule, unless a different time period is negotiated and approved by the board or director.

**187.3(4)** By the project completion date, a recipient shall have completed the project as required by the contract. The jobs and project shall be maintained through the end of the maintenance date. The project completion date is calculated by the department from the end of the month during which an award is made. For example, if a CEBA award is made on June 13, 2007, the three-year project completion period will be calculated from June 30, 2007. The project completion date for this award would be June 30, 2010. The maintenance date would be June 30, 2012.

**187.3(5)** The following table describes, by program, the length of the project completion period and maintenance period:
