 - Is going out of business,
 - Fails to renew a registration by the renewal due date, or
 - Has an electrical or mechanical device seized by law enforcement and the seizure is upheld through a forfeiture hearing; or

Any change in the registered amusement device, including the external and internal components of the registered amusement device, constitutes a new registered amusement device for which registration by the owner is required. The word “change” as used herein does not include repairs or replacement of parts that do not change or alter the operation of the device as originally registered by the owner. If the repairs or replacement parts alter the operation of the device as originally registered, then the device must be reregistered before it is made available for operation.

“Responsible party,” as listed on the amusement device registration, means the owner of the amusement device.

“Security mechanism” means an appliance which prevents a person from operating an electrical or mechanical amusement device by not allowing the acceptance of money until action is taken by the owner or owner’s designee to allow the person to operate the device.
