

761—604.5(307,321) Vision screening.

604.5(1) Method. Prior to issuance, the department will use a vision screening instrument to screen the applicant's vision. An applicant who uses corrective lenses may be screened with or without the corrective lenses.

604.5(2) Report. A vision report measuring visual acuity level and field of vision is to be submitted on Form 430032 signed by a licensed vision specialist within 30 days prior to submission to the department for consideration. In lieu of Form 430032, a letter signed by a licensed vision specialist may be accepted if it contains all the information specified on Form 430032.

604.5(3) Exception for persons renewing electronically. An applicant renewing a driver's license electronically pursuant to 761—subrule 605.25(7) is not required to complete a vision screening or submit a vision report. This subrule does not preclude the department from requiring a vision screening or vision report of a person who has renewed a driver's license electronically when the department has reason to believe that the person is not capable of operating a motor vehicle safely.

This rule is intended to implement Iowa Code sections 307.12(1)“j,” 321.186, 321.186A and 321.196.
