

481—34.5(137D) Receiving, storage, and distribution.

34.5(1) *Receiving.* All foods and ingredients shall be obtained from an approved source, and those foods shall have been produced in compliance with applicable law. Honey from an unlicensed establishment and eggs from the home food processing establishment's own flock may be used in the preparation of homemade food items. All food shall be received in sound condition; at safe temperatures; free from spoilage, filth, or other contamination; unadulterated; and safe for human consumption.

34.5(2) *Storage.* Food storage areas shall be clean and located in an area which protects the food from contamination at all times. All food products shall be stored off of the floor. If removed from the original container, foods shall be stored in labeled and closed containers. Containers shall be of a material that will not cause the food to become adulterated.

34.5(3) *Distribution.*

a. Foods containing raw or undercooked foods of animal origin may not be sold or distributed in a ready-to-eat form.

b. Foods produced in a home food processing establishment shall not be distributed for further processing by a food processing plant or another home food processing establishment.

c. Time/temperature control for safety homemade food items shall not be distributed or otherwise provided to a business or end consumer at any temperature above 41°F.

d. A home food processing establishment shall not distribute made-to-order foods.

e. Time/temperature control for safety homemade food items shall be maintained at or below 41°F during shipping and transportation.

f. No one may produce, distribute, offer for sale, or provide adulterated food to the public. Adulterated food shall be disposed of in a reasonable manner as determined by the department.
