

641—3.6 (135) Procedures required of birthing hospitals. Each birthing hospital in Iowa shall follow these procedures:

3.6(1) Each birthing hospital shall designate an employee of the hospital to be responsible for the newborn hearing screening program in that institution.

3.6(2) Prior to the discharge of the newborn, each birthing hospital shall provide hearing screening to every newborn delivered in the hospital, except in the following circumstances:

- a.* The newborn is transferred for acute care prior to completion of the hearing screening.
- b.* The newborn is born with a condition that is incompatible with life.

3.6(3) If a newborn is transferred for acute care, the birthing hospital shall notify the receiving facility of the status of the hearing screening. The receiving facility shall then be responsible for completion of the newborn hearing screening prior to discharge of the newborn from the nursery.

3.6(4) Newborn hearing screening shall be performed by an audiologist, audiology assistant, audiometrist, registered nurse, licensed physician, or other person for whom newborn hearing screening is within the person's scope of practice.

3.6(5) The hospital shall report newborn hearing screening results to the parent or guardian in written form.

3.6(6) The hospital shall report newborn hearing screening results to the department in a manner prescribed in 641—3.9(135).

3.6(7) The birthing hospital shall report the results of the hearing screening to the primary care provider of the newborn or infant upon the newborn's or infant's discharge from the birthing hospital. If the newborn or infant was not tested prior to discharge, the hospital shall report the status of the hearing screening to the primary care provider of the newborn or infant.

3.6(8) The birthing hospital shall follow the hearing screening protocols prescribed by the department.
