

21—64.30(163) Scabies or mange quarantine. Whenever the chief of division of animal industry shall have knowledge of any horses, cattle, sheep or swine affected with scabies or mange, owners of any horses, cattle, sheep or swine affected shall dip the animals at intervals and at the dips as the chief of the division of animal industry deems necessary.

This rule is intended to implement Iowa Code section 166A.8.
