

875—1.22(22,91) Data processing systems comparison. The first reports of injury data systems shared between the labor services division and the workers' compensation division of the workforce development department permit the comparison of personally identifiable information in one record system with personally identifiable information in another record system. Pursuant to Iowa Code chapter 252J, personally identifiable information about asbestos licensees, asbestos permittees, amusement ride permittees, boxers, special inspectors, registered construction contractors, and private employment agency licensees found in data processing systems may be matched, collated, or compared with personally identifiable information in data processing systems maintained by the child support recovery unit of the department of human services. All data processing systems that have common data elements can potentially match, collate, and compare personally identifiable information.
