

701—304.56(15,422) Renewable chemical production tax credit program. An eligible business that has received a renewable chemical production tax credit certificate from the economic development authority may claim a tax credit against individual income tax. The credit is equal to the product of five cents multiplied by the number of pounds of renewable chemicals produced in Iowa from biomass feedstock by the eligible business during a given production year, subject to the limitations described in Iowa Code sections 15.315 through 15.322, 261—Chapter 81, and this rule. The economic development authority’s rules on eligibility for the credit may be found in 261—Chapter 81.

304.56(1) Application and agreement for the credit. To be eligible for the tax credit, the eligible business must apply to and enter into an agreement with the economic development authority. The economic development authority’s rules on the application and agreement process may be found in 261—Chapter 81.

304.56(2) Computation of the amount of credit and certificate issuance. Upon establishing that all requirements of the program and the agreement have been fulfilled and verifying the taxpayer’s eligibility for the tax credit, the economic development authority calculates the credit. Then the economic development authority issues the related tax credit certificate to the eligible business stating the amount of the renewable chemical production tax credit that the eligible business may claim. A tax credit certificate shall not be issued by the economic development authority prior to July 1, 2018. The economic development authority’s rules on credit certificate issuance may be found in 261—Chapter 81.

304.56(3) Claiming the tax credit.

a. Claiming the credit, generally. To claim the credit, a taxpayer must include one or more tax credit certificates with the taxpayer’s tax return for the tax year during which the eligible business was issued the tax credit certificate or certificates. If the taxpayer claiming the credit has already filed a return for the tax year for which the credit certificate was issued, the taxpayer may claim the credit on an amended return. The taxpayer must file the amended return within the statute of limitations applicable to such amended return. No tax credit may be claimed under this program by a taxpayer prior to September 1, 2018.

b. Claiming the credit of a pass-through entity. To claim the credit of an eligible business that is a pass-through entity, an individual taxpayer must claim the credit on the tax return for the tax year during which the eligible business received the tax credit certificate. Such tax year may be either the tax year of the eligible business or of the individual.

EXAMPLE: A partnership has a fiscal year of September 2017 through August 2018. The partnership receives a renewable chemical production tax credit certificate under this program in July 2018, which is during the partnership’s 2017 tax year. A partner in the partnership files individual returns on a calendar year basis, which means that the credit was issued in the partner’s 2018 tax year. That partner may file an amended 2017 tax return to claim the credit based on the partnership’s tax year, or that partner may claim the credit on the partner’s 2018 tax return based on the partner’s own tax year.

c. Information required. The tax credit certificate shall include the taxpayer’s name, address, tax identification number, the amount of the credit, the name of the eligible business, and any other information required by the department of revenue.

d. Allocation to the individual owners of the entity or beneficiaries of an estate or trust. An individual may claim the credit of a partnership, limited liability company, S corporation, cooperative organized under Iowa Code chapter 501 and filing as a partnership for tax purposes, estate, or trust electing to have income taxed directly to the individual. The amount claimed by the individual shall be based on the pro rata share of the individual’s earnings from the partnership, limited liability company, S corporation, cooperative, estate, or trust.

e. Refundability. Any credit in excess of the tax liability is refundable. In lieu of claiming a refund, the taxpayer may elect to have the overpayment shown on the taxpayer’s final, completed return credited to the tax liability for the following tax year.

f. Transferability. Tax credit certificates shall not be transferred to any other person.

g. Rescission and recapture. The tax credit certificate, unless rescinded by the economic development authority, shall be accepted by the department of revenue, subject to any conditions or restrictions placed upon the face of the tax credit certificate by the economic development authority

and subject to the limitations of the program. Should the economic development authority reduce, terminate, or rescind any tax credits issued under the program, the eligible business may be subject to the repayment or recapture of any credits already claimed. The economic development authority's rules related to the program may be found in 261—Chapter 81. The repayment of tax credits or recapture by the department of revenue shall be accomplished in the same manner as provided in Iowa Code section 15.330(2).

This rule is intended to implement Iowa Code section 422.10B.
