(3) The facility administrator shall develop written policy and procedures for the movement or transportation of detainees outside the secure area of the facility. The policy shall require procedures that will ensure the safety of the facility staff and the public and prevent detainee escape. The policy shall provide procedures for movement of detainees for medical treatment and to and from the courts and other facilities. The classification and security risk of the detainee to be moved will determine the number of staff required and the type of restraints to be used, if any.

(4) The facility administrator shall have written plans for situations that threaten facility security. Such situations include but are not limited to: riots, hunger strikes, disturbances, hostage situations, escape attempts, medical emergencies, natural disasters and staff work stoppage.
