

571—110.1(481A) Public roadside limitations—snares, body-gripping, and conibear type traps. No person shall set or maintain any snare, body-gripping, or conibear type trap within any public road right-of-way within 200 yards of buildings inhabited by human beings unless a resident of the dwelling adjacent to the public road right-of-way has given permission or unless the body-gripping or conibear type trap is completely under water or at least one-half of the loop of a snare is under water. Nothing in this rule shall be construed as limiting the use of foothold traps or box-type live traps in public road rights-of-way.
