

281—24.5(260C) Accreditation components and criteria—additional state standards. To be granted accreditation by the state board of education, an Iowa community college must also meet five additional standards pertaining to minimum standards for faculty; faculty load; special needs; vocational education evaluation; and quality faculty plan.

24.5(1) Faculty. Community college-employed instructors who are under contract for at least half-time or more, and by July 1, 2011, all instructors who teach in career and technical education or arts and sciences shall meet minimum standards. In accordance with Iowa Code Supplement section 260C.48(1) as amended by 2008 Iowa Acts, House File 2679, standards shall at a minimum require that community college instructors who are under contract for at least half-time or more, and by July 1, 2011, all instructors meet the following requirements:

a. Instructors in the subject area of career and technical education shall be registered, certified, or licensed in the occupational area in which the state requires registration, certification, or licensure, and shall hold the appropriate registration, certificate, or license for the occupational area in which the instructor is teaching, and shall meet either of the following qualifications:

(1) A baccalaureate or graduate degree in the area or a related area of study or occupational area in which the instructor is teaching classes.

(2) Special training and at least 6,000 hours of recent and relevant work experience in the occupational area or related occupational area in which the instructor teaches classes if the instructor possesses less than a baccalaureate degree.

b. Instructors in the subject area of arts and sciences shall meet either of the following qualifications:

(1) Possess a master's degree from a regionally accredited graduate school, and have successfully completed a minimum of 12 credit hours of graduate level courses in each field of instruction in which the instructor is teaching classes.

(2) Have two or more years of successful experience in a professional field or area in which the instructor is teaching classes and in which postbaccalaureate recognition or professional licensure is necessary for practice, including but not limited to the fields or areas of accounting, engineering, law, law enforcement, and medicine.

c. Developmental education and adult education instructors employed half-time or more may or may not meet minimum requirements depending on their teaching assignments and the relevancy of standards to the courses they are teaching and the transferability of such courses. If instructors are teaching credit courses reported in arts and sciences or career and technical education, it is recommended that these instructors meet minimum standards set forth in 281—subrule 21.3(1), paragraph “a” or “b.” By July 1, 2011, all instructors teaching credit courses shall meet minimum standards.

24.5(2) Faculty load.

a. College parallel. The full-time teaching load of an instructor in college parallel programs shall not exceed a maximum of 16 credit hours per school term or the equivalent. An instructor may also have a teaching assignment outside of the normal school hours, provided the instructor consents to this additional assignment and the total workload does not exceed the equivalent of 18 credit hours within a traditional semester.

b. Career and technical education. The full-time teaching load of an instructor in career and technical education programs shall not exceed 6 hours per day, and an aggregate of 30 hours per week or the equivalent. An instructor may also teach the equivalent of an additional 3 credit hours, provided the instructor consents to this additional assignment. When the teaching assignment includes classroom subjects (nonlaboratory), consideration shall be given to establishing the teaching load more in conformity with that of paragraph 24.5(2) “a.”

24.5(3) Special needs. Community colleges shall provide equal access in recruitment, enrollment, and placement activities for students with disabilities. Students with disabilities shall be given access to the full range of course offerings at a college through reasonable accommodations.

24.5(4) Career and technical education evaluation. The community college career and technical program review and evaluation system must ensure that the programs:

a. Are compatible with educational reform efforts.

- b. Are capable of responding to technological change and innovation.
- c. Meet educational needs of the students and employment community, including students with disabilities, both male and female students, and students from diverse racial and ethnic groups.
- d. Enable students enrolled to perform the minimum competencies independently.
- e. Are articulated/integrated with the total school curriculum.
- f. Enable students with a secondary vocational background to pursue other educational interests in a postsecondary setting, if desired.
- g. Provide students with support services and eliminate access barriers to education and employment for both traditional and nontraditional students, men and women, persons from diverse racial and ethnic groups, and persons with disabilities.

24.5(5) *Quality faculty plan.* The community college shall establish a quality faculty committee consisting of instructors and administrators to develop and maintain a plan for hiring and developing quality faculty. The committee shall have equal representatives of arts and sciences and career and technical faculty with no more than a simple majority of members of the same gender. Faculty shall be appointed by the certified employee organization representing faculty, if any, and administrators shall be appointed by the college's administration. If no faculty-certified employee organization representing faculty exists, the faculty shall be appointed by administration pursuant to Iowa Code section 260C.48(4). The committee shall submit the plan to the board of directors for consideration, approval and submittal to the department of education.

a. For purposes of this subrule, the following definitions shall apply.

(1) "Counselor" means those who are classified as counselors as defined in the college's collective bargaining agreement or written policy.

(2) "Media specialist" means those who are classified as media specialists as defined in the college's collective bargaining agreement or written policy.

b. The institutional quality faculty plan is applicable to all community college-employed faculty teaching college credit courses, counselors, and media specialists. The plan requirements may be differentiated for each type of employee. The plan shall include, at a minimum, each of the following components:

(1) Plan maintenance. The quality faculty committee shall submit proposed plan modifications to the board of directors for consideration and approval. It is recommended that the plan be updated at least annually.

(2) A determination of the faculty and staff to be included in the plan including, but not limited to, all instructors teaching college credit courses, counselors, and media specialists.

(3) Orientation for new faculty. It is recommended that new faculty orientation be initiated within six months from the hiring date. It is recommended that the orientation of new faculty be flexible to meet current and future needs and provide options other than structured college courses for faculty to improve teaching strategies, curriculum development and evaluation strategies. It is recommended that the college consider developing a faculty mentoring program.

(4) Continuing professional development for faculty. It is recommended that the plan clearly specify required components including time frame for continuing professional development for faculty. It is recommended that the plan include the number of hours, courses, workshops, professional and academic conferences or other experiences such as industry internships, cooperatives and exchange programs that faculty may use for continuing professional development. It is recommended that the plan include prescribed and elective topics such as discipline-specific content and educational trends and research. Examples of topics that may be considered include dealing with the complexities of learners, skills in teaching adults, curriculum development, assessment, evaluation, enhancing students' retention and success, reaching nontraditional and minority students, improving skills in implementing technology and applied learning, leadership development, and issues unique to a particular college. The institutional quality faculty plan shall include professional development components for all instructional staff, counselors, and media specialists and may include reciprocity features that facilitate movement from one college to another.

(5) Procedures for accurate record keeping and documentation for plan monitoring. It is recommended that the plan identify the college officials or administrators responsible for the administration, record keeping and ongoing evaluation and monitoring of the plan. It is recommended the plan monitoring, evidence collected, and records maintained showing implementation of the plan be comprehensive in scope. It is recommended that the plan provide for the documentation that each faculty member appropriately possesses, attains or progresses toward attaining minimum competencies.

(6) Consortium arrangements where appropriate, cost-effective and mutually beneficial. It is recommended that the plan provide an outline of existing and potential consortium arrangements including a description of the benefits, cost-effectiveness, and method of evaluating consortium services.

(7) Specific activities that ensure that faculty attain and demonstrate instructional competencies and knowledge in their subject or technical areas. It is recommended that the plan identify faculty minimum competencies and explain the method or methods of determining and assessing competencies. It is recommended that the plan contain procedures for reporting faculty progress. It is recommended that faculty be notified at least once a year of their progress in attaining competencies. It is recommended that the plan include policies and provisions for length of provisional status for faculty who do not meet the minimum standards in Iowa Code section 260C.48. It is recommended that provisional status of individual faculty members not exceed five years.

(8) Procedures for collection and maintenance of records demonstrating that each faculty member has attained or documented progress toward attaining minimum competencies. It is recommended that the plan specify data collection procedures that demonstrate how each full-time faculty member has attained or has documented progress toward attaining minimum competencies. It is recommended that the plan incorporate the current department of education management information system data submission requirements by which each college submits complete human resources data files electronically as a part of the college's year-end reporting.

(9) Compliance with the faculty accreditation standards of the North Central Association of Colleges and Schools and with faculty standards required under specific programs offered by the community college that are accredited by other accrediting agencies. It is recommended that the plan provide for the uniform reports with substantiating data currently required for North Central Association of Colleges and Schools accreditation.

c. The department of education shall notify the community college when the department requires that a modified quality faculty plan be submitted. The department shall review the plan during the state accreditation on-site visits to ensure each community college's compliance and progress in implementing a quality faculty plan as approved by the local board of directors. The department shall review the following:

(1) Documents submitted by the college that demonstrate that the plan includes each component required by paragraph "b" of this subrule.

(2) Documentation submitted by the college that the board of directors approved the plan.

(3) Documentation submitted by the college that the college is implementing the approved plan, including, but not limited to, evidence of plan monitoring, evaluation and updating; evidence that the faculty has attained, or is progressing toward attaining, minimum competencies and standards contained in Iowa Code section 260C.48 as amended by 2008 Iowa Acts, House File 2679, and 2007 Iowa Acts, Senate File 588; evidence that faculty members have been notified of their progress toward attaining minimum competencies and standards; and evidence that the college meets the minimum accreditation requirements for faculty required by the North Central Association of Colleges and Schools.

(4) Documentation that the college administration encourages the continued development of faculty potential as defined in Iowa Code Supplement section 260C.36 as amended by 2008 Iowa Acts, House File 2679.

(5) Documentation of the human resources report submitted by the college through the department's community college management information system.
