

567—209.16 (455B,455E) Derelict building grant program. Financial assistance awarded under the derelict building grant program is available to communities of 5,000 or fewer to help improve the attractiveness and appearance of their jurisdictions by providing financial assistance for eligible projects. Each project must have a landfill diversion component.

209.16(1) Eligible applicants. Any county or municipal government with a population of 5,000 or fewer is eligible to apply for a derelict building grant. An applicant may partner with a local nonprofit organization on a project.

209.16(2) Eligible projects. A community's building is eligible for the program if the building meets the following criteria:

a. The building is an abandoned commercial or public building of which a local government has ownership or an intent to own.

b. The building is not on the National Register of Historic Places.

209.16(3) Eligible activities and amount of financial assistance. The eligible activities and amount of financial assistance for each are:

a. Asbestos-containing material inspections: 100 percent reimbursement for inspection costs conducted by a state of Iowa-licensed asbestos contractor.

b. Abatement of asbestos-containing material: 100 percent reimbursement, not to exceed \$10,000, for abatement of ACM performed by a state of Iowa-licensed asbestos contractor. A 50 percent cost share is required for those costs exceeding \$10,000.

c. Structural engineering analysis: 100 percent reimbursement not to exceed \$1,500 for a structural engineering analysis conducted by a licensed structural engineer or architectural historian to determine the ability to renovate the building. The recipient is responsible for all costs exceeding \$1,500.

d. Phase I environmental assessment: 100 percent reimbursement not to exceed \$3,000 for conducting a Phase I environmental assessment. The recipient is responsible for all costs exceeding \$3,000.

e. Phase II environmental assessment: 50 percent reimbursement not to exceed \$2,500 for conducting a Phase II environmental assessment. The recipient is responsible for all costs exceeding \$5,000. The need for this assessment is determined by the results of the Phase I environmental assessment and involves the sampling of structure components, soil, and groundwater to confirm or deny the presence of contamination.

f. Building renovation: 50 percent reimbursement not to exceed \$50,000 for renovation costs, including but not limited to:

- (1) Restoration or removal of materials for reuse, either at the site or off site, or for recycling.
- (2) Roof repair or replacement.
- (3) Building stabilization.
- (4) Tuck-pointing of exterior walls.

g. Deconstruction: 50 percent reimbursement not to exceed \$50,000 for costs related to deconstruction. All deconstruction projects must achieve a minimum landfill diversion rate of 30 percent of the structure by weight to receive reimbursement for deconstruction costs.

209.16(4) Deconstruction cost-share incentive. For every additional 10 percent above 30 percent of landfill diversion by weight that is documented upon completion of the project, the applicant's cost share is reduced by 5 percent and the grant award amount will increase by 5 percent. The maximum grant award for deconstruction projects shall not exceed \$75,000.
