

605—11.4(29C) Contracts for services. The department may enter into contracts with public and private entities for the purposes of providing radiological detection equipment, calibration, repair, and maintenance services. Such contracts will specify, at a minimum:

1. The duration of the contract.
2. The services to be performed.
3. Fees or the manner by which fees will be established.
4. The permissible methods for partial or complete termination of the contract.
5. Any other necessary and proper matters.
