441—78.34(249A) HCBS health and disability waiver services. Payment will be approved for the following services to members eligible for HCBS health and disability waiver services as established in 441—Chapter 83 and as identified in the member’s service plan. Effective March 17, 2022, payment shall only be made for services provided in integrated, community-based settings that support full access of members receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.

78.34(1) Homemaker services. Homemaker services are those services provided when the member lives alone or when the person who usually performs these functions for the member needs assistance with performing the functions. A unit of service is 15 minutes. Components of the service must be directly related to the care of the member and may include only the following:

a. Essential shopping: shopping for basic need items such as food, clothing or personal care items, or drugs.

b. Limited housecleaning: maintenance cleaning such as vacuuming, dusting, scrubbing floors, defrosting refrigerators, cleaning stoves, cleaning medical equipment, washing and mending clothes, washing personal items used by the member, and washing dishes.

c. Meal preparation: planning and preparing balanced meals.

78.34(2) Home health services. Home health services are personal or direct care services provided to the client which are not payable under Medicaid as set forth in rule 441—78.9(249A). A unit of service is a visit.

a. Components of the service include, but are not limited to:

(1) Observation and reporting of physical or emotional needs.
(2) Helping a client with bath, shampoo, or oral hygiene.
(3) Helping a client with toileting.
(4) Helping a client in and out of bed and with ambulation.
(5) Helping a client reestablish activities of daily living.
(6) Assisting with oral medications ordered by the physician which are ordinarily self-administered.
(7) Performing incidental household services which are essential to the client’s health care at home and are necessary to prevent or postpone institutionalization in order to complete a full unit of service.
(8) Accompaniment to medical services or transport to and from school.

b. In some cases, a nurse may provide home health services if the health of the client is such that the agency is unable to place an aide in that situation due to limitations by state law or in the event that the agency’s Medicare certification requirements prohibit the aide from providing the service. It is not permitted for the convenience of the provider.

c. Skilled nursing care is not covered.

78.34(3) Adult day care services. Adult day care services provide an organized program of supportive care in a group environment to persons who need a degree of supervision and assistance on a regular or intermittent basis in a day care center. A unit of service is 15 minutes (up to four units per day), a half day (1.25 to 4 hours per day), a full day (4.25 to 8 hours per day), or an extended day (8.25 to 12 hours per day). Components of the service include health-related care, social services, and other related support services.

78.34(4) Nursing care services. Nursing care services are services which are included in the plan of treatment approved by the physician and which are provided by licensed nurses to consumers in the home and community. The services shall be reasonable and necessary to the treatment of an illness or injury and include all nursing tasks recognized by the Iowa board of nursing. A unit of service is a visit.

78.34(5) Respite care services. Respite care services are services provided to the member that give temporary relief to the usual caregiver and provide all the necessary care that the usual caregiver would provide during that period. The purpose of respite care is to enable the member to remain in the member’s current living situation.

a. Services provided outside the member’s home shall not be reimbursable if the living unit where respite is provided is reserved for another person on a temporary leave of absence.
b. Member-to-staff ratios shall be appropriate to the individual needs of the member as determined by the member’s interdisciplinary team.

c. A unit of service is 15 minutes.

d. Respite care is not to be provided to members during the hours in which the usual caregiver is employed except when the member is attending a 24-hour residential camp. Respite care shall not be used as a substitute for a child’s day care. Respite cannot be provided to a member whose usual caregiver is a consumer-directed attendant care provider for the member.

e. The interdisciplinary team shall determine if the member will receive basic individual respite, specialized respite, or group respite as defined in 441—Chapter 83.

f. A maximum of 14 consecutive days of 24-hour respite care may be reimbursed.

g. Respite services provided for a period exceeding 24 consecutive hours to three or more individuals who require nursing care because of a mental or physical condition must be provided by a health care facility licensed as described in Iowa Code chapter 135C.

h. Respite services shall not be provided simultaneously with other residential, nursing, or home health aide services provided through the medical assistance program.

78.34(6) Counseling services. Counseling services are face-to-face mental health services provided to the member and caregiver by a mental health professional as defined in rule 441—24.1(225C) to facilitate home management of the member and prevent institutionalization. Counseling services are nonpsychiatric services necessary for the management of depression, assistance with the grief process, alleviation of psychosocial isolation and support in coping with a disability or illness, including terminal illness. Counseling services may be provided both for the purpose of training the member’s family or other caregiver to provide care and for the purpose of helping the member and those caring for the member to adjust to the member’s disability or terminal condition. Counseling services may be provided to the member’s caregiver only when included in the case plan for the member.

Payment will be made for individual and group counseling. A unit of individual counseling for the waiver member or the waiver member and the member’s caregiver is 15 minutes. A unit of group counseling is 15 minutes. Payment for group counseling is based on the group rate divided by six, or, if the number of persons who comprise the group exceeds six, the actual number of persons who comprise the group.

78.34(7) Consumer-directed attendant care service. Consumer-directed attendant care services are service activities performed by a person to help a member with self-care tasks which the member would typically do independently if the member were otherwise able. Covered service activities are limited to the nonskilled activities listed in paragraph 78.34(7)”f” and the skilled activities listed in paragraph 78.34(7)”g.” Covered service activities must be essential to the health, safety, and welfare of the member. Services may be provided in the absence of a parent or guardian if the parent or guardian has given advance direction for the service provision.

a. Service planning.

   (1) The member, parent, guardian, or attorney in fact under a durable power of attorney for health care shall:

   1. Select the individual or agency that will provide the components of the attendant care services.

   2. Determine with the selected provider what components of attendant care services the provider shall perform, subject to confirmation by the service worker or case manager that those components are consistent with the assessment and are authorized covered services.

   3. Complete, sign, and date Form 470-3372, HCBS Consumer-Directed Attendant Care Agreement, to indicate the frequency, scope, and duration of services (a description of each service component and the time agreed on for that component). The case manager or service worker and provider shall also sign the agreement.

   4. Submit the completed agreement to the service worker or case manager. The agreement shall be part of the member’s service plan and shall be kept in the member’s records, in the provider’s records, and in the service worker’s or case manager’s records. Any service component that is not listed in the agreement shall not be payable.
(2) Whenever a legal representative acts as a provider of consumer-directed attendant care as allowed by 441—paragraph 79.9(7), the following shall apply:

1. The payment rate for the legal representative must be based on the skill level of the legal representative and may not exceed the median statewide reimbursement rate for the service unless the higher rate receives prior approval from the department;
2. The legal representative may not be paid for more than 40 hours of service per week; and
3. A contingency plan must be established in the member’s service plan to ensure service delivery in the event the legal representative is unable to provide services due to illness or other unexpected event.

b. Supervision of Skilled Services. Skilled consumer-directed attendant care services shall be provided under the supervision of a licensed nurse or licensed therapist working under the direction of a physician. The licensed nurse or therapist shall:

(1) Retain accountability for actions that are delegated.
(2) Ensure appropriate assessment, planning, implementation, and evaluation.
(3) Make on-site supervisory visits every two weeks with the service provider present.

c. Service Documentation. The consumer-directed attendant care provider shall document evidence of compliance with the requirements of this chapter and rule 441-79.3(249A). The documentation or copies of the documentation must be maintained or be electronically accessible by the consumer-directed attendant care provider. Providers must use an electronic visit verification system that captures all documentation requirements of the Consumer-Directed Attendant Care (CDAC) Service Record (Form 470-4389) or use Form 470-4389. Any service component that is not documented in accordance with rule 441-79.3(249A) shall not be payable.

d. Role of Guardian or Attorney. If the member has a guardian or attorney in fact under a durable power of attorney for health care:

(1) The service worker’s or case manager’s service plan shall address how consumer-directed attendant care services will be monitored to ensure that the member’s needs are being adequately met. If the guardian or attorney in fact is the service provider, the service plan shall address how the service worker or case manager shall oversee service provision.

(2) The guardian or attorney in fact shall sign the claim form in place of the member, indicating that the service has been provided as presented on the claim.

e. Service Units and Billing. A unit of service is 15 minutes provided by an individual or agency. Each service shall be billed in whole units.

(11) Communication essential to the health and welfare of the member, through interpreting and reading services and use of assistive devices for communication.

      (2) Any activity that the member is able to perform.
      (3) Costs of food.
      (4) Costs for the supervision of skilled services by the nurse or therapist. **78.34(8) Interim medical monitoring and treatment services.** Interim medical monitoring and treatment (IMMT) services are monitoring and treatment of a medical nature for children or adults aged 18 to 20 whose medical needs make alternative care unavailable, inadequate, or insufficient. IMMT services are not intended to provide day care but to supplement available resources. Services must be ordered by a physician.
   a. Need for service. The member must be currently receiving home health agency services under rule 441—78.9(249A) and require medical assessment, medical monitoring, and regular medical intervention or intervention in a medical emergency during those services. The service worker or case manager must identify the need for IMMT services after evaluating the member’s living environment, family and natural supports, ability to perform activities of daily living, and health care needs. The services must be needed:
(1) To allow the member’s usual caregivers to be employed,
(2) During a search for employment by a usual caregiver,
(3) To allow for academic or vocational training of a usual caregiver,
(4) Due to the hospitalization of a usual caregiver for treatment for physical or mental illness, or

b. Service requirements. Interim medical monitoring and treatment services shall:
   (1) Provide experiences for each member’s social, emotional, intellectual, and physical development;
   (2) Include comprehensive developmental care and any special services for a member with special needs; and
   (3) Include medical assessment, medical monitoring, and medical intervention as needed on a regular or emergency basis. Medical intervention means the ability to assess the situation and contact the appropriate medical professional, not the direct application of medical care.

c. Interim medical monitoring and treatment services may include supervision while the member is being transported to and from school.

d. Limitations.
   (1) A maximum of 12 hours of service is available per day.
   (2) Covered services do not include a complete nutritional regimen.
   (3) Interim medical monitoring and treatment services may not duplicate any regular Medicaid or waiver services provided under the state plan. Services under the state plan, including home health agency services under rule 441—78.9(249A), must be exhausted before IMMT services are accessed.
   (4) Interim medical monitoring and treatment services shall be provided in the following settings that are approved by the department as integrated, community-based settings: the member’s home; a registered child development home; a licensed child care center, residential care facility, or adult day care facility; or during the time when the member is being transported to and from school.
   (5) The member-to-staff ratio shall not be more than six members to one staff person.
   (6) The parent or guardian of the member shall be responsible for the usual and customary nonmedical cost of day care during the time in which the member is receiving IMMT services. Medical care necessary for monitoring and treatment is an allowable IMMT cost. If the cost of care goes above the usual and customary cost of day care services due to the member’s medical condition, the costs above the usual and customary cost shall be covered as IMMT services.

e. A unit of service is 15 minutes.

78.34(9) Home and vehicle modification. Covered home or vehicle modifications are physical modifications to the member’s home or vehicle that directly address the member’s medical or remedial need. Covered modifications must be necessary to provide for the health, welfare, or safety of the member and enable the member to function with greater independence in the home or vehicle.

a. Modifications that are necessary or desirable without regard to the member’s medical or remedial need and that would be expected to increase the fair market value of the home or vehicle, such as furnaces, fencing, or adding square footage to the residence, are excluded except as specifically included below. f. All contracts for home or vehicle modification shall be awarded through competitive bidding. The contract shall include the scope of work to be performed, the time involved, supplies needed, the cost, diagrams of the project whenever applicable, and an assurance that the provider has liability and workers’ compensation coverage and the applicable permit and license.

g. Service payment shall be made to the enrolled home or vehicle modification provider. (4) Maximum units per state fiscal year shall be the initial installation and 12 months of service.

b. A portable locator system is an electronic device that transmits a signal to a monitoring device. The system allows a member to access assistance in the event of an emergency and allows law enforcement or the monitoring system provider to locate a member who is unable to request help or to activate a system independently. The member must be unable to access assistance in an emergency situation due to the member’s age or disability.

(1) The required components of the portable locator system are:

78.34(13) Consumer choices option. The consumer choices option (CCO) provides a member with a flexible monthly individual budget that is based on the member’s service needs. With the individual budget, the member shall have the authority to purchase goods and services to meet the member’s assessed needs and may choose to employ providers of services and supports. The services, supports, and items that are purchased with an individual budget must be directly related to a member’s assessed need or goal established in the member’s service plan. The consumer choices option is available to any member receiving the AIDS/HIV, brain injury, elderly, health and disability, intellectual disability, or physical disability waiver programs who has the ability and desire to perform all budget authority tasks identified in paragraph 78.34(13)“g” and employer authority tasks identified in paragraph 78.34(13)“h.” or who delegates the budget or employer authority tasks identified in paragraph 78.34(13)“i.” Components of this service are set forth below.
   a. Agreement. As a condition of participating in the consumer choices option, a member shall sign Form 470-4289, HCBS Consumer Choices Informed Consent and Risk Agreement, to document that the member has been informed of the responsibilities and risks of electing the consumer choices option.
   b. Individual budget amount. A monthly individual budget amount shall be established for each member based on the assessed needs of the member and based on the services and supports authorized in the member’s service plan. The member shall be informed of the individual budget amount during the development of the service plan.
      (1) Services that may be included in determining the individual budget amount for a member in the HCBS health and disability waiver are:
         1. Consumer-directed attendant care (unskilled).
         2. Home and vehicle modification.
         3. Home-delivered meals.

(7) The department shall determine an average unit cost for each service listed in subparagraphs 78.34(13)“b”(1) to (6) based on actual unit costs from the previous fiscal year plus a cost-of-living adjustment.

(8) In aggregate, costs for individual budget services shall not exceed the current costs of waiver program services. In order to maintain cost neutrality, the department shall apply a utilization adjustment factor to the amount of service authorized in the member’s service plan before calculating the value of that service to be included in the individual budget amount.
(9) The department shall compute the utilization adjustment factor for each service by dividing the net costs of all claims paid for the service by the total of the authorized costs for that service, using at least 12 consecutive months of aggregate service data. The utilization adjustment factor shall be no lower than 60 percent.

(10) Individual budgets for respite services shall be computed based on the average cost for services identified in subparagraph 78.34(13)”b”(7). Respite services are not subject to the utilization adjustment factor in subparagraph 78.34(13)”b”(8).

(11) Anticipated costs for home and vehicle modification, assistive devices, and specialized medical equipment are not subject to the average cost in subparagraph 78.34(13)”b”(7) or the utilization adjustment factor in subparagraph 78.34(13)”b”(8). The anticipated costs may include the costs of the financial management services and the independent support broker when the home and vehicle modification, assistive device, or specialized medical equipment is the only service included in the CCO monthly budget and the total cost for the home and vehicle modification, assistive device, or specialized medical equipment, including the cost of the financial management services and the independent support broker, is approved by the Iowa Medicaid enterprise or managed care organization as the least costly option to meet the member’s need. Costs for the home and vehicle modification, assistive device, or specialized medical equipment may be paid to the financial management services provider in a one-time payment. Before becoming part of the CCO monthly budget, all home and vehicle modifications, assistive device, and specialized medical equipment shall be identified in the member’s service plan and authorized by the case manager or community-based case manager.

(12) The individual budget amount may be changed only at the first of the month and shall remain fixed for the entire month.

c. Required service components. To participate in the consumer choices option, a member must hire an independent support broker and must work with a financial management service that is enrolled as a Medicaid provider. Before hiring the independent support broker, the member shall receive the results of the background check conducted pursuant to 441—Chapter 119.

d. Optional service components. A member who elects the consumer choices option may purchase the following goods, services and supports, which shall be provided in the member’s home or at an integrated community setting:

(1) Self-directed personal care services. Self-directed personal care services are services that provide a range of assistance in activities of daily living and incidental activities of daily living that help the member remain in the home and community. These services must be identified in the member’s service plan developed by the member’s case manager or community-based case manager.

(2) Self-directed community supports and employment. Self-directed community supports and employment are services that support the member in developing and maintaining independence and community integration. These services must be identified in the member’s service plan developed by the member’s case manager or community-based case manager.

(3) Individual-directed goods and services. Individual-directed goods and services are services, equipment, or supplies not otherwise provided through the Medicaid program that address an assessed need or goal identified in the member’s service plan. The item or service shall meet the following requirements:

1. Promote opportunities for community living and inclusion.
2. Increase independence or substitute for human assistance, to the extent the expenditures would otherwise be made for that human assistance.
3. Be accommodated within the member’s budget without compromising the member’s health and safety.
4. Be provided to the member or directed exclusively toward the benefit of the member.
5. Be the least costly to meet the member’s needs.
6. Not be available through another source.

e. Development of the individual budget. The independent support broker shall assist the member in developing and implementing the member’s individual budget. The individual budget shall include:

(1) The costs of the financial management service.
(2) The costs of the independent support broker. The independent support broker may be compensated for up to 6 hours of service for assisting with the implementation of the initial individual budget. The independent support broker shall not be paid for more than 30 hours of service for an individual member during a 12-month period without prior approval by the department.

(3) The costs of any optional service component chosen by the member as described in paragraph 78.34(13) “d.” At a minimum, the CCO monthly budget must include the purchase of self-directed personal care, individual-directed goods and services, or self-directed community supports and services needed to meet the amount of service authorized for use in CCO identified in the member’s service plan. After funds have been budgeted to meet the identified needs, remaining funds from the monthly budget amount may be used to purchase additional self-directed personal care, individual-directed goods and services, or self-directed community supports and services as allowed by the monthly budget. The additional self-directed personal care, individual-directed goods and services, or self-directed community supports and services may exceed the amount of service or supports authorized in the member’s service plan. Costs of the following items and services shall not be covered by the individual budget:

(1) Add together the minutes spent on all billable activities during a calendar day for a daily total.

(2) For each day, divide the total minutes spent on billable activities by 15 to determine the number of full 15-minute units for that day.

(3) Round the remainder using these guidelines: Round 1 to 7 minutes down to zero units; round 8 to 14 minutes up to one unit.
(4) Add together the number of full units and the number of rounded units to determine the total number of units to bill for that day.

This rule is intended to implement Iowa Code section 249A.4.
