

661—277.3(100C) Responsible managing employee. Each alarm system contractor shall designate a responsible managing employee and may designate one or more alternate responsible managing employees. A contractor may designate more than one responsible managing employee in order to satisfy the requirements for more than one endorsement as provided in subrule 277.1(2). If more than one responsible managing employee is designated, the contractor shall indicate for which responsible managing employee each designated alternate managing employee serves as an alternate.

277.3(1) The responsible managing employee or employees shall be designated in the application for licensure; and, if a responsible managing employee is no longer acting in that role, the contractor shall so notify the state fire marshal, in writing, within 30 calendar days, as provided in subrule 277.1(4).

277.3(2) If a responsible managing employee is no longer acting in the role of responsible managing employee and the contractor has designated an alternate responsible managing employee, the alternate responsible managing employee shall become the responsible managing employee and the contractor shall so notify the state fire marshal, in writing as provided in subrule 277.1(4), within 30 calendar days of the date on which the preceding responsible managing employee ceased to act in that role. If the contractor has designated more than one alternate responsible managing employee, the notice to the state fire marshal shall indicate which alternate responsible managing employee has assumed the position of responsible managing employee.

277.3(3) If a responsible managing employee designated by an alarm system contractor is no longer acting in the role of responsible managing employee and the contractor has not designated an alternate responsible managing employee, the contractor shall designate a new responsible managing employee and shall notify the state fire marshal, in writing as provided in subrule 277.1(4), of the designation within six months of the date on which the former responsible managing employee ceased to act in that capacity in writing as provided in subrule 277.1(4). If the state fire marshal has not been notified of the appointment of a new responsible managing employee within six months of the date on which a responsible managing employee ceased serving in that capacity, the state fire marshal shall suspend the license of the alarm system contractor.

277.3(4) A responsible managing employee or an alternate responsible managing employee shall meet one of the requirements for the following endorsements:

a. Fire alarm system installation:

- (1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or
- (2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level III or above in fire alarm systems, or
- (3) Current certification by the Electronic Security Association (ESA) at level III in certified fire alarm designer (CFAD), or
- (4) Satisfactory completion of an applicable training or testing program that has been approved by the state fire marshal.

b. Nurse call system installation:

- (1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or
- (2) Current certification by a nurse call system manufacturer, or
- (3) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level II or above in fire alarm systems, or
- (4) Current certification by the Electronic Security Association (ESA) at level II in certified alarm technician (CAT), or
- (5) Satisfactory completion of an applicable training or testing program that has been approved by the state fire marshal.

c. Security alarm system installation:

- (1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or
- (2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level II or above in fire alarm systems, or

(3) Current certification by the Electronic Security Association (ESA) at level II in certified alarm technician (CAT), or

(4) Satisfactory completion of an applicable training or testing program that has been approved by the state fire marshal.

d. Alarm system maintenance inspection:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level II or above in fire alarm systems, or

(3) Current certification by the Electronic Security Association (ESA) at level II in certified alarm technician (CAT), or

(4) Current certification by the National Institute for Certification in Engineering Technologies (NICET) level II or above in inspection and testing of fire alarm systems, or

(5) Satisfactory completion of an applicable training or testing program that has been approved by the state fire marshal.

e. Dwelling unit alarm system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level I or above in fire alarm systems, or

(3) Current certification by the Electronic Security Association (ESA) at level I in certified alarm technician (CAT), or

(4) Satisfactory completion of an applicable training or testing program that has been approved by the state fire marshal.

277.3(5) In any case in which training or testing that is offered to satisfy the requirements of this rule is required to be approved by the state fire marshal, such approval is required prior to acceptance of the training or testing to meet licensing requirements. Approval by the state fire marshal of any training or testing to meet these requirements may be sought by the individual, firm, or organization providing the testing or training or initiated by the state fire marshal. Any individual, firm, or organization seeking to obtain such approval may apply to the state fire marshal no later than July 1, 2021, and no later than July 1 every two years thereafter. Program information and any other documentation requested by the state fire marshal for consideration shall be submitted to the state fire marshal as specified in subrule 277.1(4). Training and testing approved by the state fire marshal will be listed on the state fire marshal's licensing website.

277.3(6) Work performed by a contractor subject to these rules shall be limited to areas of competence indicated by the specific certification or certifications or other training requirements met by the responsible managing employee. Work performed in the state shall not begin prior to:

a. Receipt of a new or renewed license issued by the state fire marshal to the applicant, or

b. Receipt of written approval to perform work prior to issuance of a new or renewed license from the state fire marshal to the applicant.

277.3(7) Nothing in this rule shall be interpreted to conflict with or diminish any requirement for training or certification for anyone installing or servicing an alarm system set forth in any rule of the state fire marshal or local fire ordinance or standard adopted by reference therein.

[ARC 5396C, IAB 1/13/21, effective 2/17/21]
