1. Notwithstanding [sections 147.87 through 147.89](#), the board may restrict, suspend, or revoke a license to practice nursing or place the licensee on probation. The board may also prescribe by rule conditions of license reinstatement. The board shall adopt rules of procedure by which to restrict, suspend, or revoke a license. b. Continued practice while knowingly having an infectious or contagious disease which could be harmful to a patient's welfare.

c. (1) Having a license to practice nursing as a registered nurse or licensed practical nurse revoked or suspended, or having other disciplinary action taken by a licensing authority of another state, territory, or country. A certified copy of the record or order of suspension, revocation, or disciplinary action is prima facie evidence of such fact.

(2) Having a license to practice nursing as a registered nurse or licensed practical nurse revoked or suspended, or having other disciplinary action taken, by a licensing authority in another state which has adopted the nurse licensure compact contained in [section 152E.1](#) or the advanced practice registered nurse compact contained in [section 152E.3](#) and which has communicated information relating to such action pursuant to the coordinated licensure information system established by the compact. d. Knowingly aiding, assisting, procuring, advising, or allowing a person to unlawfully practice nursing.

e. Being adjudicated mentally incompetent by a court of competent jurisdiction. Such adjudication shall automatically suspend a license for the duration of the license, unless the board orders otherwise.

f. Being guilty of willful or repeated departure from or the failure to conform to the minimum standard of acceptable and prevailing practice of nursing; however, actual injury to a patient need not be established.

g. (1) Inability to practice nursing with reasonable skill and safety by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.

(2) The board may, upon probable cause, request a licensee to submit to an appropriate medical evaluation by a designated health care provider. If requested by the licensee, the licensee may also designate a health care provider for an independent medical evaluation. Refusal or failure of a licensee to complete such evaluations shall constitute an admission of any allegations relating to such condition. All objections shall be waived as to the admissibility of the examining health care provider's testimony or evaluation reports on the grounds that they constitute privileged communication. The medical testimony or evaluation reports shall not be used against a registered nurse, licensed practical nurse, or advanced registered nurse practitioner in another proceeding and shall be confidential. At reasonable intervals, a registered nurse, licensed practical nurse, or advanced registered nurse practitioner shall be afforded an opportunity to demonstrate that the registered

nurse, licensed practical nurse, or advanced registered nurse practitioner can resume the competent practice of nursing with reasonable skill and safety to patients.
