CHILD ABUSE INFORMATION REGISTRY

[P] Definitions applicable to this division, see §232.68

235A.12 Legislative findings and purposes.

1. The general assembly finds and declares that a central registry is required to provide a single source for the statewide collection, maintenance, and dissemination of child abuse information. The existence of the central registry is imperative for increased effectiveness in dealing with the problem of child abuse. The general assembly also finds that vigorous protection of rights of individual privacy is an indispensable element of a fair and effective system of collecting, maintaining, and disseminating child abuse information.

2. The purposes of this section and sections 235A.13 through 235A.24 are to facilitate the identification of victims or potential victims of child abuse by making available a single, statewide source of child abuse data; to facilitate research on child abuse by making available a single, statewide source of child abuse data; and to provide maximum safeguards against the unwarranted invasions of privacy which such a registry might otherwise entail.

c. A written record is made of the redissemination, including the name of the recipient and the date and purpose of the redissemination.

d. The written record is forwarded to the registry within thirty days of the redissemination.

2. The department of human services may notify orally the mandatory reporter in an individual child abuse case of the results of the case assessment and of the confidentiality provisions of sections 235A.15 and 235A.21. The department shall subsequently transmit a written notice to the mandatory reporter of the results and confidentiality provisions. If the report data and disposition data have been placed in the registry as founded child abuse pursuant to section 232.71D, a copy of the written notice shall be transmitted to the registry and shall be maintained by the registry as provided in section 235A.18. Otherwise, a copy of the written notice shall be retained by the department with the case file.

235A.18 Sealing and expungement of founded child abuse information.

1. Report data and disposition data relating to a particular case of alleged abuse which has been determined to be founded child abuse and placed in the central registry in accordance with section 232.71D shall be maintained in the registry as follows:

a. Report and disposition data relating to a particular case of alleged child abuse shall be sealed ten years after the initial placement of the data in the registry unless good cause be shown why the data should remain open to authorized access. If a subsequent report of an alleged case of child abuse involving the child named in the initial data placed in the registry as the victim of abuse or a person named in the data as having abused a child is received by the department within this ten-year period, the data shall be sealed ten years after receipt of the subsequent report unless good cause be shown why the data should remain open to authorized access. However, such report and disposition data shall be made available to the department of justice if the department requests access to the alleged child abuse records for purposes of review by the prosecutor's review committee or commitment of sexually violent predators under chapter 229A.

b. Data sealed in accordance with this section shall be expunged eight years after the date the data was sealed. However, if the report data and the disposition data involve child abuse as defined in section 232.68, subsection 2, paragraph "c" or "e", the data shall not be expunged for a period of thirty years. Sealed data shall be made available to the department of justice upon request if the prosecutor's review committee is reviewing records or if a prosecuting attorney has filed a petition to commit a sexually violent predator under chapter 229A.

2. The juvenile or district court and county attorney shall expunge child abuse information upon notice from the registry. The supreme court shall prescribe rules establishing the period of time child abuse information is retained by the juvenile and district courts. A county attorney shall not retain child abuse information in excess of the time period the information would be retained under the rules prescribed by the supreme court. Child abuse information relating to a particular case of child abuse placed in the central registry that a juvenile or district court determines is unfounded in a written finding based upon a preponderance of evidence shall be expunged from the central registry.

3. If required by this subsection, for child abuse information in the central registry as of July 1, 1997, the central registry shall perform a review of the information utilizing the requirements for referral of child abuse information to the central registry as founded child abuse under section 232.71D. If the review indicates the information would not be placed in the registry as founded child abuse under section 232.71D, the information shall be expunged from the central registry. Child abuse information which is expunged from the central registry under this subsection shall not be retained by the department any longer than the time period in the rule for retaining information which is not placed in the central registry, allowing credit for the amount of time the information was held in the central registry. If the review indicates the child abuse information would be placed in the central registry under section 232.71D, the information shall be subject to the provisions of subsection 1, as to the time period the information is to be retained in the registry. A review shall be performed under any of the following conditions:

a. The department is considering the information while performing a record check evaluation under law or administrative rule.

b. A review is indicated under a procedure for performing reviews adopted by the department.

4. The department of human services shall adopt rules establishing the period of time child abuse information which is not maintained in the central registry is retained by the department.

The department may defer the hearing until the conclusion of a pending juvenile or district court case relating to the data or findings.

b. The department shall not disclose any report data or disposition data until the conclusion of the proceeding to correct the data or findings, except as follows:

- (9) For others identified in section 235A.15, subsection 2, paragraph "d", subparagraph (7), and paragraph "e", subparagraphs (9) and (16).

3. The subject of a child abuse report may appeal the decision resulting from a hearing held pursuant to subsection 2 to the district court of Polk county or to the district court of the district in which the subject of the child abuse report resides. Immediately upon appeal the court shall order the department to file with the court a certified copy of the report data or disposition data. Appeal shall be taken in accordance with chapter 17A.

4. Upon the request of the appellant, the record and evidence in such cases shall be closed to all but the court and its officers, and access to the record and evidence shall be prohibited unless otherwise ordered by the court. The clerk shall maintain a separate docket for such actions. A person other than the appellant shall not permit a copy of any of the testimony or pleadings or the substance of the testimony or pleadings to be made available to any person other than a party to the action or the party's attorney. Violation of the provisions of this subsection shall be a public offense punishable under section 235A.21.

5. Whenever the department corrects or eliminates data as requested or as ordered by the court, the department shall advise all persons who have received the incorrect data of such fact. Upon application to the court and service of notice on the department, any subject of a child abuse report may request and obtain a list of all persons who have received report data or disposition data referring to the subject.

6. In the course of any proceeding provided for by this section, the identity of the person who reported the disputed data and the identity of any person who has been reported
