2 42 considered as part of a confinement swine feeding
2 43 enterprise, unless the swine are owned by the business
2 44 entity or subject to a contract for their care and
2 45 feeding in which the enterprise is a party.

2 46 Sec. 6. Section 455B.173, subsection 13, Code
2 47 Supplement 1995, is amended to read as follows:

2 48 13. a. Adopt, modify, or repeal rules relating to

3 3 evaluations of animal feeding operations. The
3 4 department shall not require that a person obtain a

3 6 operation structure, if the structure is part of a
3 7 small animal feeding operation.

3 8 b. The department shall collect an indemnity fee
3 9 as provided in section 204.3 prior to the issuance of

3 18 the construction of the animal feeding operation
3 19 structure will not impede the drainage through

4 3 located. Upon receipt of an application for

4 5 department shall determine if the application complies
4 6 with all permit requirements. The process of
4 7 approving or disapproving a permit shall be as
4 8 follows:

4 9 (1) If the confinement feeding operation is not a
4 10 confinement swine feeding enterprise, the department
4 11 shall not approve the application or issue a
4 12 construction permit until thirty days following
4 13 delivery of the application to the county board of
4 14 supervisors. The department shall consider comments
4 15 from the county board of supervisors, regarding
4 16 compliance by the applicant with the legal
4 17 requirements for the construction of the confinement
4 18 feeding operation structure as provided in this
4 19 chapter, and rules adopted by the department pursuant
4 20 to this chapter, if the comments are delivered to the
4 21 department within fourteen days after receipt of the
4 22 application by the county board of supervisors.

4 23 (2) If the confinement feeding operation is a
4 24 confinement swine feeding enterprise, the department
4 25 shall not approve the application unless the
4 26 department receives the approval of the application
4 27 from the county.

4 28 f. Prior to granting a permit to a person for the
4 29 construction of an animal feeding operation, the
4 30 department may require the installation and operation
4 31 of a hydrological monitoring system for an exclusively
4 32 earthen manure storage structure, if, after an on-site
4 33 inspection, the department determines that the site
4 34 presents an extraordinary potential for groundwater
4 35 pollution.

4 36 g. A person shall not obtain a permit for the
4 37 construction of a confinement feeding operation,
4 38 unless the person develops a manure management plan as
4 39 provided in section 455B.203.

4 40 h. The department shall not issue a permit to a
4 41 person under this subsection if an enforcement action
4 42 by the department, relating to a violation of this
4 43 chapter concerning a confinement feeding operation in
4 44 which the person has an interest, is pending. The
4 45 department shall not issue a permit to a person under
4 46 this subsection for five years after the date of the
4 47 last violation committed by a person or confinement
4 48 feeding operation in which the person holds a
4 49 controlling interest during which the person or
4 50 operation was classified as a habitual violator under
5 1 section 455B.191. The department shall conduct an
5 2 annual review of each confinement feeding operation

5 6 persons classified as habitual violators of their
5 7 classification, additional restrictions imposed upon
5 8 the persons pursuant to the classification, and
