1 14 priorities:  
1 15 a. The goal that all children in the state have  
1 16 health care coverage which meets certain standards of  
1 17 quality and affordability with the following  
1 18 priorities:  
1 19 (1) Covering all children who are declared  
1 20 eligible for the medical assistance program or the  
1 21 hawk=i program pursuant to chapter 514I no later than  
1 22 January 1, 2011.

1 30 children's health insurance program provides  
1 31 sufficient federal allocations to the state and  
1 32 authorization to cover such children as an option  
1 33 under the state children's health insurance program,  
1 34 requiring the department of human services to expand  
1 35 coverage under the state children's health insurance  
1 36 program to cover children with family incomes at or  
1 37 below three hundred percent of the federal poverty  
1 38 level, with appropriate cost sharing established for  
1 39 families with incomes above two hundred percent of the

1 42 insurance association, in consultation with the Iowa  
1 43 choice health care coverage advisory council  
1 44 established in section 514E.6, develop a comprehensive  
1 45 plan to cover all children without health care  
1 46 coverage that utilizes and modifies existing public  
1 47 programs including the medical assistance program, the  
1 48 hawk=i program, and the hawk=i expansion program, and  
1 49 to provide access to private unsubsidized, affordable,

2 5 by January 1, 2010.

2 7 health care coverage costs by instituting health  
2 8 insurance reforms that assure the availability of  
2 9 private health insurance coverage for Iowans by  
2 10 addressing issues involving guaranteed availability  
2 11 and issuance to applicants, preexisting condition  
2 12 exclusions, portability, and allowable or required

- 26 1 1. The purposes of a medical home are the

  - 26 3 a. To reduce disparities in health care access,  
26 4 delivery, and health care outcomes.
  - 26 5 b. To improve quality of health care and lower

26 8 provide for the sustainability of the health care  
26 9 system.

- 26 10 c. To provide a tangible method to document if  
26 11 each Iowan has access to health care.

- 26 12 2. A medical home has all of the following  
26 13 characteristics:

- 26 14 a. A personal provider. Each patient has an  
26 15 ongoing relationship with a personal provider trained  
26 16 to provide first contact and continuous and  
26 17 comprehensive care.

- 26 18 b. A provider-directed medical practice. The  
26 19 personal provider leads a team of individuals at the  
26 20 practice level who collectively take responsibility  
26 21 for the ongoing health care of patients.

- 26 22 c. Whole person orientation. The personal  
26 23 provider is responsible for providing for all of a  
26 24 patient's health care needs or taking responsibility  
26 25 for appropriately arranging health care by other  
26 26 qualified health care professionals. This  
26 27 responsibility includes health care at all stages of  
26 28 life including provision of acute care, chronic care,  
26 29 preventive services, and end-of-life care.

- 26 30 d. Coordination and integration of care. Care is  
26 31 coordinated and integrated across all elements of the  
26 32 complex health care system and the patient's  
26 33 community. Care is facilitated by registries,  
26 34 information technology, health information exchanges,  
26 35 and other means to assure that patients receive the  
26 36 indicated care when and where they need and want the  
26 37 care in a culturally and linguistically appropriate  
26 38 manner.

- 26 39 e. Quality and safety. The following are quality

26 40 and safety components of the medical home:  
26 41 (1) Provider-directed medical practices advocate  
26 42 for their patients to support the attainment of  
26 43 optimal, patient-centered outcomes that are defined by  
26 44 a care planning process driven by a compassionate,  
26 45 robust partnership between providers, the patient, and  
26 46 the patient's family.  
26 47 (2) Evidence-based medicine and clinical  
26 48 decision-support tools guide decision making.  
26 49 (3) Providers in the medical practice accept  
26 50 accountability for continuous quality improvement  
27 1 through voluntary engagement in performance  
27 2 measurement and improvement.  
27 3 (4) Patients actively participate in decision  
27 4 making and feedback is sought to ensure that the  
27 5 patients' expectations are being met.  
27 6 (5) Information technology is utilized  
27 7 appropriately to support optimal patient care,  
27 8 performance measurement, patient education, and  
27 9 enhanced communication.  
27 10 (6) Practices participate in a voluntary  
27 11 recognition process conducted by an appropriate  
27 12 nongovernmental entity to demonstrate that the  
27 13 practice has the capabilities to provide  
27 14 patient-centered services consistent with the medical  
27 15 home model.  
27 16 (7) Patients and families participate in quality  
27 17 improvement activities at the practice level.  
27 18 f. Enhanced access to health care. Enhanced  
27 19 access to health care is available through systems  
27 20 such as open scheduling, expanded hours, and new  
27 21 options for communication between the patient, the  
27 22 patient's personal provider, and practice staff.  
27 23 g. Payment. The payment system appropriately  
27 24 recognizes the added value provided to patients who  
27 25 have a patient-centered medical home. The payment  
27 26 structure framework of the medical home provides all  
27 27 of the following:  
27 28 (1) Reflects the value of provider and nonprovider  
27 29 staff and patient-centered care management work that  
27 30 is in addition to the face-to-face visit.  
27 31 (2) Pays for services associated with coordination  
27 32 of health care both within a given practice and  
27 33 between consultants, ancillary providers, and  
27 34 community resources.  
27 35 (3) Supports adoption and use of health  
27 36 information technology for quality improvement.  
27 37 (4) Supports provision of enhanced communication  
27 38 access such as secure electronic mail and telephone  
27 39 consultation.  
27 40 (5) Recognizes the value of provider work  
27 41 associated with remote monitoring of clinical data  
27 42 using technology.  
27 43 (6) Allows for separate fee-for-service payments  
27 44 for face-to-face visits. Payments for health care  
27 45 management services that are in addition to the  
27 46 face-to-face visit do not result in a reduction in the  
27 47 payments for face-to-face visits.  
27 48 (7) Recognizes case mix differences in the patient

43 2 system. The plan shall incorporate expenditure  
43 3 control methods and integrate criteria for  
43 4 evidence-based health care. The department shall do

43 17 research and analysis projects to be conducted by  
43 18 public or private organizations to further the  
43 19 development of the strategic plan.

43 21 assist in the development of the strategic plan. The  
43 22 members of the committee may include but are not

43 24 university of Iowa college of public health, health  
43 25 planners, representatives of health care purchasers,  
43 26 representatives of state and local agencies that  
43 27 regulate entities involved in health care,  
43 28 representatives of health care providers and health  
43 29 care facilities, and consumers.

43 30 2. The strategic plan shall include statewide  
43 31 health planning policies and goals related to the  
43 32 availability of health care facilities and services,  
43 33 the quality of care, and the cost of care. The  
43 34 policies and goals shall be based on the following  
43 35 principles:

- 43 36 a. That a strategic health planning process,  
43 37 responsive to changing health and social needs and  
43 38 conditions, is essential to the health, safety, and  
43 39 welfare of Iowans. The process shall be reviewed and  
43 40 updated as necessary to ensure that the strategic plan  
43 41 addresses all of the following:
  - 43 42 (1) Promoting and maintaining the health of all  
43 43 Iowans.
  - 43 44 (2) Providing accessible health care services  
43 45 through the maintenance of an adequate supply of  
43 46 health facilities and an adequate workforce.
  - 43 47 (3) Controlling excessive increases in costs.
  - 43 48 (4) Applying specific quality criteria and  
43 49 population health indicators.
  - 43 50 (5) Recognizing prevention and wellness as  
44 1 priorities in health care programs to improve quality  
44 2 and reduce costs.
  - 44 3 (6) Addressing periodic priority issues including  
44 4 disaster planning, public health threats, and public  
44 5 safety dilemmas.
  - 44 6 (7) Coordinating health care delivery and resource  
44 7 development efforts among state agencies including  
44 8 those tasked with facility, services, and professional  
44 9 provider licensure; state and federal reimbursement;  
44 10 health service utilization data systems; and others.
  - 44 11 (8) Recognizing long-term care as an integral  
44 12 component of the health care delivery infrastructure  
44 13 and as an essential service provided by the health  
44 14 care workforce.
- 44 15 b. That both consumers and providers throughout  
44 16 the state must be involved in the health planning  
44 17 process, outcomes of which shall be clearly  
44 18 articulated and available for public review and use.
- 44 19 c. That the supply of a health care service has a  
44 20 substantial impact on utilization of the service,  
44 21 independent of the effectiveness, medical necessity,  
44 22 or appropriateness of the particular health care  
44 23 service for a particular individual.
- 44 24 d. That given that health care resources are not  
44 25 unlimited, the impact of any new health care service  
44 26 or facility on overall health expenditures in this  
44 27 state must be considered.
- 44 28 e. That excess capacity of health care services  
44 29 and facilities places an increased economic burden on  
44 30 the public.

44 31 f. That the likelihood that a requested new health  
44 32 care facility, service, or equipment will improve  
44 33 health care quality and outcomes must be considered.

44 34 g. That development and ongoing maintenance of  
44 35 current and accurate health care information and  
44 36 statistics related to cost and quality of health care  
44 37 and projections of the need for health care facilities  
44 38 and services are necessary to developing an effective  
44 39 health care planning strategy.

44 40 h. That the certificate of need program as a  
44 41 component of the health care planning regulatory  
44 42 process must balance considerations of access to  
44 43 quality care at a reasonable cost for all Iowans,  
44 44 optimal use of existing health care resources,  
44 45 fostering of expenditure control, and elimination of  
44 46 unnecessary duplication of health care facilities and  
44 47 services, while supporting improved health care  
44 48 outcomes.

44 49 i. That strategic health care planning must be  
44 50 concerned with the stability of the health care  
45 1 system, encompassing health care financing, quality,  
45 2 and the availability of information and services for  
45 3 all residents.

45 4 3. The health care delivery infrastructure and  
45 5 health care workforce resources strategic plan  
45 6 developed by the department shall include all of the  
45 7 following:

45 8 a. A health care system assessment and objectives  
45 9 component that does all of the following:

45 10 (1) Describes state and regional population  
45 11 demographics, health status indicators, and trends in  
45 12 health status and health care needs.

45 13 (2) Identifies key policy objectives for the state  
45 14 health care system related to access to care, health  
45 15 care outcomes, quality, and cost-effectiveness.

45 16 b. A health care facilities and services plan that  
45 17 assesses the demand for health care facilities and  
45 18 services to inform state health care planning efforts  
45 19 and direct certificate of need determinations, for  
45 20 those facilities and services subject to certificate  
45 21 of need. The plan shall include all of the following:

45 22 (1) An inventory of each geographic region's  
45 23 existing health care facilities and services.

45 24 (2) Projections of the need for each category of  
45 25 health care facility and service, including those  
45 26 subject to certificate of need.

45 27 (3) Policies to guide the addition of new or  
45 28 expanded health care facilities and services to  
45 29 promote the use of quality, evidence-based,  
45 30 cost-effective health care delivery options, including  
45 31 any recommendations for criteria, standards, and  
45 32 methods relevant to the certificate of need review  
45 33 process.

45 34 (4) An assessment of the availability of health  
45 35 care providers, public health resources,  
45 36 transportation infrastructure, and other  
45 37 considerations necessary to support the needed health  
45 38 care facilities and services in each region.

45 39 c. A health care data resources plan that  
45 40 identifies data elements necessary to properly conduct  
45 41 planning activities and to review certificate of need  
45 42 applications, including data related to inpatient and  
45 43 outpatient utilization and outcomes information, and  
45 44 financial and utilization information related to  
45 45 charity care, quality, and cost. The plan shall  
45 46 provide all of the following:

45 47 (1) An inventory of existing data resources, both  
45 48 public and private, that store and disclose  
45 49 information relevant to the health care planning  
45 50 process, including information necessary to conduct  
46 1 certificate of need activities. The plan shall  
46 2 identify any deficiencies in the inventory of existing  
46 3 data resources and the data necessary to conduct  
46 4 comprehensive health care planning activities. The  
46 5 plan may recommend that the department be authorized  
46 6 to access existing data sources and conduct  
46 7 appropriate analyses of such data or that other  
46 8 agencies expand their data collection activities as  
46 9 statutory authority permits. The plan may identify  
46 10 any computing infrastructure deficiencies that impede

53 9 COMMITTEE == REVIEWS.  
53 10 1. a. The general assembly recognizes that direct  
53 11 care workers play a vital role and make a valuable  
53 12 contribution in providing care to Iowans with a  
53 13 variety of needs in both institutional and home and  
53 14 community-based settings. Recruiting and retaining  
53 15 qualified, highly competent direct care workers is a  
53 16 challenge across all employment settings. High rates  
53 17 of employee vacancies and staff turnover threaten the  
53 18 ability of providers to achieve the core mission of  
53 19 providing safe and high quality support to Iowans.  
53 20 b. It is the intent of the general assembly to  
53 21 address the long-term care workforce shortage and  
53 22 turnover rates in order to improve the quality of  
53 23 health care delivered in the long-term care continuum  
53 24 by reviewing wages and other compensation paid to  
53 25 direct care workers in the state.  
53 26 c. It is the intent of the general assembly that  
53 27 the initial review of and recommendations for  
53 28 improving wages and other compensation paid to direct  
53 29 care workers focus on nonlicensed direct care workers  
53 30 in the nursing facility setting. However, following  
53 31 the initial review of wages and other compensation  
53 32 paid to direct care workers in the nursing facility  
53 33 setting, the department of human services shall  
53 34 convene subsequent advisory committees with  
53 35 appropriate representatives of public and private  
53 36 organizations and consumers to review the wages and  
53 37 other compensation paid to and turnover rates of the  
53 38 entire spectrum of direct care workers in the various  
53 39 settings in which they are employed as a means of  
53 40 demonstrating the general assembly's commitment to  
53 41 ensuring a stable and quality direct care workforce in  
53 42 this state.  
53 43 2. The department of human services shall convene  
53 44 an initial direct care worker compensation advisory  
53 45 committee to develop recommendations for consideration  
53 46 by the general assembly during the 2009 legislative  
53 47 session regarding wages and other compensation paid to  
53 48 direct care workers in nursing facilities. The  
53 49 committee shall consist of the following members,  
53 50 selected by their respective organizations:  
54 1 a. The director of human services, or the  
54 2 director's designee.  
54 3 b. The director of public health, or the  
54 4 director's designee.  
54 5 c. The director of the department of elder

54 8 and appeals, or the director's designee.

54 10 association.

54 12 association.  
54 13 g. A representative of the Iowa association of  
54 14 homes and services for the aging.  
54 15 h. A representative of the AARP Iowa chapter.  
54 16 3. The advisory committee shall also include two

54 17 members of the senate and two members of the house of  
54 18 representatives, with not more than one member from  
54 19 each chamber being from the same political party. The  
54 20 legislative members shall serve in an ex officio,  
54 21 nonvoting capacity. The two senators shall be  
54 22 appointed respectively by the majority leader of the  
54 23 senate and the minority leader of the senate, and the  
54 24 two representatives shall be appointed respectively by  
54 25 the speaker of the house of representatives and the  
54 26 minority leader of the house of representatives.

54 27 4. Public members of the committee shall receive  
54 28 actual expenses incurred while serving in their  
54 29 official capacity and may also be eligible to receive  
54 30 compensation as provided in section 7E.6. Legislative  
54 31 members of the committee are eligible for per diem and  
54 32 reimbursement of actual expenses as provided in  
54 33 section 2.10.

54 34 5. The department of human services shall provide  
54 35 administrative support to the committee and the  
54 36 director of human services or the director's designee  
54 37 shall serve as chairperson of the committee.

54 38 6. The department shall convene the committee no  
54 39 later than July 1, 2008. Prior to the initial  
54 40 meeting, the department of human services shall  
54 41 provide all members of the committee with a detailed  
54 42 analysis of trends in wages and other compensation  
54 43 paid to direct care workers.

54 44 7. The committee shall consider options related  
54 45 but not limited to all of the following:

54 46 a. The shortening of the time delay between a  
54 47 nursing facility's submittal of cost reports and  
54 48 receipt of the reimbursement based upon these cost  
54 49 reports.

54 50 b. The targeting of appropriations to provide  
55 1 increases in direct care worker compensation.

55 2 c. Creation of a nursing facility provider tax.

55 3 8. Following its deliberations, the committee  
55 4 shall submit a report of its findings and  
55 5 recommendations regarding improvement in direct care  
55 6 worker wages and other compensation in the nursing  
55 7 facility setting to the governor and the general  
55 8 assembly no later than December 12, 2008.

55 9 9. For the purposes of the initial review, "direct  
55 10 care worker" means nonlicensed nursing facility staff
