There was discussion about a 28E agreement with Broadlawns regarding a property tax transfer to draw down federal funds. Rep. Frevert asked for a department response to a question she has forwarded regarding spenddown.
- ARC 4814B Amendments to ch 86 pertain to the HAWK-I program. Ms. Smith reported that at any given time there are approximately 43,000 uninsured children in the state and that DHS and the department of public health are working with schools, faith-based organizations, and the provider and business communities to identify children eligible for the program. Ms. Smith advised Rep. Heaton that approximately 40 percent of HAWK-I applicants are Medicaid-eligible.

- ELDER AFFAIRS DEPARTMENT** Mark Haverland and Debi Meyers represented the department. Other interested parties included AAA executive committee member Cynthia Beaman.
- ARC 4805B Mr. Haverland offered introductory remarks about the “double-barrel” filing of ch 21, case management program for frail elders, stating that although the department’s intent was to have rules in place to be able to draw down federal funds in fiscal year ’07, CMS has not yet responded to the DHS request to include case management as a reimbursed service under the elderly waiver. Rep. Heaton expressed concerns about the emergency adoption of anticipatory rules during appropriations negotiations and asked that the department rescind the emergency rules. Mr. Haverland agreed to the request for rescission. Rep. Carroll noted that because DHS is the administrative entity for Medicaid, an AAA could be designated as a qualified provider of case management services without DEA rules. Ms. Beaman commented that because AAAs serve both waiver and nonwaiver clients, DEA rules would ensure that case management services operate in the same manner whether paid by Medicaid or under the Older Americans Act.
- EMPOWERMENT BOARD** Shanell Wagler represented the board.
- ARC 4836B Proposed amendments to ch 1 include definitions for “early care” and “family support.” Discussion related to carryforward of school ready children grant funding and the board’s Web page, which provides links to a variety of resources for parents.

- ARC 4829B No action on amendments related to property tax. Rep. Huser was advised that there is no statutory provision for the appeal board to assess a fee.
- ARC 4833B No questions on proposed ch 235, which provides for rebate of sales tax paid at automobile racetrack facilities.

**ENVIRONMENTAL PROTECTION COMMISSION** Jim McGraw, Christine Paulson, Chad Daniel and Theresa Stiner represented the commission. Neila Seaman represented the Sierra Club.

- ARC 4823B No action on proposed ch 34, clean air interstate rule (CAIR). Discussion related to allocation of the costs of the program.
- ARC 4824B No action on proposed adoption of the clean air mercury rule (CAMR) to permanently cap and reduce mercury emissions from coal-fired power plants.  
Ms. Seaman commented that the Sierra Club opposes both CAIR and CAMR and that the trading provisions will not solve the pollution problem, especially in the case of mercury.
- ARC 4825B The proposed amendments to 144.3 add color cathode ray tubes to the list of household hazardous materials. Retailers selling products listed as household hazardous materials are required to purchase an annual permit for \$25. Ms. Stiner indicated that there are approximately 12,000 permitted retailers in Iowa; revenue from the permit fees is used for cleanup programs, educational materials and administrative costs. Rep. Eichhorn suggested that the department contact computer retailers to ensure that they are aware of the permit requirement.

**NATURAL RESOURCE COMMISSION** Gregory Jones and Lowell Joslin represented the commission.

- ARC 4826B No questions on ch 17, barge fleeting operations.

**SCHOOL BUDGET REVIEW COMMITTEE** Su McCurdy and Leland Tack represented the committee. Other interested parties included Larry Sigel of the Iowa Association of School Boards.

ARC 4858B The amendments to ch 6 require school districts to implement generally accepted accounting principles for budgeting purposes. Mr. Sigel expressed support for the amendments.

Among the other interested parties were Bill Schweitzer of the International Association of Plumbing Officials, Dennis Hogan of Sheet Metal Contractors of Iowa, Chuck Thomas of the Iowa Association of Building Officials, Bonnie Eggers on behalf of Laborers' Local 177, Bob Guenther and Rita Swearingen of the International Code Council, and Tom Gillespie of Plumbers and Steamfitters Local 33.

ARC 4772B Rep. Eichhorn announced that review of this rule, which adopts the international mechanical code, was added to the agenda at the request of parties seeking an opportunity to further discuss the uniform mechanical code. Mr. Coveyou pointed out that many of the comments received pertained to plumbing codes, which are under the authority of the department of public health, not the department of public safety. In response to other comments received, Mr. Crine indicated that both the uniform and the international mechanical codes offer the same level of public safety and distributed a comparison of the numbers of documents referenced in each.

Mr. Schweitzer asked that the department reconsider the decision to adopt the 2003 IMC, which includes references to the international electrical code, international plumbing code, international fuel gas code, and international fire code. After hearing from commenters who expressed support for the process and the department's adoption of the IMC and those who expressed opposition to the adoption, the committee took no action.
