

**MINUTES OF THE MARCH 2010 MEETING
OF THE
ADMINISTRATIVE RULES REVIEW COMMITTEE**

Date of meeting: The regular, statutory meeting of the Administrative Rules Review Committee (ARRC) was held on Monday, March 8, 2010, in Room 116, State Capitol, Des Moines, Iowa.

Members present: Representative Marcella Frevert, Chair, and Senator Wally Horn, Vice Chair; Senators Merlin Bartz, Thomas Courtney, John P. Kibbie, and James Seymour; Representatives David Heaton, Tyler Olson, Nathan Reichert, and Linda Upmeyer were present.

Also present: Joseph A. Royce and Michael Duster, Legal Counsel; Kathleen K. West, Administrative Code Editor; James Larew, Administrative Rules Coordinator; fiscal staff; caucus staff; and other interested parties.

Convened Rep. Frevert convened the meeting at 10 a.m.

Fiscal overview Deb Kozel presented the LSA fiscal report. Sen. Bartz requested a specific citation to the federal requirement that DHS allow an applicant 90 days of Medicaid eligibility while awaiting documentation of citizenship; and Rep. Heaton asked if the estimated fiscal impact of \$2.9 million was included in the department’s budget request.

TRANSPORTATION DEPARTMENT Mark Lowe represented the department.

ARC 8514B No action on amendments to implement the REAL ID driver’s license. Mr. Lowe reported that Iowa has been deemed to be in material compliance with the federal guidelines.

AGRICULTURE AND LAND STEWARDSHIP DEPARTMENT Margaret Thomson represented the department.

ARC 8523B Ms. Thomson reported that proposed 45.19 pertains to nonchemical pest control devices and provided an example of a device that plugs into an electrical outlet. Discussion pertained to potential dangers and adverse health effects of pest infestations and the authority of the department to regulate pesticides.

AGING, DEPARTMENT ON Lisa Burk represented the department.

ARC 8553B No questions on ch 15, elder abuse prevention initiative and dependent adult abuse mandatory reporter training. Ms. Burk outlined changes made as a result of public comment.

EDUCATION DEPARTMENT Carol Greta represented the department.

ARC 8509B Proposed amendments to ch 83 require multiple forms of evidence of student performance data in the evaluation of teachers. Ms. Greta offered to provide the committee with a link to the guidance provided to districts in regard to acceptable measures of student performance that may be used in addition to the ITBS and ITED. Ms. Greta agreed to provide information regarding how benchmarks for student performance are established. Rep. Frevert commented that she will contact Ms. Greta regarding a clarification for Item 1.

Special review Sen. Bartz requested a review of Iowa Code section 279.10, which establishes the start of the school year and authorizes the department to grant waivers of the date. Ms. Greta explained that districts must hold a public hearing and determine that the statutory start date would have a significant negative educational impact. Ms. Greta indicated that because the department does not have the resources to analyze each waiver request, the department grants almost all requests. There was discussion about whether it is appropriate for the committee to review a statute and about whether the waiver process is working as intended by the legislature. Sen. Bartz maintained that the department should define “significant negative educational impact” in its rules.

ENVIRONMENTAL PROTECTION COMMISSION Russ Tell, Wendy Hieb, Randy Clark and Theresa Stiner represented the department. The committee welcomed Commission Chair Charlotte Hubbell and Commissioner Susan Heathcoat, who were also in attendance.

ARC 8520B No questions on amendments to ch 64 concerning wastewater discharge from well drilling sites.

ARC 8517B Mr. Clark outlined the changes made to rule 65.10, hearing procedures regarding preliminary decisions on construction permit applications, as a result of public comment. Sen. Kibbie expressed appreciation for EPC's response to public concerns.

Committee questions pertained to special restricted licenses; contractor licenses; and costs for individual licenses, business licenses, continuing education and license renewals.

ARC 8530B Amendments to ch 29, plumbing and mechanical systems board—application, licensure, and examination, generated public comment in regard to geothermal licensure. Because of conflicting public comments regarding the geothermal license and because of the potential for clarifying legislation, the board opted to delete the geothermal provisions from this rule making. Ms. Dierenfeld commented that 2009 legislation required the board to adopt rules for licensure of geothermal system installers, and the association supported the proposed rules. Mr. Johnson indicated that the mechanical contractors association wants to ensure that geothermal system installers work in conjunction with, but not in competition with, other licensees.
