### COVID-19 — U.S. SMALL BUSINESS ADMINISTRATION PAYCHECK PROTECTION PROGRAM UPDATE — JUNE 4, 2020

**Paycheck Protection Program.** The U.S. Small Business Administration (SBA) [Paycheck Protection Program](#) (PPP) is a loan program designed in response to COVID-19 to provide a direct incentive for small businesses to keep their workers on the payroll. The federal Coronavirus Aid, Relief, and Economic Security (CARES) Act ([H.R. 748](#)) includes \$349.000 billion for the PPP. All small businesses with 500 or fewer employees are eligible. A PPP loan will be fully forgiven if the funds are used for payroll costs, interest on mortgages, rent, or utilities. At least 75.0% of the forgiven amount must be used for payroll. Loan payments will also be deferred for six months. No collateral or personal guarantees are required. Neither the government nor lenders will charge participating small businesses any fees.

Forgiveness is based on the employer maintaining or quickly rehiring employees and maintaining salary levels. Forgiveness will be reduced if full-time headcount declines or if salaries and wages decrease. This loan has a maturity of two years and an interest rate of 1.0%.

Lenders were permitted to begin processing loan applications on April 3, 2020, and the Program will be available through June 30, 2020.

Congress passed the [Paycheck Protection Program Flexibility Act](#) on June 3, 2020. The Bill modifies provisions related to the forgiveness of loans made to small businesses under the PPP. Specifically, the Bill establishes a minimum maturity of five years for a paycheck protection loan with a remaining balance after forgiveness.

The Bill extends from 8 weeks to 24 weeks the covered period during which a loan recipient may use such funds for certain expenses while remaining eligible for forgiveness.

The Bill raises the nonpayroll portion of a forgivable covered loan amount from the current 25.0% to 40.0%. The Bill extends the period in which an employer may rehire employees or eliminate a reduction in employment, salary, or wages that would otherwise reduce the forgivable amount of a paycheck protection loan. However, the forgivable amount must be determined without regard to a reduction in the number of employees if the recipient is (1) unable to rehire former employees and is unable to hire similarly qualified employees, or (2) unable to return to the same level of business activity due to compliance with federal requirements or guidance related to COVID-19.

Additionally, the Bill revises the deferral period for paycheck protection loans, allowing recipients to defer payments until they receive compensation for forgiven amounts. Recipients who do not apply for forgiveness have 10 months from the Program's expiration to begin making payments.

The Bill also eliminates a provision that makes a paycheck protection loan recipient who has such indebtedness forgiven ineligible to defer payroll tax payments.

According to [data](#) provided by the SBA, as of May 30, 2020, a total of approximately \$5.009 billion in loans has been issued to over 54,900 Iowa businesses in round two of the Program. Combined with round one, a total of approximately \$9.325 billion in loans has been issued to approximately 89,400 Iowa businesses.
