SF 250 — MAMMOGRAM REPORTS TO PATIENTS

Description: [Senate File 250](#) requires the Department of Public Health to adopt rules to require that facilities performing mammography services include information on breast tissue density in mammogram reports sent to all mammography patients. For patients categorized as having heterogeneously dense breasts or extremely dense breasts, or an equivalent determination by a nationally recognized density graduation system, the report to the patient must include information on dense breast tissue, the increased risk associated with dense breast tissue, and the effects of dense breast tissue on screening mammograms.

Enactment Date: The Act was approved by the General Assembly on April 4, 2017, and signed by the Governor on April 13, 2017. The Act was effective upon enactment.
