

Home Base Iowa Postsecondary Education Reporting

Fulfilling the requirement stipulated under Iowa Code, Section 261.9(1)(i), for private and independent colleges and universities; Iowa Code, Section 262.9, subsection I, for public universities; and Iowa Code, Section 260C.14, for community colleges.

Background

The Home Base Iowa (HBI) initiative is intended to help veterans make a smooth transition to civilian life in Iowa. Iowa's higher education community is supporting the effort by recruiting veterans, ensuring appropriate credit is awarded for military education and experience, and providing veteran support services. More details about the Home Base Iowa initiative can be found at:

<https://www.homebaseiowa.gov/>.

All public postsecondary institutions and Iowa Tuition Grant (ITG)-eligible private and independent colleges must participate in Home Base Iowa Postsecondary Education Reporting, per Iowa Code, Section 261.9(1)(i), for private and independent colleges and universities; Iowa Code, Section 262.9, Subsection I, for public universities; and Iowa Code, Section 260C.14, for community colleges.

Iowa Code, Sections 261.9(1)(i), 262.9, Subsection I, and 260C.14 were amended to include the following:

Beginning December 15, 2015, annually file a report with the governor and the general assembly providing information and statistics for the previous five academic years on the number of students who are veterans per year who received education credit for military education, training, and service, that number as a percentage of veterans known to be enrolled at the institution, the average number of credits received by students, and the average number of credits applied towards the award or completion of a course of instruction, postsecondary diploma, degree, or other evidences of distinction.

The HBI Education Working Group, which includes representatives from community colleges, public universities, and private and independent colleges, recommended a broader definition of veteran for reporting purposes. The recommended definition was proposed as a bill in the 2014 Iowa Legislative Session. The bill was adopted as an amendment to Iowa Code, Title I, Chapter 35, Section 1, by including the following:

For purposes of this subsection, "veteran" means a veteran as defined in section 35.1 (Appendix B) or member of the Reserve Forces or National Guard who have served at least one year of their commitment and are eligible for or exhausted federal veterans education benefits under 38 U.S.C. Chapters 30, 32, 33, or 36 or 10 U.S.C. Chapters 1606 or 1607.

With the above amendment adopted into law (Senate File 303), all public postsecondary institutions and ITG-eligible private and independent colleges were mandated to collect and report aggregate data prior to October 1, 2015, for five fiscal years (i.e., fiscal years 2011-2015) and subsequent annual reporting to follow.

Data Collection and Reporting

All Iowa public postsecondary institutions and ITG-eligible private and independent colleges were all sent guidance and were asked to use a data reporting template for the five-year period initially (2010 to 2015). For all subsequent years, they were asked to provide data pertaining to only the current fiscal year in the same format. The five questions were as follows:

1. What is the number of first-time ever enrolled (post-high school graduation) and verified **veteran undergraduate students** at your institution (this will be the main cohort)?
2. Continuing with main cohort from #1, what is the total **number of veteran undergraduate students who received transcribed credits** (by the end of first-term ever enrolled, post-high school) for military training, service, or education (this becomes the sub-cohort)?
3. Using sub-cohort from #2, what is the **average number of total credits** applied to the student's first-time ever enrolled for military training, service, or experience?
4. What is the average number of **military credits applied toward the first intended major** of an academic credential? Applied credits are defined as credits that meet major/degree program requirements.
5. What is the **total number of veterans** served through credit enrollment* in fiscal year (do not include veteran spouse or family members). This may include additional students not counted in the main cohort?

*Some institutions have non-credit enrollment.

It should be noted that measuring military credits against a first intended major/degree may not be the best measurement when considering both community colleges and four-year colleges and universities because each provide students with a different focus and intent when applying military credits. Often times, a student may enter with a particular degree intent, then change their focus after a few semesters, thereby changing how military credits are applied toward a degree. Further, veterans enter colleges at different times in their lives, depending on the length of their service in the military, so their intents may have changed.

The HBI Education Working Group discussed these and other issues before arriving at the above five questions in order to provide institutions a common framework and template for collecting and reporting data on veteran students. Appendix A reports, in the aggregate by all Iowa public postsecondary institutions and ITG-eligible private and independent colleges, the number of veterans for each of the above questions for fiscal 2016 to fiscal year 2020.

The following tables summarize the data by institution type for each of the above five questions, and for the number of veterans who received credit for military education, training, and service, expressed as a percentage of veterans known to be enrolled at the institution.
