Letter of Transmittal (unaudited)

August 31, 2022

Dear fellow IPAIT Participants,

The Iowa Public Agency Investment Trust (“IPAIT”) is pleased to submit the Diversified Portfolio Annual Comprehensive Financial Report for the Fiscal Year ended June 30, 2022.

IPAIT is a common law trust established under Iowa law pursuant to Chapter 28E, Iowa Code (1987), as amended, which authorizes Iowa public agencies to jointly invest monies pursuant to a joint investment agreement following the requirements of Iowa Code 12B.10. IPAIT was established by the adoption of a Joint Powers Agreement and Declaration of Trust as of October 1, 1987, and commenced operations on November 13, 1987. The Joint Powers Agreement and Declaration of Trust was amended September 1, 1988, May 1, 1993, September 1, 2005, and again on September 1, 2017. The objective of the portfolio is to maintain a high degree of liquidity and safety of principal through investment in short-term securities as permitted for Iowa public agencies under Iowa law.

IPAIT enables eligible Iowa public agencies to effectively invest their available operating and reserve funds in a competitive rate environment that focuses on safety of principal and liquidity. The Diversified Portfolio follows money market mutual fund investment parameters per GASB 79 and has maintained a \$1 per unit net asset value since inception.

IPAIT is a ‘AAAm’ rated Fund and obtains an annual rating from S&P Global Ratings (“S&P”). According to S&P, a fund rated ‘AAAm’ demonstrates extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit risk. ‘AAAm’ is the highest principal stability fund rating assigned by S&P. This is accomplished through conservative investment practices and strict internal controls. The portfolio is monitored on a weekly basis by S&P.

About the Report

While IPAIT's financial statements and the related financial data contained in this report have been prepared in conformity with U.S. generally accepted accounting principles and have been audited by IPAIT's Independent Auditor, Eide Bailly LLP, the ultimate accuracy and validity of this information is the responsibility of IPAIT's Board of Trustees. To carry out this responsibility, the Board of Trustees requires its providers to maintain financial policies, procedures, accounting systems, and internal controls which the Board believes provide reasonable, but not absolute, assurance that accurate financial records are maintained, and investment assets are safeguarded. The cost of a control should not exceed the benefits to be derived; the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

In addition, the three ex-officio non-voting Trustees meet with the Diversified Portfolio service providers and legal counsel to review all aspects of IPAIT performance each month. The Board of Trustees meets quarterly to similarly review Diversified Portfolio performance and compliance. In addition, the IPAIT Board of Trustees regularly subjects IPAIT to a comprehensive review of all services and costs of operation.

In the Board's opinion, IPAIT's providers' internal controls are adequate to ensure that the financial information in this report presents fairly the IPAIT Diversified Portfolio operations and financial condition.

Investment Safeguards

The Diversified Portfolio continues to be focused on the investment objectives as stated in the IPAIT Investment Policy. These goals, in order of priority, are safety of invested principal, maintenance of liquidity, and maximum yield. Within these objectives, the Diversified Portfolio strives to provide participants with the best available rate of return for legally authorized investments. All security settlements within the Diversified Portfolio are settled on a delivery-versus-payment (DVP) basis. DVP settlements greatly reduce the possibility of inappropriate transmission of funds or securities.

Letter of Transmittal (unaudited)

Statements of Changes in Fiduciary Net Position

For the fiscal year ending June 30, 2022 (FY 22) and the fiscal year ending June 30, 2021 (FY 21) total interest earned, total operating expenses, and net investment income were as follows:

	<u>Interest Earned</u>	<u>Expenses</u>	<u>Net Investment Income</u>
FY 22	\$ 1,389,089	\$ 826,380	\$ 562,709
FY 21	\$ 737,773	\$ 663,966	\$ 73,807

The increase in year-over-year interest earned and net investment income is attributed to higher portfolio yields in the 3rd quarter as well as an increase in fund balances in FY 22. The increase in expenses was due to the reduction of fees waived by service providers in response to the higher portfolio yields in FY 22.

IPAIT operates pursuant to Service Provider agreements for all aspects of operation. Every agreement specifies the fees to be charged for each component of IPAIT services based on average daily net position. Average net positions were \$584,418,029 in FY 22, up from \$482,447,398 in the previous fiscal year. More financial analysis and detailed information is included in the Management Discussion and Analysis section of this report.

Our Economy

Interest rates have risen sharply over the past year with the increase in the first 6 months of calendar year 2022 being particularly swift. The Federal Reserve shifted tones significantly following their November 2021 meeting due to a concern around persistent inflation as well as geopolitical and pandemic risks. The Fed began raising rates with a 25 basis point increase at their March meeting. They then accelerated their increases with 50 and 75 basis point moves. The historical move in rates has hurt global returns across virtually all asset classes. U.S. Treasury yields for securities maturing one year or less, which are heavily influenced by Federal Reserve policy, increased by 1.50% to 1.75% during the period. There is more detail on the economic environment relative to the IPAIT portfolio in the Investment Commentary from our registered investment adviser found later in this report.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to IPAIT for its comprehensive annual financial report for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

Summary

On behalf of the Board of Trustees, sponsoring associations and service providers, we thank you for your continued support of IPAIT. We encourage you to contact us with comments and suggestions regarding any improvements to the operation of IPAIT. Your involvement in IPAIT is essential in its ability to provide a competitive investment alternative and ongoing program opportunities for association members.

As we begin Fiscal Year 2022-2023, IPAIT will continue to be guided by its objectives of safety of principal, liquidity, and competitive return. In addition, IPAIT will be an excellent resource as a user-friendly investment alternative and also an educational resource. The IPAIT.org website provides monthly updates as well as access to the secure participant recordkeeping system. We collectively pledge to continue working together to provide a viable investment option for every participant.

Executive Director/CEO

Independent Auditor's Report

To the Trustees and Participants
Iowa Public Agency Investment Trust

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Iowa Public Agency Investment Trust's Diversified Portfolio (the Fund), which comprise the statements of fiduciary net position and the schedule of investments, as of June 30, 2022 and 2021, and the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the Fund, as of June 30, 2022 and 2021, and the respective changes in financial position, for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

What inspires you, inspires us. | eidebailly.com

24 2nd Ave. S.W. | P.O. Box 430 | Aberdeen, SD 57402-0430 | T 605.225.8783 | F 605.225.0508 | EOE

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS *and Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Fund's basic financial statements. The supplementary schedule of financial highlights is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of financial highlights is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, investment section, and statistical section, but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 1, 2022, on our consideration of the Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Fund's internal control over financial reporting and compliance.

The image shows a handwritten signature in black ink that reads "Eide Sully LLP". The signature is written in a cursive, flowing style.

Aberdeen, South Dakota

Management Discussion and Analysis

This section of the Iowa Public Agency Investment Trust (IPAIT) Diversified Portfolio's Annual Comprehensive Financial Report presents Management's Discussion and Analysis of the financial position and results of operations for the fiscal years ended June 30, 2022 (FY 22) and 2021 (FY 21). This information is being presented to provide additional information regarding the activities of IPAIT's Diversified Portfolio, pursuant to the requirements of Governmental Accounting Standards Board. This discussion and analysis should be read in conjunction with the Independent Auditors' Report, Eide Bailly LLP, the Financial Statements, and the accompanying notes.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis provides an introduction to and overview of the basic financial statements of IPAIT's Diversified Portfolio. The following components comprise the financial statements:

1) Statements of Fiduciary Net Position, 2) Statements of Changes in Fiduciary Net Position, and 3) Notes to Financial Statements.

- The Statements of Fiduciary Net Position show the financial position (assets and liabilities) of the portfolio as of the date of the two most recent fiscal year ends.
- The Statements of Changes in Fiduciary Net Position display the results of operations (income and expenses), additions (net investment income, unit sales, and reinvestments) and deductions (dividends and unit redemptions) of the portfolio for the two most recent fiscal years.
- The Notes to Financial Statements describe significant accounting policies and disclose summary security transaction amounts and fund expenses of the portfolio.

CONDENSED FINANCIAL INFORMATION AND FINANCIAL ANALYSIS

Year-over-year changes in most financial statement amounts reported in IPAIT's Diversified Portfolio are most significantly impacted by the level of average net position (which fluctuates based on the overall levels of pool participant/unitholder invested balances). The pool is the portfolio. Additionally, changes in the short-term interest rate environment (which follows the general trend established by monetary policy set by the Federal Reserve) contribute to year-over-year variances in the amount of investment income earned by the portfolio. Over the twelve months ended June 30, 2022, The Federal Reserve's Federal Open Market Committee increased the Fed Funds rate three times – increased 0.25% on March 17, 2022, increased 0.50% on May 5, 2022 and increased 0.75% on June 16, 2022, leaving the rate at 1.50% as of June 30, 2022. Over the twelve months ended June 30, 2021, the Federal Reserve's Federal Open Market Committee made no changes to the Fed Funds rate which had remained at 0.25 percent since March 16, 2020.

Condensed financial information and variance explanations for FY 22, as compared to FY 21, follow.

Net Position	June 30, 2022	Percent Change	June 30, 2021
Total investments	\$ 531,974,935	9%	\$ 486,809,844
Other assets	329,393	-11%	368,954
	<u>532,304,328</u>	9%	<u>487,178,798</u>
Total liabilities	(127,043)	-99%	(8,768,025)
Net position held in trust for pool participants	<u>\$ 532,177,285</u>	11%	<u>\$ 478,410,773</u>
Average Net Position	\$ 584,418,029	21%	\$ 482,447,398

Management Discussion and Analysis (cont.)

Total investments increased 9% comparing June 30, 2022, and June 30, 2021, amounts due to higher participant investments in the Diversified Portfolio at the end of FY 22. Other assets were 11% lower at the end of FY 22 due to decreased interest receivables. There were no payables for investment purchases at the end of FY 22, resulting in a decrease in total liabilities when compared to June 30, 2021.

Change in Net Position for the years ended	June 30, 2022	Percent Change	June 30, 2021
Investment income	\$ 1,389,089	88%	\$ 737,773
Net expenses	(826,380)	24%	(663,966)
Dividends to unitholders from net investment income	(562,709)	662%	(73,807)
Net increase in assets derived from unit transactions	53,766,512	218%	16,930,073
 Net position held in trust for pool participants at the beginning of the period	 <u>478,410,773</u>	 4%	 <u>461,480,700</u>
 Net position held in trust for pool participants at the end of the period	 <u>\$ 532,177,285</u>	 11%	 <u>\$ 478,410,773</u>

During the 12-month period in FY 22, the Fed Funds target rate increased from 0.25% to 1.50%, resulting in increases in investment income of 88% and dividends to unitholders of 662%. During the 12-month period in FY 21, the Fed Funds target rate did not change. It remained at 0.25% throughout the period. The Fed Funds target rate is an economic indicator for short-term investments which significantly impacts the investment income earned by the Diversified Portfolio. Expenses are derived based on the net position of the Diversified Portfolio. The net position increased 11% due to higher participant investments in the Diversified Portfolio and net expenses increased 24% due to the higher average net position of the fund during FY 22.

Condensed financial information and variance explanations for FY 21, as compared to FY 20, follow.

Net Position	June 30, 2021	Percent Change	June 30, 2020
Total investments	\$ 486,809,844	6%	\$ 461,370,233
Other assets	368,954	74%	211,762
	<u>487,178,798</u>	6%	<u>461,581,995</u>
Total liabilities	(8,768,025)	8556%	(101,295)
Net position held in trust for pool participants	<u>\$ 478,410,773</u>	4%	<u>\$ 461,480,700</u>
 Average Net Position	 \$ 482,447,398	 1%	 \$ 477,412,215

Management Discussion and Analysis (cont.)

Total investments increased 6% comparing June 30, 2021, and June 30, 2020 amounts due to higher participant investments in the Diversified Portfolio at the end of FY 21. Other assets were 74% higher at the end of FY 21 due to increased interest receivables. The increase in total liabilities at the end of FY 21 was due to payables for investment purchases that had not settled as of June 30, 2021.

Change in Net Position for the years ended	June 30, 2021	Percent Change	June 30, 2020
Investment income	\$ 737,773	-89%	\$ 6,675,406
Net expenses	(663,966)	-56%	(1,500,118)
Dividends to unitholders from net investment income	(73,807)	-99%	(5,175,288)
Net increase in assets derived from unit transactions	16,930,073	-37%	26,853,243
 Net position held in trust for pool participants at the beginning of the period	 <u>461,480,700</u>	 6%	 <u>434,627,457</u>
 Net position held in trust for pool participants at the end of the period	 <u>\$ 478,410,773</u>	 4%	 <u>\$ 461,480,700</u>

During the 12-month periods in FY 21 and FY 20, the Fed Funds target rate decreased from 2.25% to 0.25% resulting in decreases in investment income of 89% and dividends to unitholders of 99%. The Fed Funds target rate is an economic indicator for short-term investments which significantly impacts the investment income earned by the Diversified Portfolio. The Fed Funds target rate has remained at 0.25% since March 16, 2020. Expenses are derived based on the net position of the Diversified Portfolio. Even though the net position increased 4%, net expenses decreased 56% during FY 21 compared to FY 20 due to service providers and sponsors waiving a significant portion of their fees.

Notes to Financial Statements

Diversified Portfolio Years ended June 30, 2022 and 2021

(1) Organization

Iowa Public Agency Investment Trust (the “Trust”) is a common law trust established under Iowa law pursuant to Chapter 28E and Sections 331.555 and 384.21, Iowa Code (1987), as amended, which authorizes Iowa public agencies to jointly invest monies pursuant to a joint investment agreement. IPAIT is an S&P Global Ratings ‘AAA’ rated money market fund pursuant to the requirements of Iowa Code 12B.10. IPAIT was established by the adoption of a Joint Powers Agreement and Declaration of Trust as of October 1, 1987, and commenced operations on November 13, 1987. The Joint Powers Agreement and Declaration of Trust was amended on August 1, 1988, and May 1, 1993, and September 1, 2005; and further amended as of September 1, 2017. The accompanying financial statements include activities of the Diversified Portfolio. The objective of the Diversified Portfolio is to maintain a high degree of liquidity and safety of principal through investment in short-term securities as permitted for Iowa public agencies under Iowa law. U.S. Bank Institutional Trust & Custody (US Bank) serves as the Custodian. Companies collectively known as PMA Financial Network (PMA) serve as the Administrator, Investment Adviser and Marketer. PMA Financial Network, LLC serves as the Administrator, PMA Asset Management, LLC serves as the Investment Adviser and PMA Securities, LLC serves as the Marketer.

In 2010, the Board of Trustees approved a resolution ceasing the investment operations of the Direct Government Obligation Portfolio and transferring assets to the Diversified Portfolio. The transfer was facilitated through SEC Rule 17a-7 at fair value. The Direct Government Obligation Portfolio remains available for future investment if IPAIT participants should request it in the future.

(2) Significant Accounting Policies

The significant accounting policies followed by IPAIT are as follows:

Basis of Accounting

An investment trust fund, which is a type of fiduciary fund, is used to account for the investment pool and the accounts of the Trust. The accompanying statements are prepared based on the flow of economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the accounting period in which they are earned and realized. Expenses are recognized in the period incurred. Fiduciary net position is reported as net position held in the Trust for pool participants.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increase (decrease) in net position resulting from operations during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

The framework for measuring fair value establishes a fair value hierarchy that prioritizes the inputs used in the valuation techniques to measure fair value. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. These inputs are summarized into three broad levels as described below:

Level 1 – quoted prices in active markets for identical securities;

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, and evaluated quotations obtained from pricing services); or

Level 3 – significant unobservable inputs (including IPAIT’s own assumptions in determining the fair value of investments).

Notes to Financial Statements (cont.)

Diversified Portfolio Years ended June 30, 2022 and 2021

There are no investments in the Diversified Portfolio measured at fair value on a recurring or non-recurring basis since all investments are carried at amortized cost. Money market mutual funds are considered Level 1 and all remaining investments are considered Level 2.

Investments in Securities

The Diversified Portfolio measures its investments at amortized cost on the Statement of Fiduciary Net Position pursuant to criteria established in Governmental Accounting Standards Board (GASB) Statement No. 79, *Certain External Investment Pools and Pool Participants*. The criteria in GASB Statement No. 79 specifies that an external investment pool must transact with their participants at a stable net asset value per share and meet requirements for portfolio maturity, portfolio quality, portfolio diversification, portfolio liquidity, and shadow pricing. The Diversified Portfolio meets all of the necessary criteria in GASB Statement No. 79 to measure all of the investments in the Diversified Portfolio at amortized cost, which approximates fair value. This involves valuing a portfolio security at its original cost on the date of purchase, and thereafter amortizing any premium or discount on the interest method. The net asset value of the Diversified Portfolio is calculated daily. Investment policies are followed to maintain a constant net asset value of \$1.00 per unit for the portfolio.

Security transactions are accounted for on the trade date. Interest income, including the accretion of discount and amortization of premium, is accrued daily as earned. Purchases of portfolio securities for the Diversified Portfolio aggregated \$40,871,168,192 and \$18,650,230,050 for the years ended June 30, 2022 and 2021, respectively. Proceeds from the maturity and sale of securities for the Diversified Portfolio aggregated \$40,825,210,231 and \$18,624,161,086 for the years ended June 30, 2022 and 2021, respectively.

The Diversified Portfolio is authorized by investment policy and statute to invest public funds in obligations of the U.S. government, its agencies and instrumentalities; certificates of deposit and other evidences of deposit at federally insured Iowa depository institutions approved and secured pursuant to Chapter 12B of the Code of Iowa; federally insured depository institutions through the Insured Cash Sweep (ICS) service and the Demand Deposit Marketplace Program (DDM) regardless of location pursuant to Chapter 12C of the Code of Iowa; and repurchase agreements, provided that the underlying collateral consists of obligations of the U.S. government, its agencies and instrumentalities and that the Diversified Portfolio's custodian takes delivery of the collateral either directly or through an authorized custodian.

In connection with transactions in repurchase agreements, it is the Diversified Portfolio's policy that the value of the underlying collateral securities exceeds the principal amount of the repurchase transaction, including accrued interest at all times. If the seller were to default on its repurchase obligation and the value of the collateral declines, realization of the collateral by the Diversified Portfolio may be delayed or limited. At June 30, 2022 and 2021, the securities purchased under repurchase agreements to resell were collateralized by U.S. Government Agency and U.S. Treasury Securities with a fair value totaling \$303,450,008 and \$47,634,000, respectively with maturities ranging from December 29, 2022 to May 20, 2052, and August 1, 2033 to July 1, 2051, respectively.

ICS and DDM are networks of banks offering demand deposit accounts below the standard FDIC insurance maximum so that principal and interest are eligible for full FDIC insurance. As of June 30, 2022, the Diversified Portfolio held \$1,216 and \$30,049,814 in the ICS and DDM program, respectively. As of June 30, 2021, the Diversified Portfolio held \$86,848,030 in the ICS program.

Income Tax Status

The Trust is exempt from both state and federal incomes taxes pursuant to Section 115 of the Internal Revenue Code.

Distributions to Participants

Dividends declared and accrued daily from net investment income and net realized gains, if any, are paid in cash or reinvested in the Trust based upon each participant's pro rata participation in the pool.

Notes to Financial Statements (cont.)

Diversified Portfolio Years ended June 30, 2022 and 2021

Investment and Redemption Provisions

The Diversified Portfolio allows participants to purchase and redeem units on a daily basis, subject to limitations whereby liquidity of the fund may require redemptions to be delayed until applicable investments have matured or are liquidated.

(3) Fees and Expenses

PMA Financial Network receives 0.190% of the average daily net asset value up to \$150 million, 0.160% from \$150 to \$250 million, and 0.130% exceeding \$250 million for investment adviser and administrative fees. For the years ended June 30, 2022 and 2021, the Diversified Portfolio paid \$397,979 and \$305,345, respectively, to PMA for services provided net of waivers. For the years ended June 30, 2022 and 2021, PMA voluntarily waived investment adviser and administrative fees of \$481,765 and \$441,836, respectively. Future waivers may not be required and are determined on market yields and other market considerations.

PMA Financial Network receives 0.060 percent of the average daily net asset value of the portfolio for marketing fees. For the years ended June 30, 2022 and 2021, the Diversified Portfolio paid \$158,464 and \$118,081, respectively, to PMA for services provided net of waivers. During the years ended June 30, 2022 and 2021, PMA voluntarily waived marketing fees of \$192,187 and \$171,388, respectively. Future waivers may not be required and are determined on market yields and other market considerations.

US Bank receives approximately 0.0033% on average monthly fair value of the portfolio plus transaction fees for custody services. For the years ended June 30, 2022 and 2021, the Diversified Portfolio paid \$28,058 and \$9,720, respectively, to US Bank for services provided.

Under a distribution plan, the public agency associations collectively receive an annual fee of 0.075% of the average daily net asset value for sponsorship fees. For the years ended June 30, 2022 and 2021, the Diversified Portfolio paid \$86,300 and \$66,945 to the Iowa League of Cities, \$90,638 and \$62,286 to the Iowa State Association of Counties, and \$21,141 and \$18,369 to the Iowa Association of Municipal Utilities, respectively, net of waivers. During the years ended June 30, 2022 and 2021, public agency associations voluntarily waived a portion of their fees. The Iowa League of Cities waived \$106,400 and \$95,540, the Iowa State Association of Counties waived \$107,718 and \$92,259 and the Iowa Association of Municipal Utilities waived 26,116 and \$26,437, respectively. Future waivers may not be required and are determined on market yields and other market considerations.

In addition, the Trust is responsible for other operating expenses incurred directly by the Trust. The estimated annual other operating expenses are accrued and have averaged between 0.01% and 0.02% of the average daily net asset value and totaled \$43,800 and \$83,220 for the years ended June 30, 2022 and 2021, respectively. The daily accrued expenses are paid from the Diversified Portfolio to the IPAIT Administrative Fund each month. The IPAIT Administrative Fund pays the direct expenses of IPAIT such as audit, insurance, legal, ratings fees, and other miscellaneous items. The IPAIT Administrative Fund also holds Board designated reserve funds for specific purposes. The IPAIT Administrative Fund is governed by the IPAIT Board of Trustees who approves the annual budget and reviews and approves the transaction activity and balances at each quarterly meeting.

All fees are computed daily and paid monthly. Fees waived in prior periods cannot be recovered in future periods.

(4) Investments

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Trust limits the exposure to credit risk in the Diversified Portfolio by investing only in obligations issued or guaranteed by the U.S. Government and collateralized perfected repurchase agreements. The following table provides information on the credit ratings of the Diversified Portfolio investments as of June 30, 2022 and 2021:

Security Type	Credit Rating		June 30, 2022	
	Moody's	S&P	Carrying Value	Percent of Investments
U.S. Government agencies	Aaa	AA+	\$ 107,944,493	20.29%
U.S. Treasury notes and bills *	N/A	N/A	87,863,054	16.52
Repurchase agreements (underlying securities)				
U.S. Treasury notes and bills *	N/A	N/A	203,595,126	38.27
U.S. Government agencies	Aaa	AA+	93,904,874	17.65
Money market mutual funds	Aaa-mf	AAAm	8,571,679	1.61
FDIC insured bank products	Not rated	Not rated	30,095,709	5.66
			<u>\$ 531,974,935</u>	<u>100.00%</u>

Security Type	Credit Rating		June 30, 2021	
	Moody's	S&P	Carrying Value	Percent of Investments
U.S. Government agencies	Aaa	AA+	\$ 115,628,453	23.75%
U.S. Treasury notes and bills *	N/A	N/A	90,276,206	18.54
Repurchase agreements (underlying securities)				
U.S. Government agencies	A1	A+	46,700,000	9.59
Money market mutual funds	Aaa-mf	AAAm	147,312,481	30.27
FDIC insured bank products	Not rated	Not rated	86,892,704	17.85
			<u>\$ 486,809,844</u>	<u>100.00%</u>

* U.S. Treasury issues are explicitly guaranteed by the United States government and are not considered to have credit risk.

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Trust will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Repurchase agreements are required to be collateralized by at least 102% of their value, and the collateral is held in the name of the Diversified Portfolio. The Diversified Portfolio or its agent does not release cash or securities until the counterparty delivers its side of the transaction.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Management attempts to limit the Diversified Portfolio's exposure to interest rate risk and believes this is addressed by the fact that securities are limited by S&P Global guidelines as well as by investment policy to investments of high quality with durations not to exceed 397 days. Significant changes in market interest rates are not expected to present long-term risks to the Diversified Portfolio.

The following table provides information on the weighted average maturities for various asset types of the Diversified Portfolio as of June 30, 2022 and 2021:

Security Type	June 30, 2022		June 30, 2021	
	Carrying Value	WAM (Days)	Carrying Value	WAM (Days)
U.S. Government agencies	\$ 107,944,493	105	\$ 115,628,453	107
U.S. Treasury notes and bills	87,863,054	74	90,276,206	110
Repurchase agreements	297,500,000	1	46,700,000	1
Money market mutual funds	8,571,679	1	147,312,481	1

	<u>\$ 531,974,935</u>	<u>34</u>	<u>\$ 486,809,844</u>	<u>46</u>

Notes to Financial Statements (cont.)

Diversified Portfolio **Years ended June 30, 2022 and 2021**

Concentration credit risk is the risk of loss attributed to the magnitude of the Trust's investments in a single issuer. Management does not believe the Diversified Portfolio has concentration risk. Securities are limited by investment policy to obligations issued or guaranteed by the U.S. Government. The Diversified Portfolio investments at June 30, 2022, included 20.3% in U.S. Government agencies, 16.5% in U.S. Treasury notes, 55.9% in repurchase agreements collateralized by U.S. Government Agency and U.S. Treasury securities, 1.6% in money market mutual funds, and 5.7% in bank products fully insured by the Federal Deposit Insurance Corporation (FDIC).

Foreign currency risk is the risk that changes in exchange rates will adversely affect the value of an investment or deposit. The Diversified Portfolio does not hold interests in foreign currency of interests valued in foreign currency.

(5) Risk Management

The Trust is exposed to various risks of loss related to torts; theft of, damage to, and destructions of assets; errors and omissions; and natural disasters.

The Trust maintains insurance coverage for fidelity and errors and omissions exposures. There have been no claims or settlements under the Trust insurance coverage since its organization in 1987.

(6) Subsequent Events

IPAIT has evaluated the effects of events that occurred subsequent to June 30, 2022, and there have been no material events that would require recognition in the financial statements or disclosure in the notes to the financial statements.

* Total return is calculated by taking the ending value of an initial \$1,000 investment including monthly reinvested dividends, minus the initial investment, divided by the initial \$1,000 investment.

Fund Facts Summary

Diversified Portfolio Facts as of June 30, 2022 (unaudited)

Investment Strategy/Goals: To provide a safe, liquid, effective investment alternative for the operating funds, reserve funds, and bond proceeds for Iowa's municipalities, counties, municipal utilities, and other eligible public agencies by jointly investing participant funds in a professionally managed portfolio of short-term, high-quality, legally authorized, marketable securities.

Date of Inception: November 13, 1987

Total Net Position: \$532 million

Benchmarks: Money Market Index, Iowa Code Chapter 74A 32-89 day Public Funds Rates, and Iowa Code Chapter 74A 90-179 day Public Funds Rates.

Performance Objective: To provide the highest level of current income from investment in a portfolio of U.S. government and agency securities, certificates of deposit in Iowa financial institutions, and other authorized securities collateralized by U.S. government and agency securities as is consistent with, in order of priority, preservation of principal and provision of necessary liquidity.

Investment Adviser: PMA Asset Management, LLC.

Management Fees: Sliding scale from nine basis points (0.09%) to five and one-half basis points (0.055%)

Total Expense Ratio: Sliding scale from twelve basis points (0.12%) to thirty-three basis points (0.33%)

Actual Expense Ratio FYE 2022: The actual fee ratio charged during FYE 2022 was fourteen basis points (0.14%).

Diversified Portfolio (unaudited)

INTRODUCTION

The IPAIT Diversified Portfolio (the “Fund”) is a short-term investment pool of high-quality money market instruments. In 2016, the Fund began obtaining an annual rating from S&P Global Ratings (“S&P”) and has maintained a rating of ‘AAAm’ since that time.

The Fund is made up of a professionally managed portfolio of FDIC-insured demand deposits, SEC registered government money market mutual funds, U.S. government and federal agency securities, and fully collateralized repurchase agreements, the latter collateralized by U.S. government and federal agency securities. The Fund is typically used for the investment of public funds subject to the Iowa public funds statutory provisions invested by a participant unless other participant-specific investment restrictions exist.

HISTORICAL PORTFOLIO CASH FLOW (expressed in millions)

IPAIT DIVERSIFIED PORTFOLIO

The Fund is managed by PMA Asset Management, LLC, a registered investment adviser. Aggregate cash flows are monitored daily and compared to respective Fund cash flow patterns of previous periods. Fund cash flow patterns throughout the fiscal period, as compared to previous years, have traditionally been repetitive. Over thirty years of operating history create a very helpful tool to gauge necessary pool liquidity needs.

The investment objective of the Fund is to provide as high a level of current income as is consistent with preservation of invested principal and provision of adequate liquidity to meet participants’ daily cash flow needs. As a general policy, all purchased securities will be held until they mature. Summaries of all security trades for the Fund are provided quarterly to the IPAIT Board of Trustees for review.

AMORTIZED COST VS. FAIR VALUE PER SHARE JULY 1, 2019 - JUNE 30, 2022 IPAIT DIVERSIFIED PORTFOLIO

The Fund accrues interest income daily and pays accrued income monthly to participant accounts. Interest is paid on the last business day of the month. Daily income amounts and investment returns are calculated using the interest method. Under this method, a security is initially valued at cost on the date of purchase and, thereafter, any premium or discount is amortized using the interest method.

The IPAIT Adviser values the Fund’s portfolio weekly at current fair value, based upon actual market quotations. The Fund’s current fair valuation is compared to that Fund’s current amortized cost basis. IPAIT uses the Amortized Cost Method of Valuation along with IPAIT’s internal controls and procedures; any deviation in net asset value based upon available market quotations from the Fund’s \$1.00 amortized cost per unit is carefully monitored. Deviations may never exceed 0.5 percent. Illustrated above is the amortized cost versus fair value per unit comparison for the past three fiscal years

Diversified Portfolio (unaudited) (cont.)

IPAIT DIVERSIFIED PORTFOLIO VS. IOWA CHAPTER 74A (90-179 & 32-89 DAY) & MONEY MARKET BENCHMARK US GOVERNMENT & AGENCY JULY 2021 - JUNE 2022

The Fund's investment performance is regularly compared to three established benchmarks: the Money Market Benchmark average rate for money market funds investing in U.S. government securities and the Iowa Code Chapter 74A rate for 32-89 and 90-179 day certificates of deposit issued by Iowa financial institutions for public funds in the state.

The Iowa Code Chapter 74A rates are distributed monthly by the state Treasurer's office for various investment periods and are intended to be the minimum rates at which Iowa financial institutions can accept public funds for timed deposits. While a public body must commit funds for minimum periods of time to access Chapter 74A rates, IPAIT may offer rates at or above the Chapter 74A benchmarks with complete daily liquidity.

RISK PROFILE

The Fund is low in risk profile. Portfolio investments are limited to:

1. No single portfolio investment may exceed the 397 days to maturity as outlined in GASB Statement No. 79.
2. The weighted average maturity (WAM) of the portfolio may never exceed 60 days.

In addition to the above investment maturity restrictions, the Fund limits itself to U.S. government and federal agency securities, perfected repurchase agreements collateralized by U.S. government and federal agency securities, Iowa financial institution certificates of deposit and other evidences of deposit, and shares of an SEC-registered government money market fund. This combination of those average maturities and high-quality credit instruments provides eligible Iowa public fund investors with a safe, effective investment alternative.

**MATURITY ANALYSIS AS OF JUNE 30, 2022
IPAIT DIVERSIFIED PORTFOLIO**

As noted previously, the Fund carefully limits itself to high credit-quality securities. In addition, IPAIT monitors a broad array of economic indicators as well as activities of the Federal Open Market Committee to be able to position the Fund's WAM to take advantage of projected interest rate environments.

**DISTRIBUTION BY SECURITY TYPE AS OF JUNE 30, 2022
(AMORTIZED COST AND FAIR VALUE)**

See the schedule of investments in the financial statements section of the report for a complete list of the portfolio holdings.

IPAIT DIVERSIFIED PORTFOLIO

It is important to note that portfolio liquidity needs for IPAIT must control evaluation of alternative portfolio management opportunities at all times. For example, if historical cash flow analysis indicates that participants will need to withdraw funds, material extension of the Fund's portfolio is not a viable alternative.

Fund Expenses (unaudited)

It is important for you to understand the impact of costs on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, including management fees, distribution and service fees, and other fund expenses. Expenses, which are deducted from a fund's investment income, directly reduce the investment return of the fund.

A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs (in dollars) of investing in your fund and compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period and held for the entire period from January 1, 2022 to June 30, 2022. The table illustrates your fund's costs in two ways:

1. Based on actual fund return. This section helps you to estimate the actual expenses that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return, and the third column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

2. Based on hypothetical 5 % return. This section is intended to help you compare your fund's costs with those of other mutual funds. It assumes that the fund had a return of 5% before expenses during the period shown, but that the expense ratio is unchanged. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to calculate expenses based on a 5% return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Your fund does not carry a "sales load" or transaction fee. The calculations assume no shares were bought or sold during the period. Your actual costs may have been higher or lower, depending on the amount of your investment and timing of any purchases or redemptions.

You can find more information about the fund's expenses, including annual expense ratios for the past five years, in the Financial Highlights section of this report. For additional information on operating expenses and other shareholder costs, please refer to the Information Statement.

Example	Beginning Account Value 1/01/2022	Ending Account Value 6/30/2022	Expenses Paid During Period 1/01/22 to 6/30/22	Annualized Expense Ratio
<i>Based on Actual Fund Return</i>				
IPAIT Diversified Portfolio	\$1,000.00	\$1,000.99	\$1.01	0.20%
<i>Based on Hypothetical 5% Return</i>				
IPAIT Diversified Portfolio	\$1,000.00	\$1,023.78	\$1.01	0.20%

Expenses are equal to the fund's annualized expense ratio listed in the table above, multiplied by the average account value over the period, multiplied by 181, the number of days in the most recent fiscal half-year, divided by 365, to reflect the one-half year period.

Fees and Expenses (unaudited)

FEES AND EXPENSES (Unaudited)

All fees are calculated by basis points per net assets.

Entity	Fee Type	Fee
PMA Asset Management, LLC	Adviser	0.090% up to \$150MM; 0.070% on \$150 - \$250MM; 0.055% on assets exceeding \$250MM

U.S. Bank (2)	Custody	0.0033%
Administration Fund	Other fees & expenses	0.010% estimate (includes fixed & variable fees)

(1) Includes Iowa League of Cities, Iowa State Association of Counties, and Iowa Association of Municipal Utilities

(2) Custody fees are 0.0033% of average monthly fair value of the portfolio plus transaction charges

This fiscal year's actual expense ratio, net of waivers for the IPAIT Diversified Portfolio was 0.14% of average net position based on a sliding fee scale.

Actual:

For the fiscal year ended June 30, 2022, the following actual expenses, net of waivers, were incurred by the Fund:

	Diversified Portfolio
Adviser	\$ 175,994
Administrator	221,985
Marketing	158,464
Sponsoring Associations	198,079
Custody	28,058
Other fees and expenses	43,800
Total	\$ 826,380

Statement of Additional Information (unaudited)

OTHER INFORMATION

Units of IPAIT's Diversified Portfolio are not insured by the FDIC or the U.S. Government. Investment products involve investment risk, including the possible loss of principal. Past performance is not predictive of future results, and the composition of the Fund's portfolio is subject to change.

PARTICIPANT MEETING RESULTS

No participant meetings were held during the fiscal year ended June 30, 2022, for proposals requiring participant approval.

Investment Commentary (unaudited)

Interest rates have risen sharply over the past year with the increase in the first 6 months of calendar year 2022 being particularly swift. Rising rates have resulted in a challenging investment performance environment. A confluence of negative economic, policy, geopolitical, and pandemic risks has pushed bond and equity values materially lower given corresponding inflation increases. Following the Fed's shift in tone at their November 2021 meeting, interest rates have risen at the fastest pace in history, hurting global returns across virtually all asset classes. While interest rates have been the primary culprit in lowering asset values thus far in 2022, tight labor markets and ongoing supply chain problems, along with higher input costs, have weighed on projected economic growth and forward earnings projections. Just as the supply chain was recovering from Covid disruptions, the war in Ukraine caused further disturbance.

The reporting period began with a stabilization as the economy returned to normal following the Covid-19 pandemic. Real Gross Domestic Product (GDP) grew at 2.3% and 6.9% during the third and fourth quarters of 2021, respectively. Economic growth has stalled in 2022 as GDP growth struggled to maintain the pace of inflation. Real GDP declined 1.6% and 0.9% during the first and second quarters of 2022. While growth momentum has felt the strain of inflation, the labor market remains healthy. The unemployment rate was stable at 3.6% in the first three quarters of the fiscal year. Additions to non-farm payrolls are still strong on a historic basis but are nearing their pre-pandemic levels. Initial jobless claims edged up in June while job openings remain exceptionally high.

The consumer remains the primary driver of U.S. economic growth. As the economy has fully reopened over the past year, labor force participants have transitioned away from government assistance and back to employer income. Personal income dropped year-over-year in the first quarter of 2022, but spending has remained strong. Taken in combination with the strength of the labor market, the consumer appears well positioned to weather a higher interest rate environment. This provides the Fed with the confidence it needs to continue raising rates and slowing the economy to get inflation back to their 2% target.

Inflation has been persistent and significant. In March, headline and core consumer price indices (CPI) were high at 8.3% and 6.2% year-over-year, respectively. With inflation near 40-year highs, some economists felt inflation had peaked. In June, however, headline and core inflation pushed higher to 9.1% and 5.6%, respectively. Inflation can be found across nearly all categories of goods and services. Wages are one potential source of longer term inflation pressure. As employees leave their jobs for higher paying ones, employers are forced to raise wages to attract replacement employees. Wage growth remains elevated.

At their June 14th meeting, the Federal Open Market Committee (FOMC) increased the Fed Funds target range to 1.50% to 1.75%. This was a 75 basis point hike, the largest since 1994. The Federal Reserve stated their number one priority is to control price levels, a stark contrast to their more dovish tone last summer. The Fed's inflation forecasts for 2023 were revised up to 3.8%, reinforcing the Fed's revised view that inflation will be more persistent than previously forecast. Federal Reserve Chairman Jerome Powell has indicated a narrower path to a soft landing as higher rates have tightened financial conditions and slowed economic growth.

As the Fed has aggressively raised rates through the first half of 2022, fixed income and equity returns have been under pressure. Many fixed income investors have experienced negative returns in their accounts due to the historic rise in rates. It is important to note that markets have been free of any major credit event. Even money market funds and local government investment pools have shortened maturities and increased liquidity in the face of quickly rising rates to protect stable \$1.00 net asset values. Credit spreads have widened over the past year but, overall, investment grade companies remain quite healthy with strong earnings and relatively low leverage. Meanwhile, the S&P 500 officially entered a bear market in 2022. This major U.S. stock index posted a return of -20.7% for the year ended June 30.

The 10-year U.S. Treasury yield rose 1.65% between June 30, 2021, and June 30, 2022, to close at 3.09%. The 2-year U.S. Treasury yield rose 2.71% during the same period, closing at 2.96%. The 1-year U.S. Treasury yield was 2.78% on June 30, 2022. Treasury yields for securities maturing one year or less, which are heavily influenced by Federal Reserve policy, increased by 1.50% to 1.75% during the period.

Investment Policy (unaudited)

SECTION 1 – SCOPE OF INVESTMENT POLICY

The Investment Policy of the Iowa Public Agency Investment Trust (IPAIT) shall apply to all funds invested on behalf of participants accounted for in the IPAIT financial statements. Each investment made pursuant to this Investment Policy must be authorized by applicable law and this written Investment Policy.

This Investment Policy is intended to comply with Iowa Code chapters 28E, 12B, 12C and sections 331.555 and 384.21.

Upon passage and upon future amendment, if any, copies of this Investment Policy shall be delivered to all of the following:

1. The IPAIT Board of Trustees.
2. All IPAIT depository institutions or fiduciaries.
3. The auditor engaged to audit any fund of IPAIT.

SECTION 2 – FUNDAMENTAL INVESTMENT RESTRICTIONS

A. Unless otherwise specified below, none of the portfolios will:

1. Invest more than 5 percent of the value of their total assets in the securities of any one federally insured Iowa depository institution (other than securities of the U.S. government or its agencies or instrumentalities).
2. Invest 25 percent or more of the value of their total assets in the securities of issuers conducting their principal business activities in any one industry, including financial institutions. This restriction does not apply to securities of the U.S. government or its agencies and instrumentalities and repurchase agreements relating thereto.
3. Mortgage, pledge or hypothecate their assets.
4. Make short sales of securities or maintain a short position.
5. Purchase any securities on margin.
6. Write, purchase or sell puts, calls or combinations thereof.
7. Purchase or sell real estate or real estate mortgage loans.
8. Invest in restricted securities or invest more than 10 percent of the Portfolio's net assets in repurchase agreements with a maturity of more than seven days, and other liquid assets, such as securities with no readily available market quotation.
9. Underwrite the securities of other issuers.

B. Prohibited Investments

Assets of IPAIT shall not be invested in the following:

1. Reverse repurchase agreements.
2. Futures and options contracts.
3. Any security with a remaining maturity exceeding 397 days.

C. Prohibited Investment Practices

The following investment practices are prohibited:

1. Trading of securities for speculation or the realization of short-term trading gains.
2. Investing pursuant to a contract providing for the compensation of an agent or fiduciary based upon the performance of the invested assets.
3. If a fiduciary or other third party with custody of public investment transaction records of IPAIT fails to produce requested records when requested by IPAIT or its agents within a reasonable time, IPAIT shall make no new investment with or through the fiduciary or third party and shall not renew maturity investments with or through the fiduciary or third party.

Investment Policy (unaudited) (cont.)

D. Management Policies and Procedures

Following are the fundamental management policies and procedures for IPAIT. All investments shall be maintained in separate IPAIT custodial accounts, segregated by Portfolio on behalf of IPAIT Participants.

1. Each purchase or sale of a security must be handled on a delivery versus payment (DVP) basis. Funds for the purchase of an investment shall not be released to the seller until the security is delivered to the IPAIT Custodian. Conversely, a sold security shall not be released to the buyer until funds for the purchase price of the security have been received by the IPAIT Custodian.
2. "Free delivery" transactions are prohibited. The Custodian shall never release assets from the IPAIT custodial accounts until the funds for the investment are delivered.
3. Any material deviation (greater than 0.5 percent) from the amortized cost of investments shall be promptly reported by the Adviser to the Board of Trustees. If such deviation exceeds 0.5 percent, the Adviser will consider what action, if any, should be initiated to reasonably eliminate or reduce material dilution or other unfair results to Participants. Such action may include redemption of Trust Units in kind, selling portfolio securities prior to maturity, withholding distributions, or utilizing a net asset value per Trust Unit based upon available market quotations.
4. The frequent trading of securities, including day trading for the purpose of realizing short-term gains, the purchase and sale of futures and options to buy or sell authorized investments, reverse repurchase agreements, and other similar speculative transactions are expressly prohibited.
5. IPAIT may not make any investment other than Permitted Investments authorized by the provisions of the law applicable to the investment of funds by the Participants, as such laws may be amended from time to time.
6. IPAIT may not purchase any Permitted Investment if the effect of such purchase by IPAIT would be to make the average dollar weighted maturity of a portfolio greater than sixty (60) days.
7. IPAIT may not borrow money or incur indebtedness whether or not the proceeds thereof are intended to be used to purchase Permitted Investments.
8. IPAIT may not make loans, provided that IPAIT may make Permitted Investments.

The restrictions set forth above are fundamental to the operation and activities of IPAIT and may not be changed without the affirmative approval, in writing, of a majority of the Participants entitled to vote, except that such restrictions may be changed by the Trustees so as to make them more restrictive when necessary to conform the investment program and activities of IPAIT to the laws of the State of Iowa and the United States of America as they may from time to time be amended.

The above investment restrictions shall not be changed without the vote of a majority of the Participants in a Portfolio. "Majority" means the lesser of (a) 67 percent of the Trust's or a Portfolio's outstanding Trust Units voting at a meeting of the Participants at which more than 50 percent of the outstanding Trust Units are represented in person or by proxy, or (b) a majority of the Trust's or a Portfolio's outstanding Trust Units.

Provided, however, the Trust may invest Portfolio assets pursuant to the maximum extent possible by Iowa law governing investments by public agencies, and any change in the restrictions of the Iowa law governing investments by public agencies, shall be deemed to be adopted by the Trust, and such change shall not require the approval of the Participants.

Any investment restrictions or limitations referred to above which involve a maximum percentage of securities or assets shall not be considered to be violated unless an excess over the percentage occurs immediately after an acquisition of securities or utilization of assets and results therefrom.

Section 3 – DELEGATION OF AUTHORITY

The responsibility for conducting IPAIT investment transactions resides with the IPAIT Board of Trustees. Certain responsibilities have been delegated to the Administrator(s), the Adviser(s), and the Custodian (the "Service Providers") pursuant to the Administrator Agreement(s), the Adviser Agreement(s), the Custodian Agreement, with amendments as may be adopted from time to time, and the current Information Statement (the "Documents").

Each Service Provider shall individually notify the IPAIT Board of Trustees in writing within thirty days of receipt of all communications from the auditor of any Service Provider or any regulatory authority of the existence of a material weakness in internal control structure of the Service Provider or regulatory orders or sanctions regarding the type of services being provided to IPAIT by the Service Provider.

The records of investment transactions made by or on behalf of IPAIT are public records and are the property of IPAIT whether in the custody of IPAIT, or in the custody of a fiduciary or other third party.

Investment Policy (unaudited) (cont.)

Section 4 – OBJECTIVES OF INVESTMENT POLICY

The primary objectives, in order of priority, of all investment activities involving the financial assets of IPAIT shall be the following:

1. **Safety:** Safety and preservation of principal in the overall portfolio is the foremost investment objective.
2. **Liquidity:** Maintaining the necessary liquidity to match expected liabilities is the second investment objective.
3. **Return:** Obtaining a reasonable return is the third investment objective.

Section 5 – PRUDENCE

The Board of Trustees, when providing for the investment of deposit of public funds in the IPAIT program, shall exercise the care, skill, prudence, and diligence under the circumstances then prevailing that a person acting in a like capacity and familiar with such matters would use to attain the Section 4 investment objectives.

Section 6 – INSTRUMENTS ELIGIBLE FOR INVESTMENT

Assets of IPAIT may be invested in the following, all as more fully described in the IPAIT Information Statement:

- Obligations of the United States government, its agencies and instrumentalities.
- Certificates of deposit ("CDs") and other evidences of deposit at federally insured Iowa depository institutions approved and secured pursuant to chapter 12C.
- Repurchase agreements, provided that the underlying collateral consists of obligations of the United States government, its agencies and instrumentalities and that the Custodian takes delivery of the collateral either directly or through a third party custodian.
- Insured deposits or certificates of deposit, invested pursuant to Iowa Code Section 12B10(7), in an amount above any insured portion of the public funds on deposit at a federally insured Iowa depository institution approved and secured pursuant to Iowa Code chapter 12C.
- Shares of a "government only" open-end management investment company registered with the federal Securities and Exchange Commission under the federal Investment Company Act of 1940, 15 U.S.C. §80a-1, and operating in accordance with 17 C.F.R. §270.2a-7.

All instruments eligible for investment are further qualified by all other provisions of this Investment Policy, including Section 7, Diversification and Investment Maturity Limitations.

Section 7 – DIVERSIFICATION AND INVESTMENT MATURITY LIMITATIONS

It is the policy of IPAIT to diversify portfolio investments in the Diversified Portfolio. As described in the Information Statement, portfolio investments in the Diversified Portfolio are limited to the following:

1. No individual investment with maturity in excess of 397 days.
2. The maximum average maturity of all portfolio investments may not exceed 60 days. Pursuant to IPAIT policies as disclosed in the Documents, Participants may also individually invest in Fixed Term Program investments.

Investment Policy (unaudited) (cont.)

Section 8 – SAFEKEEPING AND CUSTODY

All invested assets of Participants in the Portfolios or in the Fixed Term Program shall be held in accordance with the Custodian Agreement.

All invested assets eligible for physical delivery shall be secured by having them held at a third party custodian. All purchased investments shall be held pursuant to a written third party custodial agreement requiring delivery versus payment. No assets may be delivered out of the IPAIT account without full payment (no “free deliveries” shall be permitted).

Section 9 – REPORTING

The Service Providers shall submit all reports required in the Documents.

Section 10 – INVESTMENT POLICY REVIEW AND AMENDMENT

This Investment Policy shall be reviewed annually, or more frequently, as appropriate. Notice of amendments to the Investment Policy shall be promptly given to all parties noted in Section 1.

Section 11 – EFFECTIVE DATE

This Investment Policy shall be effective as of September 1, 2017.
Passed and approved this 30th day of August, 2017.

Amended effective November 1, 2003, August 26, 2009, August 25, 2010, August 28, 2013, and August 30, 2017.

Glossary of Investment Terms

Accrued Interest - interest accumulated on all securities in a portfolio since the most recent payment date for each security.

Administrator - entity that carries out IPAIT policies and provides participant recordkeeping services.

Amortized Cost - method of accounting that gradually reduces a security's discount or premium on a straight-line basis.

Assets - items in financial statement with current fair value owned by IPAIT.

Certificate of Deposit - debt instrument issued by a financial institution with an interest rate set by competitive forces in the marketplace.

Collateral - U.S. government or agency securities pledged to IPAIT until investment is repaid. For instance, the security for a collateralized certificate of deposit issued by an Iowa financial institution.

Compound Rate - interest calculation based upon investment of principal plus reinvestment of interest earned from previous period(s). IPAIT portfolio interest is compounded or reinvested monthly.

Custodian - bank that maintains custody of all IPAIT assets.

Discount - the dollar amount by which the par value of a bond exceeds its market price.

Diversified - spreading of risk by investing assets in several different categories of investment and assorted maturities within those categories.

Investment Adviser - Securities and Exchange Commission-registered firm that provides investment advice to IPAIT.

Iowa Code Chapter 74A Rates - minimum rates at which Iowa financial institutions may accept deposits of public funds for various periods.

Liabilities - claims on the assets of IPAIT.

Fair Value - the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Net Investment Income - income from IPAIT investments distributed to participants after payment of program operating expenses.

Nominal Rate - simple interest calculation based only upon the principal amount invested without reinvestment of earned interest.

Par Value - value of IPAIT investments at maturity.

Portfolio - all investments owned by IPAIT.

Premium - the dollar amount by which the market price of a bond exceeds its par value.

Redemptions - withdrawal of funds by participants from IPAIT.

Repurchase Agreement - agreement between IPAIT and a seller of U.S. government securities, whereby the seller agrees to repurchase the securities at an agreed upon price at a stated time. The transaction is collateralized by U.S. government or U.S. agency securities with a fair value of at least 102% of the value of the repurchase agreement.

Straight-Line - conservative accounting procedure to reduce a security's premium or discount in equal daily increments over its remaining period to maturity.

U.S. Government Agencies - securities issued by U.S. government-sponsored corporations such as the Federal Home Loan Bank and Federal National Mortgage Association.

U.S. Government Securities - direct obligations of the U.S. government, such as Treasury bills, notes and bonds.

Yield Curve - graph plotting yields of securities of similar quality on vertical axis and maturities ranging from shortest to longest on horizontal axis.
