## INTRODUCTION

### AUTHORITY

This report serves as the annual update under Iowa Code 256F.10 subsection 2 for the 2021-2022 school year for the charter schools authorized under Iowa Code 256F and Iowa Administrative Code chapter 68. This authority was modified with the passage of House File 813, Charter School Programs, effective July 1, 2021. While no new charter schools will be authorized under Iowa Code 256F, the State Board of Education (State Board) is required to submit this report to the general assembly for the remaining charter schools authorized under Iowa Code 256F.

Iowa Code section 256F.10 requires the following: *Not later than December 1 annually, the state board shall submit a comprehensive report with findings and recommendations to the general assembly. The report shall evaluate the state's charter school and innovation zone school programs generally, including but not limited to an evaluation of whether the charter schools and innovation zone schools are fulfilling the purposes set forth in section 256F.4, subsection 2. The report also shall contain, for each charter school or innovation zone school, a copy of the charter school or innovation zone school's mission statement, attendance statistics and dropout rate, aggregate assessment test scores, projections of financial stability, the number and qualifications of teachers and administrators, and number of and comments on supervisory visits by the department of education.*

### CHARTER SCHOOLS IN IOWA

During the 2021-2022 school year, there were two public charter schools in the state of Iowa. Schools with public charter school status are:

<b>Charter</b>	<b>School District</b>	<b>Charter Status Year</b>	<b>Renewal Date</b>	<b>Next Renewal Year</b>
Storm Lake Early College Charter	Storm Lake Community School District (CSD)	2005-2006	March 24, 2022	2025-2026
West Central Charter High School	West Central CSD (Maynard)	2005-2006	March 28, 2019	2022-2023

The appendices of this report are the self-reported data from each individual schools' assessment on progress towards each of its goals and other required data. This data is submitted to the Iowa Department of Education (Department) by each individual charter school in the form of an annual report.

## CHARTER SCHOOL GOALS AND END OF YEAR REPORTS

As a part of its application, each public charter school has developed goals for the charter school. These goals are specific to each charter school, which does not allow for comparison between or among charter schools. At the end of each school year, Iowa charter schools complete an end-of-the-year report documenting progress toward each of its goals in accordance with Iowa Code 256F.10 subsection 1 which states:

*A charter school or innovation zone school shall report at least annually to the school board or innovation zone consortium, advisory council, and the state board the information required by the school board or innovation zone consortium, advisory council, or the state board. The reports are public records subject to chapter 22.* The end-of-the-year reports are collected annually and support is provided to the schools as needed.

## SUPERVISORY VISITS

During the 2021-2022 school year, the Department charter school consultant did not conduct any face-to-face visits to charter schools in the state due to the pandemic. All business was either conducted via phone, email, or virtual meetings.

## FINANCIAL STABILITY

The Bureau of School Business Operations reports none of the two public school districts currently operating charter schools in the state finished fiscal year 2022 (FY22) with a negative unspent balance.

## DEPARTMENT OF EDUCATION'S FINDINGS AND RECOMMENDATIONS

### EVALUATION OF CHARTER SCHOOLS AND INNOVATION ZONES

The Department monitors and provides technical assistance to districts operating charter schools and programs. For the 2021-2022 school year, the Department has determined that each charter school operating in Iowa is fulfilling the requirements set forth in Iowa Code 256F.4 subsection 2, which are:

Although a charter school or innovation zone school may elect to comply with one or more provisions of statute or administrative rule, a charter school or innovation zone school is exempt from all statutes and rules applicable to a school, a school board, or a school district, except that the charter school or innovation zone school shall do all of the following:

- a. Meet all applicable federal, state, and local health and safety requirements and laws prohibiting discrimination on the basis of race, creed, color, sex, sexual orientation, gender identity, national origin, religion, ancestry, or disability. A charter school or innovation zone school shall be subject to any court-ordered desegregation plan in effect for the school district at the time the charter school or innovation zone school application is approved.
- b. Operate as a nonsectarian, nonreligious public school.
- c. Be free of tuition and application fees to Iowa resident students between the ages of five and twenty-one years.
- d. Be subject to and comply with chapters 216 and 216A relating to civil and human rights.
- e. Provide special education services in accordance with chapter 256B.
- f. Be subject to the same financial audits, audit procedures, and audit requirements as a school district. The audit shall be consistent with the requirements of sections 11.6, 11.14, 11.19, 256.9, subsection 20, and section 279.29, except to the extent deviations are necessary because of the program at the school. The department, the auditor of state, or the legislative services agency may conduct financial, program, or compliance audits.
- g. Be subject to and comply with chapter 284 relating to the student achievement and teacher quality program. A charter school or innovation zone school that complies with chapter 284 shall receive state moneys or be eligible to receive state moneys calculated as provided in section 257.10, subsections 9 and 10, and section 257.37A as if it did not operate under a charter school or innovation zone school contract.
- h. Be subject to and comply with chapters 20 and 279 relating to contracts with and discharge of teachers and administrators.
- i. Be subject to and comply with the provisions of chapter 285 relating to the transportation of students.
- j. Meetings and records of the advisory council are subject to the provisions of chapters 21 and 22.

Effective July 1, 2021, House File 813 was signed establishing a new charter school Iowa Code chapter 257E and also creating Iowa Code section 256F.12 which states: *Operation of existing charter schools. Charter schools established under this chapter prior to July 1, 2021, shall continue to operate under and be subject to the requirements of this chapter and shall not be subject to chapter 256E.*

## RECOMMENDATIONS

The State Board will continue to examine the data contained in the appendices of this report, as well as additional necessary information, to determine if the existing charter schools are meeting the purposes outlined in 256F.1 subsection 3 as the existing charters come to the State Board for renewal. Iowa Code 256F.1 subsection 3 states:

The purpose of a charter school or an innovation zone school established pursuant to this chapter shall be to accomplish the following:

- a. Improve student learning.
- b. Increase learning opportunities for students.
- c. Encourage the use of different and innovative methods of teaching.
- d. Require the measurement of learning outcomes and create different and innovative forms of measuring outcomes.
- e. Establish new forms of accountability for schools.
- f. Create new professional opportunities for teachers and other educators, including the opportunity to be responsible for the learning program at the school site.
- g. Create different organizational structures for continuous learner progress.
- h. Allow greater flexibility to meet the education needs of a diverse and constantly changing student population.
- i. Allow for the allocation of resources in innovative ways through implementation of specialized school budgets for the benefit of the schools served.

## APPENDIX A: STORM LAKE/IOWA CENTRAL/BUENA VISTA EARLY COLLEGE CHARTER HIGH SCHOOL

### SCHOOL INFORMATION

Name of Charter: Storm Lake/Iowa Central/Buena Vista Early College Charter High School

District Name and Address: Storm Lake Community School District, 419 Lake Ave. Storm Lake, IA 50588

Superintendent's Name: Dr. Stacey Cole

Person Completing Report: Brittany Brown, [bbrown2@slcsd.org](mailto:bbrown2@slcsd.org)  
 Matt Doebel, [mdoebel@slcsd.org](mailto:mdoebel@slcsd.org)

**Mission Statement:** The mission of the Early College Charter High School Program is to make higher education more accessible, affordable, and attractive to all students, especially those who do not see a college degree in their future due to language and/or economic barriers, and, thereby helping to increase Storm Lake's high school graduation and successful college completion rates for all of its graduates- especially a portion of its most disadvantaged youth.

What year was this school chartered? 2005

Number of students enrolled in the charter school: 63

**GOAL REPORTING:**

**Goal 1: Increase the number of first-generation, Low SES, ELL and Non-Caucasian students attaining advanced postsecondary degrees/certificates or college credits.**

**Rationale:** As shown in Table 2.1, the overall number of students attaining a degree or certification has increased from two students to nine students over the past year. The program is continually seeing students enroll and attain college credit for the first time or building upon college credit taken in high school. For many students the goal is to transfer to a four-year university or enroll in an additional associate’s degree program. First generation, Low SES, ELL and Non-Caucasian students are still showing high representation in enrollment.

### **Goal 2: Provide a more rigorous/relevant college/prep curriculum.**

**Rationale:** The number of concurrent enrollment courses increased slightly from the previous year. The number of credits earned by most grade levels increased significantly. As shown in Table 3, Storm Lake High School offers approximately 121 PSEO, Early Bird, or Distance Learning (online) courses that students may enroll. These courses allow each student to take advantage of dual credit courses and college prerequisites while in high school. Table 3 shows the number of college course offerings for the last five years along with the number of credits junior and seniors earned. Freshmen and sophomore credits earned have been included as those who qualify may also take college credit offerings. Data reflects concurrent enrollment credits earned for the year.

**Table 3**

Juniors	390	162	393	259	<b>975</b>
Seniors	558	483	362	614	<b>1200</b>

\*The number of course offerings reported indicates courses students enrolled in via Online, Early Bird, or PSEO. Interest and availability change offerings therefore 121 represents the number of courses in which students enrolled.

^ 2018-2019 is the first year reporting freshmen credits for concurrent enrollment.

### **Goal 3: Raise ITED/Iowa Assessment scores in Reading, Math, and Science**

**Rationale:** The school district started using the Iowa Assessment instead of the ITED during the 2011-2012 academic year. The new assessment, ISASP, started in the 2018-2019 school year. Due to the pandemic, there is no ISASP data available for the 2019-2020 school year. Table 4 includes data from the 2021-2022 ISASP in Math and English. Science is no longer required for juniors. There is a decrease in scores among all subgroups. A different implementation of testing will be in effect this year in hopes to show performance growth. Student's cognitive endurance proved unable to withstand one full day of testing implemented during this testing year. A two-day split allows students a break between testing in hopes of improving score data.

The school district implemented the PSAT to all juniors in the fall of 2017. This year's fall of 2021 data shows the PSAT scores in the areas of Evidence-Based Reading and Writing, and Math. The scores for these categories range 160-760 with an overall score range of 320-1520. Table 5 indicates that the juniors at Storm Lake High School scored an average ERW of 503. The overall average for juniors was 977. This shows a slight decrease in scores since we first began reporting in 2017 however, scores remain higher than pre-COVID data.

**Goal 4: Increase the number of dual-credit/concurrent enrollment credit earned.**

**Rationale:** Table 6 shows an increase in the number of concurrent enrollment credits earned during high school as well as after high school for the 2021-2022 school year. Table 7 and 7.1 list the breakdown of credits obtained in high school and outside of high school for the last five years by subgroups. The previous data shows a trend consistent with a steady increase in credits earned in and outside of high school. The obstacles the pandemic created are slowly fading and students are taking advantage of more face-to-face courses once again.

**Goal 5: All students will have individual learning plans.**

**Rationale:** All students entering the Charter program have an individual learning plan mapped out with the Charter Counselor and other Iowa Central Community College officials. The Charter Counselor holds monthly Charter meetings, informational meetings during parent-teacher conferences, and one-on-one appointments as needed throughout the year to adjust or revise these plans. Students meet with their academic advisors ahead of the charter school year, given a proper college orientation, meet with Academic Assistance and Accommodations Specialists, and the Work Based Learning Coordinator to inform students of the resources and opportunities on campus.

Table 8 shows the number of Charter students who completed their program of study as well as the number of students who obtained college credit and continued on to a two or four year college or university. Nine students completed their program of study, 26 returned to complete their program at Iowa Central Community College, and two students transferred to four-year universities to work towards bachelor's degrees in their respective fields.

## **QUALIFICATIONS OF TEACHERS?**

All teachers employed at Storm Lake High School are qualified to teach in their areas in accordance with the BOEE. Iowa Central Community College and Buena Vista University instructors meet the requirements set forth by their institutions.

## **DOES THE DISTRICT HAVE A NEGATIVE UNSPENT BALANCE FOR FY22?**

The Storm Lake Community School District does not have a negative unspent balance for FY22.

## **PROGRAM HIGHLIGHTS AND EVALUATION**

### **How is the charter school program evaluated?**

The Storm Lake/Iowa Central/Buena Vista Early College Charter High School program is evaluated annually through the Charter Advisory Board and the Iowa Department of Education Consultant, Janet Boyd. The charter report is reviewed annually, evaluated, and suggestions are given on improvements. The board is composed of Iowa Central advisors and representatives, Storm Lake School District administration, board members and staff, former and current charter students, and members of the Storm Lake community.

### **Is the charter school successful?**

The Storm Lake/Iowa Central/Buena Vista Early College Charter High School is successful. It continues to serve some of the most underrepresented students attending college. The charter program is providing a way for more students to pursue careers in high need/high demand trade programs as well as associate and bachelor's degrees. Student achievement is measured by those who complete their program, continue their education and finish their second year, or transfer to enroll in a university. A student this year was able to obtain their bachelor's degree from Buena Vista University in Biomedical Science with plans to apply to med school while eight other students completed their diploma or associate's degree. This is the highest number of completers we have had in a single year compared to the last five years of data. Areas of completion range from Carpentry, Welding, Criminal Justice, Entrepreneurship, Medical Assistant, and Nursing.

Additionally, eighteen previous charter students were able to finish with their associate's degree or program after an additional year or longer in areas of Radiologic Technology, Robotics, Electrical Tech, Computer Networking, Nursing, and Accounting. Many of these students transferred to various universities, found gainful employment in their fields, or are pursuing an additional degree from Iowa Central. Of the 26 that returned this year, 22 should graduate in the spring. This highlights the success of these individual students but more importantly, the value and opportunity the charter school provides to families in this diverse community.

The success of the program is a direct result of informing those who live and work in our community a priority. Many of the programs and procedures in place during COVID have returned to normal while ensuring safety protocols are still being met. Iowa Central Admissions counselors can still hold virtual meetings but have been more present in the high school setting explaining academic programs, transfer credits, campus living, course work, etc. Yearly collaboration continues with the local Iowa State Extension community group that serves to educate Latino youth to succeed in school and pursue higher education. This was the ninth year Iowa Central Representatives and the Charter Coordinator held summer orientation to help retention in the program. Financial aid/scholarship workshops along with year-end events and meetings resumed in person. The Storm Lake/Iowa Central/Buena Vista Charter program continues to collaborate, adapt and innovate ways to safely inform the students and community of our mission and to reach our goals each year.

## **ASSURANCE OF COMPLIANCE**

The charter school or innovation zone school completing this report is able to assure compliance with its contract, with Iowa Code chapter 256F, and with Iowa Administrative Code chapter 281—68.

## HOW IS THE CHARTER SCHOOL PROGRAM EVALUATED?

The charter school continues to impact the students who attend the West Central School District. The charter has an active board that is committed to providing educational opportunities to those that wish to participate. The Advisory Board meets regularly to review data on the charter school and make further recommendations to increase its effectiveness.

## IS THE CHARTER SCHOOL SUCCESSFUL?

Based off the data communicated in this report the charter has been effective at producing opportunities for students to earn college credits experiencing rigor in coursework which results in higher scores on standardized tests. We have also seen an increase in the amount of opportunities in career and technical supports that allow students to earn not only an AA degree, but also certificates required for on the job employment directly after high school. Students, parents, and school personnel communicate positive perceptions of the charter.

Some qualitative data:

- As a result of the Charter School, more students are transferring to higher education with more college credits than ever before.
- Students are taking a more rigorous course load earlier in their high school career than prior to entering the Charter for flexibility in their schedules for their junior and senior year. Most take seven or more classes per semester

- Students with IEP's and who are Low SES have had an increased opportunity for participation in college. Both are finding success at the college level as a result of the charter participation.
- All interviewees, including Charter and Non-Charter students, high school and college faculty, and advisory members feel the Charter is good for students, families, and the West Central School District. Numerous individuals referenced the support of the school board and administration for their commitment to maintaining the Charter.
- The Charter Advisory Committee has a good understanding of the requirements of the Charter, the responsibilities of the Advisory Committee to the Charter, and a high degree of confidence in the leadership and administration at both NICC and West Central. The group operates independently from the school BOD; the Superintendent is responsible for communicating between the advisory committee and BOD.

## **ASSURANCE OF COMPLIANCE**

The charter school or innovation zone school completing this report is able to assure compliance with its contract, with Iowa Code chapter 256F, and with Iowa Administrative Code chapter 281—68.
